

# 2012 Water Conservation Report

## Antelope Valley District

Cal Water's conservation programs are broad in scope and implemented with the goal of meeting 2020 urban water use reduction requirements. Approximately 493,000 gallons of water were conserved through the programs implemented in 2012. These programs are expected to save 2.6 million gallons (MG) over their lifetime.

- Single-Family Residential High-Efficiency Toilet Rebates
- Single-Family High-Efficiency Clothes Washer Rebates
- Single-Family Residential Surveys
- Single-Family High-Efficiency Sprinkler Nozzle Program
- Single-Family Residential Conservation Kits

### Conservation Kits

79 kits distributed & 348,000 gallons conserved in 2012. Expected lifetime savings of 1.1 MG over a 5 year product life.

### Residential Surveys

5 surveys completed & 59,000 gallons conserved in 2012. Expected lifetime savings of 241,000 gallons over a 5 year product life.

### High-Efficiency Toilet Rebates

8 toilet rebates paid & 53,000 gallons conserved in 2012. Expected lifetime savings of 702,000 gallons over a 25 year product life.

◆ = 100,000 gallons of active savings in 2012

**Cumulative Savings** - Water savings from most of the existing conservation programs continue well after implementation. In Antelope Valley, more than 1 MG of water have been conserved as a result of programs implemented in 2011 and 2012.

**Statewide policies and agreements** mandate water utilities to significantly reduce per capita urban water demand by 2020. Over the last several years water use has trended down. Changes in demand can be attributed to a number of factors, including, but not limited to, economic conditions, public awareness, climate, and implementation of conservation programs.

### Water Demand and Local Rainfall

gpcpd = gallons per capita per day

### Water Demand by Customer Type and State Legislated Targets

**Use water wisely.**  
**It's essential.**
