SPECIAL CONDITIONS (continued)

2. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule CAP** (Customer Assistance Program), and **Schedule AS** (Additional Surcharges and Surcredits).

3. **Fire sprinkler rates:** A single-family residence with a meter size that has a “fire sprinkler” rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the “fire sprinkler” rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.

8. **Bi-monthly Billing:** The established billing cycle for the following areas is **bi-monthly** (every other month): (C)(L)
 In **RDV-Lucerne**, and in the following areas in RDV-Unified: **Armstrong, Noel Heights,** (C)
 and **Rancho Del Paradiso.** (All areas except for Bayshore and the Hawkins area of RDV- (C)
 Unified.)
9. **Annual Service Charges in RDV-Unified: Armstrong, Noel Heights, and Rancho Del Paradiso (not Hawkins)** (C)
 The annual service charge applies to service during the twelve-month period commencing July 1, and is due in advance. If a permanent resident of the area has been a customer of the utility for at least twelve months, they may elect at the beginning of each year to pay prorated service charges in advance at intervals of less than one year in accordance with the utility's established billing cycle.
10. **Opening Bill for Metered Service in RDV-Unified: Armstrong, Noel Heights, and Rancho Del Paradiso (not Hawkins)** (T)
 The opening bill for metered service, except from conversion from flat rate service, shall be the established annual service charge for the service. Where initial service is established after the first day of any year, the portion of such annual charge applicable to the current year shall be determined by multiplying the annual charge by one three-hundred-sixty-fifth (1/365) of the number of days remaining in the year. The balance of the payment of the initial annual charge shall be credited against the charges for the succeeding annual period. If service is not continued for at least one year after the period of initial service, no refund of the initial annual charges shall be due the customer.
11. **New Service in RDV-Coast Springs** (T)
 Applicants requesting water service that would cause the Coast Springs water system to exceed 250 service connections, or such higher number of connections as DHS may subsequently allow under Coast Springs water system's domestic water supply permit, will be placed on a waiting list. Once additional service connections become available, applicants on the waiting list will be notified in the order they were received. Any previously accepted application for water service in the Coast Springs water system will be revoked if proof of a valid building permit is not provided within 18 months of acceptance of the application for water service or March 17, 2003, whichever is later. If service is not continued for at least one year after the period of initial service, no refund of the initial annual charges shall be due the customer.
10. **New Service in RDV-Coast Springs** (T)
 Applicants requesting water service that would cause the Coast Springs water system to exceed 250 service connections, or such higher number of connections as DHS may subsequently allow under Coast Springs water system's domestic water supply permit, will be placed on a waiting list. Once additional service connections become available, applicants on the waiting list will be notified in the order they were received. Any previously accepted application for water service in the Coast Springs water system will be revoked if proof of a valid building permit is not provided within 18 months of acceptance of the application for water service or March 17, 2003, whichever is later. Applicants who have had their approval revoked in this manner will be placed at the end of the waiting list.

4. **Water Expense Increase:** Beginning on January 1, 2024, rates in this area will reflect a 0.1% revenue increase due to higher charges by Central Basin Municipal Water District and the Water Replenishment District of Southern California. This caused quantity rates to go up by \$0.0032 /CCF. Amounts collected from this quantity rate increase will be tracked in a balancing account, as required by Section 792.5 of the Public Utilities Code. Monthly service charges also went up, with the charge for a 5/8 x 3/4-inch meter increasing by \$0.04.

SPECIAL CONDITIONS (continued)

2. **Fire sprinkler rate:** Any service to a residential customer not exceeding two units with a meter size that has a “fire sprinkler” rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the “fire sprinkler” rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.

SPECIAL CONDITIONS

1. The fire hydrant service will be installed by the utility or by a construction agency acceptable to it at the cost of the applicant. The cost will not be subject to refund.
2. The relocation, replacement, or enlargement of any hydrant shall be at the expense of the party making such request.
3. The cost of maintenance and repair of hydrants will be borne by the utility.
4. The utility or its authorized agents shall have at all reasonable times the right of ingress to and egress from the customer's premises for any purpose connected with private fire hydrants.
5. The customer shall indemnify the utility and save it harmless against any and all claims arising out of service under this schedule and shall further agree to make no claims against the utility for any loss or damage resulting from service hereunder.
6. The fire hydrant shall be used for fire fighting purposes and fire drills only. Any unauthorized use will be charged at the regular established rates for general metered service and may be grounds for the utility to discontinue the fire hydrant service without liability to the utility.
7. The utility will supply to the hydrant only such water at such pressures as may be available from time to time in the operation of Utility's system.
8. Service under this schedule is limited to those services being furnished as of January 1, 1986.

Schedule No. LAR-PV-6
Los Angeles County Region Tariff Area
RECYCLED METERED SERVICE

Page 1

APPLICABILITY

Applicable to all recycled water customers that have signed a contract with the West Basin Municipal Water District (West Basin) for repayment of the conversion costs from potable to recycled water service will be charged the potable quantity rates while the contract is in effect. The Company will pay West Basin a percentage of the quantity rate revenues collected from recycled water customers billed at potable water rates. The percentage refunded represents the difference between the current West Basin wholesale potable water rate and the wholesale recycled water rate.

TERRITORY

Palos Verdes Service Area:

Palos Verdes Estates, Rolling Hills, Rolling Hills Estates, Lomita, Rancho Palos Verdes, San Pedro and vicinity, Los Angeles County.

RATES

1 CCF is 100 cubic feet (approximately 748 gallons)

Quantity Rates:

Per CCF \$5.1300 (R)

Service Charge:

		<u>Per Meter Per Month</u>

RECYCLED METERED SERVICE

Page 2

SPECIAL CONDITIONS

1. Recycled water will be supplied **only** as available from West Basin Municipal Water District.
2. As a condition of service under this schedule, all customers are required to comply with the Company's Rule 16, **Section D**, Recycled Water Service.
3. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and **applicable** surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule CAP** (Customer Assistance Program), and **Schedule AS** (Additional Surcharges and Surcredits).
4. **Water Expense Increase:** Beginning on January 1, 2024, rates in this area will reflect a 1.6% revenue increase due to higher charges by West Basin Municipal Water District and the Water Replenishment District of Southern California. This caused quantity rates to go up by \$0.1003/CCF. Amounts collected from this quantity rate increase will be tracked in a balancing account, as required by Section 792.5 of the Public Utilities Code. Monthly service charges also went up, with the charge for a 5/8 x 3/4-inch meter increasing by \$0.72.

SPECIAL CONDITIONS (continued)

3. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule CAP** (Customer Assistance Program), and **Schedule AS** (Additional Surcharges and Surcredits).

4. **Fire sprinkler rates:** A single-family residence with a meter size that has a “fire sprinkler” rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the “fire sprinkler” rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.

5. **Groundwater surcharge (Year Nine: January 1, 2024 – December 31, 2024): \$0.2587 per CCF**
Under the Cooperative Agreement between the City of Selma and the Consolidated Irrigation District, the surcharge identified above will be applied to bills on a monthly basis. Authorized by Decision 15-03-003 and Advice Letter 2500, the collected amounts will be provided to the City of Selma for groundwater replenishment activities. The total annual groundwater fees due under the Cooperative Agreement will be increased by CPI after the first 8 years.

2. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule CAP** (Customer Assistance Program), and **Schedule AS** (Additional Surcharges and Surcredits).
3. Fire sprinkler rate: A single-family residence with a meter size that has a “fire sprinkler” rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the “fire sprinkler” rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.

PRIVATE FIRE PROTECTION SERVICE

Page 1

APPLICABILITY

This schedule applies to all fire protection services for governmental and privately-owned properties receiving service for on-site fire sprinklers, stand pipes, fire hydrants, or any other fire protection system not owned and maintained by Cal Water but connected to the water system for fire protection purposes only. (This tariff is not related to the "fire sprinkler" discount for which certain single-family residences with indoor fire sprinklers may qualify under a residential or general metered service tariff.)

SPECIAL CONDITIONS

1. All bills are subject to the following tariff schedules: Schedule UF (CPUC reimbursement fee), Schedule RSF (Rate Support Fund), and Schedule CAP (Customer Assistance Program). (C)
2. The customer will pay, without refund, the entire cost of the private fire service facilities. (C)
3. The private fire service facilities shall be installed by the utility or under the utility's direction and shall be the sole property of the applicant but subject to the control of the utility, with the right to alter, repair, replace and the right to remove upon discontinuance of service. (C)
4. The maximum diameter shall not be larger than the diameter of the water main to which the private fire service facilities are connected.
5. If a water main of adequate size is not available adjacent to the premises to be served, then a new main from the nearest existing main of adequate size will be installed by the utility at the cost of the customer. Such cost shall not be subject to refund.
6. The private fire service facilities will include a detector check valve or other similar device acceptable to the utility which will indicate the use of water. The facilities may be located within the customer's premises or within public rights of way adjacent thereto. Where located within the premises, the utility and its duly authorized agents shall have the right of ingress to and egress from the premises for all purposes related to said facilities. In the event the installation is solely for a private fire hydrant facility, the requirement for a detector check valve or other similar device may be waived.

PRIVATE FIRE PROTECTION SERVICE

(Page 2)

7. The customer will be responsible for any damage to the private fire service facilities whether resulting from the use or operation of appliances and facilities on customers' premises or otherwise. No structure should be built over the private fire service facilities and the customer shall maintain and safeguard the area occupied by the private fire service facilities from traffic or other hazardous conditions.
8. Subject to the approval of the utility, any change in the location or construction of the private fire service facilities as may be requested by public authority or the customer will be made by the utility following payment to the utility of the entire cost of such change.
9. The customer's installation must be such as to separate effectively the private fire service facilities from that of the customer's regular domestic water service. Any unauthorized use of water from the private fire service facilities will be charged for at the applicable tariff rates and may be grounds for the utility's discontinuing private fire service without liability to the utility.
10. There shall be no cross connection between the private fire service facilities and any other source of supply without the specific approval of the utility. The specific approval, if given, will at least require at the customer's expense a special double check valve installation or other backflow prevention device acceptable to the utility. Any cross-connection may be grounds for immediately discontinuing private fire service without liability to the utility.
11. The utility will supply only such water at such pressure as may be available from time to time as a result of its normal operation of the system. The customer shall indemnify the utility and save it harmless against any and all claims arising against the utility for any loss or damage resulting from service under this schedule. Section 774 of the Public Utilities Commission Code limits the liability of the utility resulting from a claim regarding adequacy of pressure or supply for fire protection service.
12. The customer shall be responsible for the periodic testing of any backflow prevention devices as required by public authority or the utility. Any repair or replacement of such devices or of any other facilities installed to provide private fire service shall be done at the customer's expense. Any refusal to comply with the above requirements may be grounds for the utility's discontinuing private fire service without liability to the utility.

**BG. Monterey-Style Water Revenue Adjustment Mechanism Balancing Account
(M- WRAM)**

(N)

1. PURPOSE:

The purpose of this balancing account is to track the quantity rate revenues collected under each residential tiered rates schedule against the revenues that would have been collected under a single quantity rate.

2. The following entries will be made monthly to the M-WRAM Balancing Account in all Class A rate areas:

- a. The recorded revenues collected through the tiered quantity rates under each area's Residential Meter Service rate schedule (debit).
- b. The calculated revenues that would have been collected under a single block quantity rate for the same recorded water usage as in 2a above (credit).
- c. The CPUC-adopted single quantity rates (\$/ccf) to be used in calculating the revenues for 2b above are reflected in Item 5.
- d. Franchise fees and uncollectible account expense, based on the net of 2a and 2b above, and the CPUC-adopted rates for franchise fees and uncollectible expenses.
- e. Currently effective amortization rate (\$/ccf) collections or refunds.
- f. Monthly interest calculated at 1/12 of the most recent month's interest rate on Commercial Paper (prime, 3-month), published in the Federal Reserve Statistical Release, H.15 (<http://www.federalreserve.gov/releases/H15/data/m/cp3m.txt>), or its successor publication.

3. The balance in the balancing account may be amortized by a Tier 1 advice letter annually or requested through a General Rate Case (GRC).

4. The balancing account will terminate when so ordered in a CPUC General Rate Case (GRC) Decision, at which time any remaining debt (undercollection) or credit (overcollection) balance will be amortized through a rate surcharge or surcredit, or transferred to the General District Balancing Accounts.

BH. Purchased Water Incremental Cost Balancing Account (ICBA)

(N)

1. PURPOSE:

The purpose of this incremental cost balancing account is to record each month the difference between the cost of purchased water and the adopted cost reflected in rates, so that these differences can be trued-up through rates subsequent to CPUC review and approval.

2. APPLICABILITY:

The Purchased Water ICBA applies to all areas served by Cal Water purchasing treated potable water, surface water and recycled water (collectively “purchased water”).

3. ACCOUNTING PROCEDURE:

Each month, Cal Water will make the following entries to update the balance in this account:

a. Expense Component (debit entry):

- i. the recorded production multiplied by adopted water mix that is subject to purchased water (AF) multiplied by the difference between the adopted variable purchased water price (AF) in rates and the current variable purchased water prices (\$AF), plus or minus any necessary expense adjustments.
- ii. The difference between the adopted fixed costs in rates and the current fixed costs, to be recorded in the month that the cost is invoiced.

b. Revenue Component (credit entry): the recorded purchased water ICBA surcharges collected from all customers, plus or minus any necessary revenue adjustments.

c. Interest (debit or credit entry): interest shall accrue monthly by applying one-twelfth of the Federal Reserve 3-month Commercial Paper Rate - non-Financial, from Federal Reserve Statistical Release H.15 (expressed as an annual rate) to the average monthly balance.

BI. Pump Tax Incremental Cost Balancing Account (ICBA)

(N)

1. PURPOSE:

The purpose of this incremental balancing account is to record each month the difference between the cost of pump taxes and the adopted cost reflected in rates, so that these differences can be trued-up through rates subsequent to CPUC review and approval.

2. APPLICABILITY:

The Pump Tax ICBA applies to all areas served by Cal Water where ground water pump taxes (or their equivalent) are assessed.

3. ACCOUNTING PROCEDURE:

Each month, Cal Water will make the following entries to update the balance in this account:

a. Expense Component (debit entry):

- i. the recorded production multiplied by the adopted water mix that is subject to pump taxes (AF), multiplied by the difference between the adopted variable pump tax price (AF) in rates and the current variable pump tax prices (\$AF), plus or minus any necessary expense adjustments.
- ii. The difference between the adopted fixed costs in rates and the current fixed costs, to be recorded in the month that the cost is invoiced.

b. Revenue Component (credit entry): the recorded pump tax ICBA surcharges collected from all customers, plus or minus any necessary revenue adjustments.

c. Interest (debit or credit entry): interest shall accrue monthly by applying one-twelfth of the Federal Reserve 3-month Commercial Paper Rate - non-Financial, from Federal Reserve Statistical Release H.15 (expressed as an annual rate) to the average monthly balance.

4. AMORTIZATIONS:

- a. The balance in the balancing account may be amortized by a Tier 1 advice letter annually or requested through a General Rate Case (GRC).

BJ. Purchased Power Incremental Cost Balancing Account (ICBA)

(N)

1. PURPOSE:

The purpose of this incremental cost balancing account is to record each month the difference between the cost of purchased power and the adopted cost reflected in rates, so that these differences can be trued-up through rates subsequent to CPUC review and approval.

2. APPLICABILITY:

The ICBA applies to all areas served by Cal Water purchasing power to produce and deliver water.

3. ACCOUNTING PROCEDURE:

Each year, Cal Water will make the following entries to update the balance in this account:

- a. Expense Component (debit entry): the annual recorded quantity of purchased power (KwH) multiplied by the difference between the annual adopted purchased power price (\$/kWh) in rates and the recorded annual purchased power prices (\$/kWh), plus or minus any necessary expense adjustments.
- b. Revenue Component (credit entry): the recorded purchased power ICBA surcharges collected from all customers, plus or minus any necessary revenue adjustments.
- c. Interest (debit or credit entry): interest shall accrue monthly by applying one-twelfth of the Federal Reserve 3-month Commercial Paper Rate - non-Financial, from Federal Reserve Statistical Release H.15 (expressed as an annual rate) to one-twelfth of annual balance.

4. AMORTIZATIONS:

- a. The balance in the balancing account may be amortized by a Tier 1 advice letter annually or requested in a General Rate Case (GRC).

- 5. The balancing account will terminate when so ordered by the Commission, at which time any remaining debt (undercollection) or credit (overcollection) balance will be amortized through a rate surcharge or surcredit, or transferred to the General District Balancing Accounts.

Schedule No. CAP
Customer Assistance Program (CAP)

Page 3

3. Commencement of Rate: CAP rates become effective January 1, 2007. After CAP rates are effective eligible customers shall be billed on this schedule commencing no later than one billing period after receipt and approval of the customer's application by the Utility.
4. Verification: Information provided by the applicant is subject to verification by the Utility. Refusal or failure of a customer to provide sufficient documentation of eligibility acceptable to the Utility, upon the request of the Utility, shall result in removal from this rate schedule. Failure to comply with any terms of the CAP program shall result in removal from this rate schedule.
5. Notice from Customer: It is the customer's responsibility to notify the Utility if there is a change in the customer's eligibility status.
6. Customers may be re-billed for periods of ineligibility under the applicable rate schedule.

II. CAP SURCHARGE

A. SURCHARGE APPLICABILITY

Applicable to all water service except that provided for:

- (1) under Schedules OR-3M, OR-3M-I, and OR-2UL for raw water delivery along the Powers Canal and
- (2) CAP customers.

(D)
(T)
(T)

B. SURCHARGE TERRITORY

Schedule No. RSF
All Tariff Areas
Rate Support Fund

Page 1

The Rate Support Fund (RSF) Program provides credits on the bills of customers in the Kern River Valley District. It also provides subsidies of \$1,704,784 to the Dixon District and of \$711,852 to the Willows District to reduce the revenue requirements for each of the three years in this rate case cycle (2023-2025). (C)

The RSF Program is funded through surcharges on other customers as specified below.

I. RSF SURCHARGE

A. APPLICABILITY:

Applicable to all water service except that provided:

- (1) under Schedules OR-3M, OR-3M-I, and OR-2UL for raw water delivery along the Powers Canal and (D)
- (2) for CAP customers. (T)

B. TERRITORY:

All territories served.

C. SURCHARGE:

An RSF surcharge rate of **0.6218%** will be applied to the basic water charges (identified below) on a customer's bill.

"Basic water charges" as referenced in this Schedule consist of the service charge and quantity charges for a metered customer, and the flat charge for flat-rate customers, after RSF credits are applied; they do not include any other fees, surcharges, or credits.

II. RSF CREDIT

A. APPLICABILITY:

Applicable to all water service in the Kern River Valley District (the "RSF District"), except that provided for private fire protection services.
