Advice Letter No. 2124

CALIFORNIA WATER SERVICE COMPANY (U 60 W)

To the Public Utilities Commission of the State of California (Commission):

California Water Service Company (Cal Water) hereby transmits for filing the following changes in its tariff schedules and five copies of each are attached hereto:

<u>C.P.U.C.</u> <u>Sheet No.</u>	<u>Title of Sheet</u>	<u>Schedule</u> <u>No.</u>	<u>Canceling</u> <u>C.P.U.C.</u> <u>Sheet No.</u>
10208-W	Preliminary Statement AL		New
10209-W	Table of Contents (Page 1)		10207-W

Summary

Cal Water requests authority to add Preliminary Statement AL, titled "Drought Memorandum Account" ("DRMA"), to its tariff sheets to record the following amounts:

- (1) Incremental operating and administrative costs associated with implementing voluntary conservation measures under Rule 14.1, as modified by Advice Letter 2123 submitted on April 1, 2014;
- (2) Incremental operating and administrative costs associated with implementing mandatory rationing measures under Schedule 14.1, if Cal Water seeks such implementation consistent with the Commission's requirements;
- (3) Monies paid by customers for fines, penalties, or other compliance measures associated with water use violations; and
- (4) Penalties paid by Cal Water to its water wholesalers.

In seeking recovery, Cal Water will make a showing that the requested amounts were not included in rates. Furthermore, establishment of the DRMA will not guarantee rate recovery of the recorded costs. Cal Water proposes to seek recovery in accordance with General Order 96-B and Standard Practices, or in a general rate case.

This request meets the commonly applied criteria for establishing a memorandum account, and is being submitted as a Tier 2 filing in accordance with the Drought Procedures that the Commission adopted in Resolution W-4976, and Water Industry Rule 7.3.2 of GO 96-B. Cal Water requests that this advice letter become effective on May 1, 2014.

Background

On February 27, 2014, the Commission adopted Drought Procedures in Resolution No. ("Res.") W-4976. Appendix B to those Drought Procedures contains an "Example of Rule 14.1" that modifies the sample Rule 14.1 in the July 2007 version of SP U-40. For Class A and B water companies like Cal Water that have an existing Rule 14.1, Ordering Paragraph ("OP") 2 of Res. W-4976 requires the submission of a letter notifying the Division of Water & Audits ("DWA") that the companies are activating their Tariff Rule 14.1 to call for a 20% voluntary reduction in water use. Cal Water submitted that notification to DWA on March 28, 2014.

Discussion

The Commission's Drought Procedures provide as follows on page 9:

24. All monies collected by the utility through water use violation fines shall not be accounted for as income but rather booked to a memorandum account to offset authorized expenses incurred and lost revenues from reduced sales due to conservation or rationing. All expenses incurred by utility to activate both Rule 14.1 voluntary conservations and Schedule 14.1 mandatory rationing efforts that have not been considered in a General Rate Case or other proceeding, shall be recoverable by utility if determined to be reasonable by Commission. These monies shall be accumulated by the utility in a separate memorandum account for disposition as directed or authorized from time to time by the Commission.

Consistent with Paragraph 24 of the Drought Procedures, Cal Water requests the addition of a memorandum account (a Drought Memorandum Account, or "DRMA") to track the incremental operational and administrative costs incurred to implement and activate both Rule 14.1 and Schedule 14.1.

In addition, Cal Water has not determined at this time the appropriate fines, penalties, or other compliance measures associated with customers violating water use restrictions. Any such monies collected from customers should also be tracked in the proposed DRMA, consistent with Paragraph 24 of the Drought Procedures.

Finally, in Resolution W-4781, Golden State Water Company was authorized to track "any penalties paid to its water wholesalers" in a memorandum account associated with mandatory rationing. (Res. W-4781 at 2.) There is the potential that continuing drought conditions this year, and possibly in upcoming years, will cause water wholesalers to levy fines on Cal Water if its customers are not adequately responsive to conservation signals. Cal Water requests authority to record such costs in the DRMA for later disposition by the Commission.

New Memorandum Account Requests

General Order 96-B, Water Industry Rule 7.3.2, allows a Tier 2 advice letter filing for a “New Memorandum Account request.” This request meets the criteria for memorandum accounts recently set forth in Resolution W-4824, as follows:¹

The expense is caused by an event of an exceptional nature that is not under the utility’s control: The Governor’s announcement and the severe drought conditions in California are not under Cal Water’s control.

The expense is of a substantial nature in the amount of money involved: Cal Water does not have an estimate for the expenses and other monies that are proposed for tracking in the DRMA because their magnitude will be dependent upon the severity of the ongoing drought conditions, the reactions of water wholesalers, and the reactions of its customers to conservation price and non-price signals.

The expense cannot have been reasonably foreseen in the utility’s last GRC and will occur before the utility’s next scheduled rate case: Cal Water’s last general rate case was filed in July 2012, prior to the Governor’s drought announcement, and prior to the collective realization about the magnitude of the threat to water supplies caused by the current drought.

The ratepayers will benefit by the memorandum account treatment: Ratepayers will benefit from Cal Water’s active commitment to encouraging voluntary conservation measures and, if necessary, mandatory rationing measures, and to offset its expenses by any monies collected from customers for water use violations.

Authorization of a Drought Memorandum Account will not guarantee rate recovery of the recorded costs, and Cal Water will make a showing that any amounts sought for recovery are incremental and not already included in rates. Granting the DRMA would preserve the full range of regulatory options for disposition of those costs, and is in the public interest for the reasons discussed above. Cal Water proposes to seek recovery of appropriate costs in its next GRC or consistent with General Order 96-B and Standard Practices.

Requested Effective Date

Cal Water requests an effective date of May 1, 2014 which is 30 days after the filing of this advice letter.

¹ See Resolution W-4824, *California-American Water (Cal-Am). Order Authorizing Memorandum Account to Track Costs Incurred to Address the State Water Resources Control Board (SWRCB) Cease and Desist Order (CDO) for Unauthorized Diversion of Water from the Carmel River in the Monterey District* (April 8, 2010) at 5.

Notice and Service

In accordance with General Order 96-B, General Rule 4.3 and 7.2 and Water Industry Rule 4.1, a copy of this advice letter will be mailed or electronically transmitted today to competing and adjacent utilities and other utilities or interested parties having requested such notification. A list of those utilities and/or parties is attached. This advice letter does not seek to increase any rate or charge, so individual customer notice is not required.

Response or Protest

Anyone may respond to or protest this advice letter. A response supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. A protest shall provide citations or proofs where available to allow staff to properly consider the protest. The grounds for a protest are:

- (1) The utility did not properly serve or give notice of the advice letter;
- (2) The relief requested in the advice letter would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
- (3) The analysis, calculations, or data in the advice letter contain material error or omissions;
- (4) The relief requested in the advice letter is pending before the Commission in a formal proceeding; or
- (5) The relief requested in the advice letter requires consideration in a formal hearing, or is otherwise inappropriate for the advice letter process; or
- (6) The relief requested in the advice letter is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the Commission.)

A response or protest must be made in writing or by electronic mail and must be received by the Division of Water and Audits within 20 days of the date this advice letter is filed.

The address for mailing or delivering a protest is:

Tariff Unit, Division of Water and Audits, 3rd floor
California Public Utilities Commission,
505 Van Ness Avenue, San Francisco, CA 94102
water_division@cpuc.ca.gov

On the same date the response or protest is submitted to the Division of Water and Audits, the respondent or protestant shall send a copy by mail (or e-mail) to us, addressed to:

Tu Rash
California Water Service Company
1720 North First Street,
San Jose, California 95112
Fax 408/367-8235 or
E-mail turash@calwater.com

Cities and counties that need Board of Supervisors or Board of Commissioners approval to protest should inform the Division of Water and Audits, within the 20 day protest period, so

that a late filed protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on.

The advice letter process does not provide for any responses, protests or comments, except for the utility's reply, after the 20 day comment period.

Replies: The utility shall reply to each protest and may reply to any response. Each reply must be received by the Division of Water and Audits within 5 business days after the end of the protest period, and shall be served on the same day to the person who filed the protest or response.

If you have not received a reply to your protest within 10 business days, contact California Water Service Company at 408/367-8200.

Preliminary Statement
 (continued)

- AL. Drought Memorandum Account (DRMA) (N)
1. Purpose: The purpose of the Drought Memorandum Account (DRMA) is to track costs and penalties associated with the implementation of Rule 14.1 and Schedule 14.1 consistent with Resolution W-4976 in which the Commission adopted Drought Procedures. |
 2. Applicability: The DRMA will track the following item: |
 - a. Incremental operating and administrative costs associated with implementing voluntary conservation measures under Rule 14.1, as modified by Advice Letter 2123, submitted on April 1, 2014; |
 - b. Incremental operating and administrative costs associated with implementing mandatory rationing measures under Schedule 14.1, if Cal Water seeks such implementation consistent with the Commission's requirements; |
 - c. Monies paid by customers for fines, penalties, or other compliance measures associated with water use violations; and |
 - d. Penalties paid by Cal Water to its water wholesalers. |
 3. Disposition: Charges made to the Drought Memorandum Account are subject to a reasonableness review in a General Rate Case, or in an appropriate advice letter filing consistent with General Order 96-B and Standard Practices. |
