

March 30, 2015

**Advice Letter No. 2154-A**

**CALIFORNIA WATER SERVICE COMPANY (U 60 W)**

To The Public Utilities Commission of the State of California:

California Water Service Company (“Cal Water”) hereby transmits for filing the following changes in its tariffs, applicable to all districts:

CPUC		Cancelling CPUC	
Sheet No.	Title of Sheet	Schedule No.	Sheet No.
10467-W	Preliminary Statement AR	Prel. Stat. AR	-W
10468-W	Table of Contents (Page 1)	Not Applicable	10466-W

**Summary**

This supplement to Advice Letter 2154 modifies language in Preliminary Statement AR, the Sales Reconciliation Mechanism Balancing Account (SRM BA). The modifications eliminate references to tracking changes in *service charges* in the SRM BA, while retaining references to changes in *quantity rates*, consistent with Advice Letter 2156 (filed on March 3, 2015), which shifted all SRM changes to *quantity rates* alone.

AL 2154 was a Tier 1 advice letter that became effective, pending disposition, on January 1, 2015. Cal Water is filing this supplement as a Tier 1 advice letter, and requests an effective date of March 31, 2015.

**Background**

In D.14-08-011, the Commission adopted a Sales Reconciliation Mechanism (SRM) that provides for a rate adjustment if the actual sales volume for a district is lower or higher than five percent of the adopted value for that district, as discussed in Findings of Fact 12 and 13:

*Findings of Fact*

*12. Cal Water’s proposed SRM is an attempt to deal with the impact of current drought conditions on water usage, availability, and cost by calculating the recorded sales for the period of the previous October through September for each district, and comparing the amounts to the sales adopted in this decision.*

*13. If recorded sales are more than 5% different than adopted sales, Cal Water should be authorized to adjust its overall sales forecast by 50% of the recorded sales variation, flow that change through the revenue requirement, and calculate rates based on the adjusted sales.*

In D.14-08-011, the Commission also required Cal Water to open a balancing account associated with the SRM to track the impact of implementing rates that are recalculated due to the SRM:

*Ordering Paragraphs*

*43. In light of the current drought, California Water Service Company (CWS) is authorized to implement a drought Sales Reconciliation Mechanism (SRM) as a pilot program for the second and third years of the rate case period by calculating the recorded sales for the period of the previous October through September for each district, and comparing the amounts to the sales adopted in this decision. If recorded sales are more than 5% different than adopted sales, CWS is authorized to adjust its overall sales forecast by 50% of the recorded sales variation, flow that change through the revenue requirement (also proportionally changing production costs to match the proposed sales change), and calculate rates based on the adjusted sales. If the drought SRM triggers a rate change in any area, CWS shall implement the adjusted rates with a notice to customers that the rate change is the result of the drought SRM. CWS is authorized to open a drought SRM Balancing Account (SRM BA) to track any change in rates associated with the drought SRM. The SRM BA is subject to review in CWS's next general rate case. The drought SRM is only authorized for this rate case period, and may be considered in CWS's next general rate case.*

**Purpose of the Sales Reconciliation Mechanism**

The existing WRAM/MCBA accounts true up billed revenues to the revenues authorized by the Commission in GRC decisions.<sup>1</sup> The authorized revenues are equivalent to applying authorized rates to authorized sales forecasts. The SRM is not intended to change this outcome. Instead, the SRM is intended to adjust the year-end amounts in the WRAM/MCBAs to alleviate the negative impacts of extreme WRAM/MCBA balances.

Based on recent historical trends, and particularly in this time of drought, it is assumed that actual sales are likely to be lower than the sales forecasted for a particular year, resulting in high WRAM/MCBA balances and, correspondingly, high customer surcharges the following year in order to amortize the high balances. The SRM is designed to instead slightly adjust rates at the outset – at the beginning of the year – to mitigate high surcharges in the following year.

Whether the SRM should be triggered so that rates are adjusted at the beginning of an attrition year is determined by actual sales in the previous year. If actual sales vary from forecasted sales in the year before the attrition year, it is assumed that actual sales are also likely to vary from forecasted sales in the same direction in the attrition year. As adopted in D.14-08-011, the variation that merits an adjustment in rates is a sales variation that is more than 5% in either direction.

As described in OP 43, the SRM-adjusted sales are flowed through (with appropriate changes to water production costs) to create an “SRM-adjusted revenue requirement.” (Note: neither the SRM-adjusted sales nor the SRM-adjusted revenue requirement are intended to modify the actual sales and revenue requirements adopted by the Commission.)

---

<sup>1</sup> More specifically, the WRAM/MCBA tracks only revenues associated with quantity rates. To increase the clarity of this part of the discussion, however, the more accurate term, “quantity-based revenues,” that should be associated with the all WRAM/MCBA functions, is simplified to refer generically to “revenues.”

## **Purpose of the SRM Balancing Account**

The SRM Balancing Account was not proposed by Cal Water in its GRC application; the Commission authorized the creation of the SRM BA on its own initiative in D.14-08-011. The role of the SRM BA appears to be to ensure “no harm, no foul” – to ensure that SRM rates neither benefit nor harm ratepayers and shareholders in the long-term. As described above, while the SRM allows rates to be adjusted in an attrition year, it is not intended to adjust the aggregate amount that the Commission has determined ratepayers should pay to fund the company’s regulated operations for that year. Therefore, the SRM BA appears intended to act as a “check” that allows the Commission to mitigate any unintended revenue impacts from allowing SRM rates to go into effect.

## **Discussion**

In this supplement, Cal Water submits a preliminary statement that is consistent with Findings of Fact 12 and 13 and Ordering Paragraph 43 of D.14-08-011, but that has been modified as requested by the Division of Water & Audits (DWA) and the Office of Ratepayer Advocates (ORA).

Recalculated SRM Rates – The WRAM/MCBA for a ratemaking area trues up billed WRAM revenues (authorized quantity rates applied to actual sales) to adopted WRAM revenues (authorized quantity rates applied to authorized sales). The SRM allows those authorized rates to be adjusted so that “SRM rates” are implemented. As agreed-upon with DWA and ORA, Cal Water re-filed the rates that became effective, pending disposition, on January 2, 2015 under AL 2150 (and supplements) and 2151 (and supplements). As recalculated and submitted in AL 2156, those rates consist of *quantity rates* that reflect the full impact of the SRM adjustments, and *service charges* that were either adopted in D.14-08-011 or escalated consistent with D.14-08-011 but that do not reflect any SRM adjustments.

SRM Balancing Account – In order to track the impact of the SRM, the SRM BA can track the difference between quantity-rate revenues billed during the attrition year (SRM quantity rates applied to actual sales) and SRM-adopted quantity revenues (SRM quantity rates applied to SRM-assumed sales).

Amortization – The WRAM/MCBAs track the difference between actual revenues derived from quantity rates, and the authorized revenues derived from quantity rates. They are amortized annually such that the balance in a given year is reflected in amortization surcharges or credits beginning in the first quarter of the following year. Because the WRAM/MCBAs already true up billed quantity revenues to authorized quantity revenues, any quantity revenues tracked in the SRM BA are effectively captured in the WRAM/MCBA, and should not be amortized through the SRM BA.

## **Tier Designation**

This advice letter is a compliance filing that is authorized by General Order 96-B, Water Industry Rule 7.3.1(3), to be submitted as a Tier 1 advice letter.

## **Requested Effective Date**

Pursuant to General Order 96-B, General Rule 7.3.1, which allows Tier 1 advice letters to be effective pending disposition, Cal Water requests that this advice letter become effective on March 31, 2015.

## CALIFORNIA WATER SERVICE COMPANY

Advice Letter 2154-A – Sales Reconciliation Mechanism BA – Preliminary Statement

Page 4

### **Notice**

*Customer Notice* – Customer notice of Tier 1 advice letters is not required under General Order 96-B, General Rule 7.3.1.

*Service Lists* – In accordance with General Order 96-B, General Rule 4.3 and 7.2 and Water Industry Rule 4.1, a copy of this advice letter will be mailed or electronically transmitted on March 31, 2015, to competing and adjacent utilities and other utilities or interested parties having requested such notification.

### **Response or Protest**

Anyone may respond to or protest this advice letter. A response supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

- (1) The utility did not properly serve or give notice of the advice letter;
- (2) The relief requested in the advice letter would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
- (3) The analysis, calculations, or data in the advice letter contain material error or omissions;
- (4) The relief requested in the advice letter is pending before the Commission in a formal proceeding; or
- (5) The relief requested in the advice letter requires consideration in a formal hearing, or is otherwise inappropriate for the advice letter process; or
- (6) The relief requested in the advice letter is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the Commission.)

A protest shall provide citations or proofs where available to allow staff to properly consider the protest. A response or protest must be made in writing or by electronic mail and must be received by the Division of Water and Audits within 20 days of the date this advice letter is filed. The advice letter process does not provide for any responses, protests or comments, except for the utility's reply, after the 20-day comment period. The address for mailing or delivering a protest is:

Tariff Unit, Division of Water and Audits, 3<sup>rd</sup> floor  
California Public Utilities Commission,  
505 Van Ness Avenue, San Francisco, CA 94102  
[water\\_division@cpuc.ca.gov](mailto:water_division@cpuc.ca.gov)

On the same date the response or protest is submitted to the Division of Water and Audits, the respondent or protestant shall send a copy by mail (or e-mail) to us, addressed to:

Darin Duncan  
California Water Service Company  
1720 North First Street,  
San Jose, California 95112  
Fax 408/367-8430 or  
E-mail [dduncan@calwater.com](mailto:dduncan@calwater.com)

Cities and counties that need Board of Supervisors or Board of Commissioners approval to protest should inform the Division of Water and Audits, within the 20-day protest period, so that a late filed

**CALIFORNIA WATER SERVICE COMPANY**

Advice Letter 2154-A – Sales Reconciliation Mechanism BA – Preliminary Statement

Page 5

protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on.

**Replies**

The utility shall reply to each protest and may reply to any response. Each reply must be received by the Division of Water and Audits within 5 business days after the end of the protest period, and shall be served on the same day to the person who filed the protest or response. If you have not received a reply to your protest within 10 business days, contact California Water Service Company at 408/367-8200.

AR. Sales Reconciliation Mechanism Balancing Account (SRM BA)

1. BACKGROUND

The Commission authorized a Sales Reconciliation Mechanism ("SRM") in Ordering Paragraph 43, D.14-08-011 (2012 GRC Decision), as a pilot program for 2015 and 2016, the attrition years for the rate case period of 2014-2016.

In the year prior to each attrition year, for each ratemaking area, the SRM requires a comparison between:  
(a) recorded sales for the period of the previous October through September of the current year; and  
(b) the Commission-adopted sales for the current year.

If recorded sales are more than 5% different (higher or lower) than adopted sales, the overall sales forecast for the attrition year must be adjusted by 50% of the recorded sales variation. The SRM-modified sales forecast ("SRM Sales Forecast") must be flowed through the revenue requirement for the ratemaking area, proportionally changing production costs to match the proposed sales change, resulting in an SRM-adjusted revenue requirement ("SRM Revenue Requirement"). The rates for the attrition year are then calculated based upon the SRM Sales Forecast and the SRM Revenue Requirement, resulting in "SRM Rates."

2. PURPOSE

For ratemaking areas in which the SRM is triggered, the SRM Balancing Account ("SRM BA") tracks revenue differences resulting from implementation of the SRM Rates.

3. APPLICABILITY

The SRM BA applies to all regulated ratemaking areas in which the SRM Rates are implemented.

4. ACCOUNTING PROCEDURE

For each ratemaking area, the SRM BA will track the difference between:

- (a) The quantity rate revenues billed by applying the SRM Rates to actual sales during the attrition year; and (D) (T)
- (b) The quantity rate revenues that would have been billed by applying SRM Rates to the SRM-adjusted Sales Forecast for the attrition year. (D) (T)

5. DISPOSITION

The quantity rate revenues tracked in this account will be addressed in the WRAM/MCBA for the relevant ratemaking area, and will not be amortized through the SRM BA.
