

2012 Water Conservation Report

Los Altos District

Cal Water's conservation programs are broad in scope and implemented with the goal of meeting 2020 urban water use reduction requirements. Approximately 8 million gallons (MG) of water were conserved through the programs implemented in 2012. These programs are expected to save 57 MG over their lifetime.

- Single-Family Residential High-Efficiency Toilet Rebates
- Single-Family High-Efficiency Clothes Washer Rebates
- Commercial High-Efficiency Clothes Washer Rebates
- Single-Family Residential Smart Controller Rebates
- Single-Family Bathroom Fixture Replacement Program
- Commercial Bathroom Fixture Replacement Program
- Single-Family Residential Surveys
- Single-Family High-Efficiency Sprinkler Nozzle Program
- Single-Family Residential Conservation Kits
- Water Wise School Education Program

High-Efficiency Clothes Washer Rebates

468 clothes washer rebates paid & 2 MG conserved in 2012. Expected lifetime savings of 13 MG over a 12 year product life.

Bathroom Fixture Replacement Program

154 toilet rebates paid & 1 MG conserved in 2012. Expected lifetime savings of 17 MG over a 25 year product life.

WaterWise School Education Program

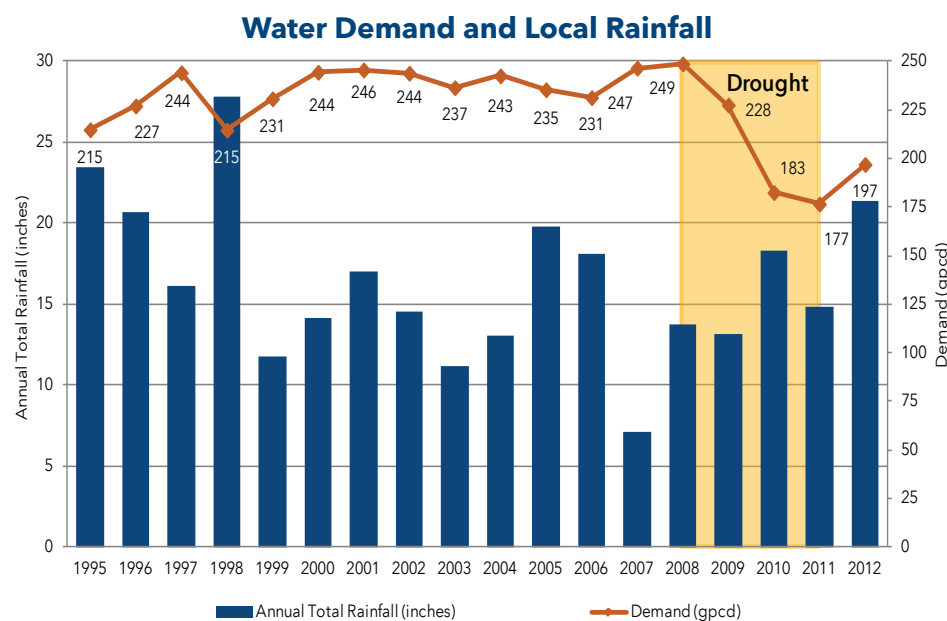

357 kits distributed & 2 MG conserved in 2012. Expected lifetime savings of 6 MG over a 5 year product life.

◆ = 1 MG of active savings in 2012

Cumulative Savings - Water savings from most of the existing conservation programs continue well after implementation. In Los Altos, more than 17 MG of water have been conserved as a result of programs implemented in 2011 and 2012.

Statewide policies and agreements mandate water utilities to significantly reduce per capita urban water demand by 2020. Over the last several years water use has trended down. Changes in demand can be attributed to a number of factors, including, but not limited to, economic conditions, public awareness, climate, and implementation of conservation programs.

gpcd = gallons per capita per day

Use water wisely.
It's essential.
