**Notification of Application Filed by California Water Service to Change Rates in Its Bakersfield District in 2020, 2021, and 2022 (Application No. 18-07-XXX)**

On July 2, 2018, California Water Service (Cal Water) filed its 2018 General Rate Case (GRC) Application (A.18.07-XXX) with the California Public Utilities Commission (CPUC). Cal Water is requesting total company revenue increases of \$52,508,343 (or 7.9%) for 2020, \$31,453,200 (or 4.4%) for 2021, and \$32,989,880 (or 4.4%) for 2022. If approved by the CPUC, rates would change beginning in January 2020.

**The Application**

Cal Water is requesting an overall revenue increase of \$12,229,986 (or 15.7%) for Bakersfield District customers over three years, as shown in the table below. Cal Water is requesting this increase for infrastructure upgrades, maintenance, water quality, safety measures, business operations, and inflation.

Revenue increases for 2021 and 2022 may vary from the provided estimates below due to the use of a CPUC-provided, inflation-based formula.

the key reasons Cal Water is making this request is to:

- Continue to invest in infrastructure to enhance safety and reliability, and to manage risks that could impact customers and/or fire protection systems;
- Meet water quality and environmental regulatory requirements; and
- Secure water supplies to ensure future reliability.

### **Obtaining a Copy of the Application**

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 3725 South H Street, Bakersfield, CA 93304. An electronic or paper copy of the application and related exhibits will be provided by Cal Water upon written request to California Water Service, 1720 North First Street, San Jose, CA 95112-4598.

A digital copy of the application may be reviewed on the CPUC's Docket Card webpage at <https://apps.cpuc.ca.gov/apex/f?p=401:1:0> by typing the proceeding number, without dashes, in the Proceeding Number Search box. A hard copy can be reviewed at the CPUC's Central Files Office by appointment. For more information, contact [aljcentralfilesid@cpuc.ca.gov](mailto:aljcentralfilesid@cpuc.ca.gov) or (415)-703-2045.

### **The CPUC's Process**

This application will be assigned to an Administrative Law Judge (Judge), who will determine how to receive evidence and other related documents necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held, where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision, and the issue will be decided at a scheduled Commission Voting Meeting.

The Office of Ratepayer Advocates (ORA) may review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers. For more information about ORA, please call (415) 703-1584, e-mail [ora@cpuc.ca.gov](mailto:ora@cpuc.ca.gov), or visit ORA's web site at [ora.ca.gov/default.aspx](http://ora.ca.gov/default.aspx).

This application will be assigned to an Administrative Law Judge (Judge), who will determine how to receive evidence and other related documents necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held, where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision, and the issue will be decided at a scheduled Commission Voting Meeting.

The Office of Ratepayer Advocates (ORA) may review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers. **Notification of Application Filed by California Water Service to Change Rates in Its Bay Area Region in 2020, 2021, and 2022 (Application No. 18-07-XXX)**

On July 2, 2018, California Water Service (Cal Water) filed its 2018 General Rate Case (GRC) Application (A.18.07-XXX) with the California Public Utilities Commission (CPUC). Cal Water is requesting total company revenue increases of \$52,508,343 (or 7.9%) for 2020, \$31,453,200 (or 4.4%) for 2021, and \$32,989,880 (or 4.4%) for 2022. If approved by the CPUC, rates would change beginning in January 2020.

**The Application**

Cal Water is requesting an overall revenue increase of \$15,612,228 (or 18.1%) for Bay Area Region customers over three years, as shown in the table below. Cal Water is requesting this increase for infrastructure upgrades, maintenance, water quality, safety measures, business operations, and inflation.

Revenue increases for 2021 and 2022 may vary from the provided estimates below due to the use of a CPUC-provided, inflation-based formula.

**Notification of Application Filed by California Water Service to Change  
Dixon District Rates in 2020, 2021, and 2022  
(Application No. 18-07-XXX)**

On July 2, 2018, California Water Service (Cal Water) filed its 2018 General Rate Case (GRC) Application (A.18.07-XXX) with the California Public Utilities Commission (CPUC). Cal Water is requesting total company revenue increases of \$52,508,343 (or 7.9%) for 2020, \$31,453,200 (or 4.4%) for 2021, and \$32,989,880 (or 4.4%) for 2022. Cal Water is requesting this increase for infrastructure upgrades, maintenance, water quality, safety measures, business operations, and inflation. If approved by the CPUC, rates would change beginning in January 2020.

**The Application**

Cal Water proposes consolidating the rates for the Dixon and Stockton Districts into a new “Central Region” to improve affordability and develop administrative efficiencies. (Revenue increases for 2021 and 2022 may vary from the provided estimates below due to the use of a CPUC-provided, inflation-based formula.)

With Consolidation – If this consolidation is approved by the CPUC as proposed, Cal Water requests an overall revenue increase of \$1,778,941 (or 53.9%) for Dixon customers over three years, as shown in the table below.

**Notification of Application Filed by California Water Service to Change Rates in Its Dominguez District in 2020, 2021, and 2022 (Application No. 18-07-XXX)**

On July 2, 2018, California Water Service (Cal Water) filed its 2018 General Rate Case (GRC) Application (A.18.07-XXX) with the California Public Utilities Commission (CPUC). Cal Water is requesting total company revenue increases of \$52,508,343 (or 7.9%) for 2020, \$31,453,200 (or 4.4%) for 2021, and \$32,989,880 (or 4.4%) for 2022. If approved by the CPUC, rates would change beginning in January 2020.

**The Application**

Cal Water is requesting an overall revenue increase of \$5,115,217 (or 7.0%) for Dominguez District customers over three years, as shown in the table below. Cal Water is requesting this increase for infrastructure upgrades, maintenance, water quality, safety measures, business operations, and inflation.

Revenue increases for 2021 and 2022 may vary from the provided estimates below due to the use of a CPUC-provided, inflation-based formula.

**Proposed Revenue Changes**

<i>Current Revenue Requirement</i>	<i>Proposed 2020 Revenue Change</i>	<i>Proposed 2021 Revenue Change</i>	<i>Proposed 2022 Revenue Change</i>
\$73,337,500	\$512,724 0.7%	\$2,199,176 3.0%	\$2,403,307 3.2%

**Proposed Revenue Changes by Type of Service**

<i>Type of Service Provided</i>	<i>Current Revenue Requirement</i>	<i>Proposed 2020 Revenue Change</i>	<i>Proposed 2021 Revenue Change</i>	<i>Proposed 2022 Revenue Change</i>
Residential Metered Service	\$20,510,752	\$460,688 2%	\$657,569 3%	\$720,048 3%
Nonresidential Metered Service*	\$42,503,656	\$182,320 <1 %	\$1,229,583 3%	\$1,341,380 3%

\*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

**Typical Customer Impact**

The following table details the change a residential customer with a 5/8"x3/4" meter would see in his or her bill if Cal Water's proposed rates for 2020, 2021, and 2022 are approved by the CPUC as requested. In 2017, the average residential customer with a 5/8"x3/4" meter used 10 Ccf (7,480 gallons) of water per month. **These numbers do not include temporary surcharges and credits.**

**Notification of Application Filed by California Water Service to Change Rates in Its Livermore District in 2020, 2021, and 2022 (Application No. 18-07-XXX)**

On July 2, 2018, California Water Service (Cal Water) filed its 2018 General Rate Case (GRC) Application (A.18.07-XXX) with the California Public Utilities Commission (CPUC). Cal Water is requesting total company revenue increases of \$52,508,343 (or 7.9%) for 2020, \$31,453,200 (or 4.4%) for 2021, and \$32,989,880 (or 4.4%) for 2022. If approved by the CPUC, rates would change beginning in January 2020.

**The Application**

Cal Water is requesting an overall revenue increase of \$2,822,569 (or 11.6%) for Livermore District customers over three years, as shown in the table below. Cal Water is requesting this increase for infrastructure upgrades, maintenance, water quality, safety measures, business operations, and inflation.

Revenue increases for 2021 and 2022 may vary from the provided estimates below due to the use of a CPUC-provided, inflation-based formula.

**Proposed Revenue Changes**

<i>Current Revenue Requirement</i>	<i>Proposed 2020 Revenue Change</i>	<i>Proposed 2021 Revenue Change</i>	<i>Proposed 2022 Revenue Change</i>
\$24,317,000	\$692,967 2.8%	\$1,076,225 4.3%	\$1,053,378 4.0%

**Proposed Revenue Changes by Type of Service**

<i>Type of Service Provided</i>	<i>Current Revenue Requirement</i>	<i>Proposed 2020 Revenue Change</i>	<i>Proposed 2021 Revenue Change</i>	<i>Proposed 2022 Revenue Change</i>

Nonresidential Metered Service*	\$6,405,160	\$10,866 <1%	\$298,327 5%	\$287,965 4%

\*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

**Typical Customer Impact**

The following table details the change a residential customer with a 5/8"x3/4" meter would see in his or her bill if Cal Water's proposed rates for 2020, 2021, and 2022 are approved by the CPUC as requested. In 2017, the average residential customer with a 5/8"x3/4" meter used 12 Ccf (8,976 gallons) of water per month. **These numbers do not include temporary surcharges and credits.**

the key reasons Cal Water is making this request is to:

- Continue to invest in infrastructure to enhance safety and reliability, and to manage risks that could impact customers and/or fire protection systems;
- Meet water quality and environmental regulatory requirements; and
- Secure water supplies to ensure future reliability.

### **Obtaining a Copy of the Application**

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 195 South N Street, Livermore, CA 94550. An electronic or paper copy of the application and related exhibits will be provided by Cal Water upon written request to California Water Service, 1720 North First Street, San Jose, CA 95112-4598.

A digital copy of the application may be reviewed on the CPUC's Docket Card webpage at <https://apps.cpuc.ca.gov/apex/f?p=401:1:0> by typing the proceeding number, without dashes, in the Proceeding Number Search box. A hard copy can be reviewed at the CPUC's Central Files Office by appointment. For more information, contact [aljcentralfilesid@cpuc.ca.gov](mailto:aljcentralfilesid@cpuc.ca.gov) or (415)-703-2045.

### **The CPUC's Process**

This application will be assigned to an Administrative Law Judge (Judge), who will determine how to receive evidence and other related documents necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held, where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision, and the issue will be decided at a scheduled Commission Voting Meeting.

The Office of Ratepayer Advocates (ORA) may review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers. For more information about ORA, please call (415) 703-1584, e-mail [ora@cpuc.ca.gov](mailto:ora@cpuc.ca.gov), or visit ORA's web site at [ora.ca.gov/default.aspx](http://ora.ca.gov/default.aspx).

the key reasons Cal Water is making this request is to:

- Continue to invest in infrastructure to enhance safety and reliability, and to manage risks that could impact customers and/or fire protection systems;
- Meet water quality and environmental regulatory requirements; and
- Secure water supplies to ensure future reliability.

### **Obtaining a Copy of the Application**

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 131 D Street, Marysville, CA 95901. An electronic or paper copy of the application and related exhibits will be provided by Cal Water upon written request to California Water Service, 1720 North First Street, San Jose, CA 95112-4598.

A digital copy of the application may be reviewed on the CPUC's Docket Card webpage at <https://apps.cpuc.ca.gov/apex/f?p=401:1:0> by typing the proceeding number, without dashes, in the Proceeding Number Search box. A hard copy can be reviewed at the CPUC's Central Files Office by appointment. For more information, contact [aljcentralfilesid@cpuc.ca.gov](mailto:aljcentralfilesid@cpuc.ca.gov) or (415)-703-2045.

### **The CPUC's Process**

This application will be assigned to an Administrative Law Judge (Judge), who will determine how to receive evidence and other related documents necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held, where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision, and the issue will be decided at a scheduled Commission Voting Meeting.

The Office of Ratepayer Advocates (ORA) may review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers. ### **The CPUC's Process**

This application will be assigned to an Administrative Law Judge (Judge), who will determine how to receive evidence and other related documents necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held, where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision, and the issue will be decided at a scheduled Commission Voting Meeting.

The Office of Ratepayer Advocates (ORA) may review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers. **Notification of Application Filed by California Water Service to Change  
Stockton District Rates in 2020, 2021, and 2022  
(Application No. 18-07-XXX)**

On July 2, 2018, California Water Service (Cal Water) filed its 2018 General Rate Case (GRC) Application (A.18.07-XXX) with the California Public Utilities Commission (CPUC). Cal Water is requesting total company revenue increases of \$52,508,343 (or 7.9%) for 2020, \$31,453,200 (or 4.4%) for 2021, and \$32,989,880 (or 4.4%) for 2022. Cal Water is requesting this increase for infrastructure upgrades, maintenance, water quality, safety measures, business operations, and inflation. If approved by the CPUC, rates would change beginning in January 2020.

**The Application**

Cal Water proposes consolidating the rates for the Dixon and Stockton Districts into a new “Central Region” to improve affordability and develop administrative efficiencies. (Revenue increases for 2021 and 2022 may vary from the provided estimates below due to the use of a CPUC-provided, inflation-based formula.)

With Consolidation – If this consolidation is approved by the CPUC as proposed, Cal Water requests an overall revenue increase of \$13,223,095 (or 26.3%) for Stockton customers over three years, as shown in the table below.

**Proposed Revenue Changes for Stockton Customers with Consolidation**

<i>Current Revenue Requirement</i>	<i>Proposed 2020 Revenue Change</i>	<i>Proposed 2021 Revenue Change</i>	<i>Proposed 2022 Revenue Change</i>
\$50,266,400	\$8,745,602 17.4%	\$3,000,889 5.1%	\$3,165,314 5.1%

**Proposed Revenue Changes by Type of Service with Consolidation**

<i>Type of Service Provided</i>	<i>Current Revenue Requirement</i>	<i>Proposed 2020 Revenue Change</i>	<i>Proposed 2021 Revenue Change</i>	<i>Proposed 2022 Revenue Change</i>
Residential Metered Service	\$28,890,135	\$3,877,268 13.4%	\$1,844,097 5.6%	\$1,885,849 5.4%

\*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

Without Consolidation – If consolidation is not approved by the CPUC as proposed, Cal Water requests an overall revenue increase of \$12,993,847 (or 25.8%) for Stockton customers over three years, as shown in the table below.

**Proposed Revenue Changes for Stockton Customers without Consolidation**

<i>Current Revenue Requirement</i>	<i>Proposed 2020 Revenue Change</i>	<i>Proposed 2021 Revenue Change</i>	<i>Proposed 2022 Revenue Change</i>

\*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

**Typical Customer Impact**

The following table details the change a residential customer with a 5/8"x3/4" meter would see in his or her bill if Cal Water's proposed rates for 2020, 2021, and 2022 are approved by the CPUC as requested. In 2017, the average residential customer with a 5/8"x3/4" meter used 12 Ccf (8,976 gallons) of water per month. **These numbers do not include temporary surcharges and credits.**

**Typical Residential Customer Bill Change**

<i>Residential Customer</i>	<i>Current Bill</i>	<i>Proposed 2020 Bill Change</i>	<i>Proposed 2021 Bill Change</i>	<i>Proposed 2022 Bill Change</i>
12 Ccf (8,976 gallons)	\$64.94	\$ 5.67 8.7%	\$ 5.40 7.6%	\$ 5.63 7.4%

**Key Reasons for Increase**

Cal Water has been providing water utility service to California communities for more than 90 years, and many of the facilities used for water service have reached the end of their useful lives. Some of

## Attachment D

the key reasons Cal Water is making this request is to:

- Continue to invest in infrastructure to enhance safety and reliability, and to manage risks that could impact customers and/or fire protection systems;
- Meet water quality and environmental regulatory requirements; and
- Secure water supplies to ensure future reliability.

### **Obtaining a Copy of the Application**

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 1070 West Wood Street, Suite A-1, Willows, CA 95988. An electronic or paper copy of the application and related exhibits will be provided by Cal Water upon written request to California Water Service, 1720 North First Street, San Jose, CA 95112-4598.

A digital copy of the application may be reviewed on the CPUC's Docket Card webpage at <https://apps.cpuc.ca.gov/apex/f?p=401:1:0> by typing the proceeding number, without dashes, in the Proceeding Number Search box. A hard copy can be reviewed at the CPUC's Central Files Office by appointment. For more information, contact [aljcentralfilesid@cpuc.ca.gov](mailto:aljcentralfilesid@cpuc.ca.gov) or (415)-703-2045.

### **The CPUC's Process**

This application will be assigned to an Administrative Law Judge (Judge), who will determine how to receive evidence and other related documents necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held, where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision, and the issue will be decided at a scheduled Commission Voting Meeting.

The Office of Ratepayer Advocates (ORA) may review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers. For more information about ORA, please call (415) 703-1584, e-mail [ora@cpuc.ca.gov](mailto:ora@cpuc.ca.gov), or visit ORA's web site at [ora.ca.gov/default.aspx](http://ora.ca.gov/default.aspx).

### **Stay Informed**

The CPUC offers a free Subscription Service available on the CPUC web site at <http://subscribe.cpuc.ca.gov/>, which allows you to follow this proceeding. RESIDENTIAL METERED SERVICE

(Page 2)

SPECIAL CONDITIONS

1. Qualifying low-income individually metered residential customers are eligible for credits as shown on **Schedule LIRA**.
2. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule LIRA** (Low-Income Ratepayer Assistance), and **Schedule AS** (Additional Surcharges and Surcredits).
3. **Fire sprinkler rate:** Any service to a residential customer not exceeding two units with a meter size that has a "fire sprinkler" rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the "fire sprinkler" rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply. Information specific to each area is below:  
Bayshore and Redwood Valley-Lucerne - the fire sprinkler rate for 1-inch meters is provided above.  
Redwood Valley-Coast Springs and Unified - the fire sprinkler rate for 1-inch meters provided above is the 5/8 x 3/4-inch meter service charge plus a \$2.50 surcharge per month.
4. **Capacity Surcharge for RWV-Coast Springs:** Monthly bills with usage at and above 5 CCF will include a monthly capacity surcharge of \$20.00 per CCF
5. **Safe Drinking Water Surcharges:** The SDWBA (Safe Drinking Water Bond Act) and SDWSRF (Safe Drinking Water State Revolving Fund) surcharges are in addition to the water bill. This surcharge must be identified on each bill. The surcharge is specifically for the repayment of the loan authorized by the decision indicated below for each area:  
**Coast Springs** (D.06-04-031), **Lucerne** (D.89-09-002), and **Rancho Del Paradiso** (D.84-09-045).

SPECIAL CONDITIONS (continued)

6. **Safe Drinking Water Service Fee for New Service in Lucerne:** The amount of the SDWSRF (Safe Drinking Water State Revolving Fund) Service Fee for New Service in Lucerne shall be equal to the accumulated total of the monthly surcharge that would have been applicable to such service from the effective date of surcharge implementation, until the date of the new service. The accumulated Service Fee shall not exceed the maximum charges listed in the table below and shall only apply to previously unserved lots. The effective date for the SDWSRF Service Fee for new lots is January 11, 2010.

	<u>Maximum SDWSRF Surcharge</u>
	<u>For New Service</u>
For 5/8 x 3/4 - inch meter	\$2,000.00
For 3/4 - inch meter	\$2,000.00
For Fire Sprinkler with 1 - inch meter	\$2,000.00
For 1 - inch meter	\$2,000.00
For 1-1/2 - inch meter	\$2,000.00
For 2 - inch meter	\$2,000.00
For 3 - inch meter	\$2,000.00
For 4 - inch meter	\$2,000.00
For 6 - inch meter	\$2,000.00
For mobile home park space	\$2,000.00

7. **Bi-monthly Billing:** The established billing cycle for the following areas is **bi-monthly** (every other month):

RWV-Coast Springs, RWV-Lucerne  
 In RWV-Unified: **Armstrong, Noel Heights, and Rancho Del Paradiso**  
 (All areas except for Bayshore and the Hawkins area of RWV-Unified.)

8. **Annual Service Charges in RWV-Unified: Armstrong, Noel Heights, and Rancho Del Paradiso (not Hawkins)**

The annual service charge applies to service during the twelve-month period commencing July 1, and is due in advance. If a permanent resident of the area has been a customer of the utility for at least twelve months, he may elect at the beginning of each year to pay prorated service charges in advance at intervals of less than one year in accordance with the utility's established billing cycle.

9. **Opening Bill for Metered Service in RWV-Unified: Armstrong, Noel Heights, and Rancho Del Paradiso (not Hawkins)**

The opening bill for metered service, except from conversion from flat rate service, shall be the established annual service charge for the service. Where initial service is established after the first day of any year, the portion of such annual charge applicable to the current year shall be determined by multiplying the annual charge by one three-hundred-sixty-fifth (1/365) of the number of days remaining in the year. The balance of the payment of the initial annual charge shall be credited against the charges for the succeeding annual period. If service is not continued for at least one year after the period of initial service, no refund of the initial annual charges shall be due the customer.

10. **New Service in RWV-Coast Springs**

Applicants requesting water service that would cause the Coast Springs water system to exceed 250 service connections, or such higher number of connections as DHS may subsequently allow under Coast Springs water system's domestic water supply permit, will be placed on a waiting list. Once additional service connections become available, applicants on the waiting list will be notified in the order they were received. Any previously accepted application for water service in the Coast Springs water system will be revoked if proof of a valid building permit is not provided within 18 months of acceptance of the application for water service or March 17, 2003, whichever is later. Applicants who have had their approval revoked in this manner will be placed at the end of the waiting list.

11. **Exemption for Saint Anthony's Monastery in RWV-Coast Springs**

Two residential water connections are reserved for the property formerly owned by Cynthia Christopher and Geronima Belen and subsequently sold to the Saint Anthony's Monastery. Those two reserved connections are exempt from the requirement to provide a building permit within 18 months or be dropped from the approved service connections list.

The service charge is a readiness-to-serve charge which is applicable to all metered service and to which is added the charge for water used computed at the quantity rates.

SPECIAL CONDITIONS

1. Qualifying low-income individually metered residential customers are eligible for credits as shown on **Schedule LIRA**.
2. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule LIRA** (Low-Income Ratepayer Assistance), and **Schedule AS** (Additional Surcharges and Surcredits).
3. **Fire sprinkler rates:** A single-family residence with a meter size that has a "fire sprinkler" rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the "fire sprinkler" rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.

The service charge is a readiness-to-serve charge which is applicable to all metered service and to which is added the charge for water used computed at the quantity rates.		
<u>SPECIAL CONDITIONS</u>		
1. Customers who receive water deliveries for agricultural purposes under this schedule, and who present evidence to the utility that such deliveries qualify for the lower pump tax rates levied by Santa Clara Valley Water District for agricultural water, shall receive a credit of 50.1 cents per 100 cu. ft. on each water bill for the quantities of water used during the period covered by that bill.		
2. All bills are subject to the following tariff schedules: <b>Schedule UF</b> (CPUC reimbursement fee) and <u>applicable</u> surcharges and surcredits on <b>Schedule RSF</b> (Rate Support Fund), <b>Schedule LIRA</b> (Low-Income Ratepayer Assistance), and <b>Schedule AS</b> (Additional Surcharges and Surcredits).		
3. Qualifying non-profit group living facilities, agricultural employee housing facilities, and migrant farm worker housing centers are eligible for credits as shown on <b>Schedule LIRA</b> .		
4. <b>Water Expense Increase:</b> Beginning on or after July 1, 2018, an increase in purchased water and pump tax costs of \$0.3541/CCF and an associated increase in total revenue of 4.80% (relative to the costs and revenues approved in AL 2286-A) are being tracked in a balancing account as required by Section 792.5 of the Public Utilities Code.

The service charge is a readiness-to-serve charge which is applicable to all metered service and to which is added the charge for water used computed at the quantity rates.

SPECIAL CONDITIONS

1. Qualifying low-income individually metered residential customers are eligible for credits as shown on **Schedule LIRA**.
2. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule LIRA** (Low-Income Ratepayer Assistance), and **Schedule AS** (Additional Surcharges and Surcredits).
3. Fire sprinkler rates: A single-family residence with a meter size that has a "fire sprinkler" rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the "fire sprinkler" rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.

SPECIAL CONDITIONS (continued)

6. **Safe Drinking Water Service Fee for New Service in Lucerne:** The amount of the SDWSRF (Safe Drinking Water State Revolving Fund) Service Fee for New Service in Lucerne shall be equal to the accumulated total of the monthly surcharge that would have been applicable to such service from the effective date of surcharge implementation, until the date of the new service. The accumulated Service Fee shall not exceed the maximum charges listed in the table below and shall only apply to previously unserved lots. The effective date for the SDWSRF Service Fee for new lots is January 11, 2010.

		<u>Maximum SDWSRF Surcharge</u>
		<u>For New Service</u>
For	5/8 x 3/4 - inch meter	\$2,000.00
For	3/4 - inch meter	\$2,000.00

For	1 - inch meter	\$2,000.00
For	1-1/2 - inch meter	\$2,000.00
For	2 - inch meter	\$2,000.00
For	3 - inch meter	\$2,000.00
For	4 - inch meter	\$2,000.00
For	6 - inch meter	\$2,000.00
	For mobile home park space	\$2,000.00

7. **Bi-monthly Billing:** The established billing cycle for the following areas is **bi-monthly** (every other month):

**RWV-Coast Springs, RWV-Lucerne**  
 In RWV-Unified: **Armstrong, Noel Heights, and Rancho Del Paradiso**  
 (All areas except for Bayshore and the Hawkins area of RWV-Unified.)

8. **Annual Service Charges in RWV-Unified: Armstrong, Noel Heights, and Rancho Del Paradiso (not Hawkins)**

The annual service charge applies to service during the twelve-month period commencing July 1, and is due in advance. If a permanent resident of the area has been a customer of the utility for at least twelve months, he may elect at the beginning of each year to pay prorated service charges in advance at intervals of less than one year in accordance with the utility's established billing cycle.

9. **Opening Bill for Metered Service in RWV-Unified: Armstrong, Noel Heights, and Rancho Del Paradiso (not Hawkins)**

The opening bill for metered service, except from conversion from flat rate service, shall be the established annual service charge for the service. Where initial service is established after the first day of any year, the portion of such annual charge applicable to the current year shall be determined by multiplying the annual charge by one three-hundred-sixty-fifth (1/365) of the number of days remaining in the year. The balance of the payment of the initial annual charge shall be credited against the charges for the succeeding annual period. If service is not continued for at least one year after the period of initial service, no refund of the initial annual charges shall be due the customer.

10. **New Service in RWV-Coast Springs**

Applicants requesting water service that would cause the Coast Springs water system to exceed 250 service connections, or such higher number of connections as DHS may subsequently allow under Coast Springs water system's domestic water supply permit, will be placed on a waiting list. Once additional service connections become available, applicants on the waiting list will be notified in the order they were received. Any previously accepted application for water service in the Coast Springs water system will be revoked if proof of a valid building permit is not provided within 18 months of acceptance of the application for water service or March 17, 2003, whichever is later. Applicants who have had their approval revoked in this manner will be placed at the end of the waiting list.

11. **Exemption for Saint Anthony's Monastery in RWV-Coast Springs**

Two residential water connections are reserved for the property formerly owned by Cynthia Christopher and Geronima Belen and subsequently sold to the Saint Anthony's Monastery. Those two reserved connections are exempt from the requirement to provide a building permit within 18 months or be dropped from the approved service connections list.

The service charge is a readiness-to-serve charge which is applicable to all metered service and to which is added the charge for water used computed at the quantity rates.

SPECIAL CONDITIONS

1. Qualifying low-income individually metered residential customers are eligible for credits as shown on **Schedule LIRA**.
2. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule LIRA** (Low-Income Ratepayer Assistance), and **Schedule AS** (Additional Surcharges and Surcredits).
3. **Fire sprinkler rates:** A single-family residence with a meter size that has a "fire sprinkler" rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the "fire sprinkler" rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.

The service charge is a readiness-to-serve charge which is applicable to all metered service and to which is added the charge for water used computed at the quantity rates.

SPECIAL CONDITIONS

1. Qualifying low-income individually metered residential customers are eligible for credits as shown on **Schedule LIRA**.
2. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule LIRA** (Low-Income Ratepayer Assistance), and **Schedule AS** (Additional Surcharges and Surcredits).
3. **Water Expense Increase:** Beginning on or after July 1, 2018, an increase in purchased water and pump tax costs of \$0.0643/CCF for Tier 1 usage, \$0.0696/CCF for Tier 2 usage, and \$0.0811/CCF for Tier 3 usage, and an associated increase in total revenue of 1.5% (relative to the costs and revenues approved in AL 2287-A) are being tracked in a balancing account as required by Section 792.5 of the Public Utilities Code.
- 3 **Fire sprinkler rates:** A single-family residence with a meter size that has a "fire sprinkler" rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the "fire sprinkler" rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.

For 10 - inch meter	\$1,742.25
For 12 - inch meter	\$2,249.53
For 14 - inch meter	\$3,068.79 ( I )

The service charge is a readiness-to-serve charge which is applicable to all metered service and to which is added the charge for water used computed at the quantity rates.

SPECIAL CONDITIONS

1. Customers who receive water deliveries for agricultural purposes under this schedule, and who present evidence to the utility that such deliveries qualify for the lower pump tax rates levied by Santa Clara Valley Water District for agricultural water, shall receive a credit of 50.1 cents per 100 cu. ft. on each water bill for the quantities of water used during the period covered by that bill.
2. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule LIRA** (Low-Income Ratepayer Assistance), and **Schedule AS** (Additional Surcharges and Surcredits).
3. **Fire sprinkler rates:** A single-family residence with a meter size that has a "fire sprinkler" rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the "fire sprinkler" rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.
4. **Water Expense Increase:** Beginning on or after July 1, 2018, an increase in purchased water and pump tax costs of \$0.3236/CCF for Tier 1 usage, \$0.3443/CCF for Tier 2 usage, and \$0.4131/CCF for Tier 3 usage, and an associated increase in total revenue of 4.80% (relative to the costs and revenues approved in AL 2286-A) are being tracked in a balancing account as required by Section 792.5 of the Public Utilities Code.

SPECIAL CONDITIONS

1. Qualifying low-income individually metered residential customers are eligible for credits as shown on **Schedule LIRA**.
2. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule LIRA** (Low-Income Ratepayer Assistance), and **Schedule AS** (Additional Surcharges and Surcredits).
3. Fire sprinkler rates: A single-family residence with a meter size that has a "fire sprinkler" rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the "fire sprinkler" rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.

Schedule No. AA-4

PRIVATE FIRE PROTECTION SERVICE

(Page 1)

APPLICABILITY

This schedule applies to all fire protection services for governmental and privately-owned properties receiving service for on-site fire sprinklers, stand pipes, fire hydrants, or any other fire protection system not owned and maintained by Cal Water but connected to the water system for fire protection purposes only. (This tariff is not related to the "fire sprinkler" discount for which certain single-family residences with indoor fire sprinklers may qualify under a residential or general metered service tariff.)

TERRITORY

All tariffed service areas of California Water Service Company except Grand Oaks.

RATES

	Per Month	
For each inch of diameter of service connection	\$9.15	(I)

SPECIAL CONDITIONS

1. All bills are subject to the reimbursement fee set forth on Schedule UF.
2. The customer will pay, without refund, the entire cost of the private fire service facilities.
3. The private fire service facilities shall be installed by the utility or under the utility's direction and shall be the sole property of the applicant but subject to the control of the utility, with the right to alter, repair, replace and the right to remove upon discontinuance of service.
4. The maximum diameter shall not be larger than the diameter of the water main to which the private fire service facilities are connected.
5. If a water main of adequate size is not available adjacent to the premises to be served, then a new main from the nearest existing main of adequate size will be installed by the utility at the cost of the customer. Such cost shall not be subject to refund.
6. The private fire service facilities will include a detector check valve or other similar device acceptable to the utility which will indicate the use of water. The facilities may be located within the customer's premises or within public rights of way adjacent thereto. Where located within the premises, the utility and its duly authorized agents shall have the right of ingress to and egress from the premises for all purposes related to said facilities. In the event the installation is solely for a private fire hydrant facility, the requirement for a detector check valve or other similar device may be waived.

PRIVATE FIRE PROTECTION SERVICE

(Page 2)

7. The customer will be responsible for any damage to the private fire service facilities whether resulting from the use or operation of appliances and facilities on customers' premises or otherwise. No structure should be built over the private fire service facilities and the customer shall maintain and safeguard the area occupied by the private fire service facilities from traffic or other hazardous conditions.
8. Subject to the approval of the utility, any change in the location or construction of the private fire service facilities as may be requested by public authority or the customer will be made by the utility following payment to the utility of the entire cost of such change.
9. The customer's installation must be such as to separate effectively the private fire service facilities from that of the customer's regular domestic water service. Any unauthorized use of water from the private fire service facilities will be charged for at the applicable tariff rates and may be grounds for the utility's discontinuing private fire service without liability to the utility.
10. There shall be no cross connection between the private fire service facilities and any other source of supply without the specific approval of the utility. The specific approval, if given, will at least require at the customer's expense a special double check valve installation or other backflow prevention device acceptable to the utility. Any cross-connection may be grounds for immediately discontinuing private fire service without liability to the utility.
11. The utility will supply only such water at such pressure as may be available from time to time as a result of its normal operation of the system. The customer shall indemnify the utility and save it harmless against any and all claims arising against the utility for any loss or damage resulting from service under this schedule. Section 774 of the Public Utilities Commission Code limits the liability of the utility resulting from a claim regarding adequacy of pressure or supply for fire protection service.
12. The customer shall be responsible for the periodic testing of any backflow prevention devices as required by public authority or the utility. Any repair or replacement of such devices or of any other facilities installed to provide private fire service shall be done at the customer's expense. Any refusal to comply with the above requirements may be grounds for the utility's discontinuing private fire service without liability to the utility.
