January 29, 2016

Advice Letter No. 2209

To the California Public Utilities Commission:

California Water Service Company (“Cal Water”) respectfully submits this Tier 1 advice letter and hereby transmits for filing a change in the format of the customer bills for all California service areas. Hard copies of this filing will follow via post.

Summary

This filing updates Cal Water’s tariff to reflect a sample of the updated bill format for all California service areas. Cal Water requests an effective date of February 1, 2016 for this Tier 1 advice letter.

Discussion

Water Industry Rule 8.5.8 states each utility’s tariffs shall contain sample copies of printed forms such as regular bills for service. Cal Water has updated the overall look of its customer bills while retaining all mandatory information, including that related to consumption, charges, billing periods, and Commission contacts.

Requested Effective Date

Under General Order 96-B, Water Industry Rule 7.6.6, as modified by Resolution W-4664, this is a Tier 1 advice letter. Cal Water requests that the rates proposed in this advice letter become effective on **February 1, 2016**.

Notice

Customer Notice: This is a Tier 1 advice letter that does not require customer notice, as provided in under Water Industry Rule 7.3.1.

Service List: In accordance with General Order 96-B, General Rules 4.3 and 7.2, and Water Industry Rule 4.1, a copy of this advice letter will be mailed or electronically transmitted on January **29, 2016** to competing and adjacent utilities and other utilities or interested parties having requested such notification.

Response or Protest

Anyone may respond to or protest this advice letter. When submitting a response or protest, please include the utility name and advice letter number in the subject line. A response supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter.

A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

- (1) The utility did not properly serve or give notice of the advice letter;
- (2) The relief requested in the advice letter would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
- (3) The analysis, calculations, or data in the advice letter contain material error or omissions;
- (4) The relief requested in the advice letter is pending before the Commission in a formal proceeding; or
- (5) The relief requested in the advice letter requires consideration in a formal hearing, or is otherwise inappropriate for the advice letter process; or
- (6) The relief requested in the advice letter is unjust, unreasonable, or discriminatory (provided such a protest may not be made where it would require relitigating a prior order of the Commission.)

A protest shall provide citations or proofs where available to allow staff to properly consider the protest. A response or protest must be made in writing or by electronic mail and must be received by the Division of Water and Audits within 20 days of the date this advice letter is filed. The address for mailing or delivering a protest is:

Tariff Unit, Division of Water and Audits, 3rd floor
California Public Utilities Commission,
505 Van Ness Avenue, San Francisco, CA 94102
water_division@cpuc.ca.gov

On the same date the response or protest is submitted to the Division of Water and Audits, the respondent or protestant shall send a copy by mail (or e-mail) to Cal Water at the following address:

Darin Duncan
California Water Service Company
1720 North First Street,
San Jose, California 95112
Fax 408/367-8430 or
E-mail dduncan@calwater.com

Cities and counties requiring Board of Supervisors or Board of Commissioners approval to protest should inform the Division of Water and Audits within the 20-day protest period so a late-filed protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on.

The advice letter process does not provide for any responses, protests or comments, except for the utility's reply, after the 20-day comment period.

Replies: The utility shall reply to each protest and may reply to any response. Each reply must be received by the Division of Water and Audits within 5 business days after the end of the protest period and shall be served on the same day to the person who filed the protest or response. If you

Saving water never goes out of season.

Thank you, Bear Gulch District customers, for reducing your water use by **29%** in September compared with September 2013, and by **35.7%** since June. Please, keep up the good work so we can achieve the State mandated water usage reduction of **36%** every month through February 2016.

As the seasons change and the need to water outdoors eases, saving water indoors becomes even more important. California Water Service (Cal Water) has multiple tools, programs, and rebates to help you save and meet the State mandate. To learn more, visit calwater.com/conservation.

And, Cal Water is offering an additional incentive: From December through February, we will give \$50 gift cards to 25 lucky customers in the district whose names will be drawn from those customers who each month stayed at or below their water budget the previous month. To learn more, please visit calwater.com/reward.

For detailed definitions of each line item please see page 2. Bill continued on page 3

CPUC Fee
 The CPUC fee is set by, collected for, and sent to the California Public Utilities Commission (CPUC) to cover the costs of oversight by the CPUC. The CPUC's engineers, financial analysts, utility experts, and consumer advocates are responsible for ensuring that you receive good service and setting rates that are based upon the actual costs of delivering a clean, reliable water supply to your home or business.

WRAM
 The Water Revenue Adjustment Mechanism (WRAM) breaks the link between water sales and utility revenues. This is important because it enables Cal Water and its customers to achieve conservation targets while still ensuring that the utility has the resources necessary to provide a reliable supply of high-quality water. Here's how it works: after a thorough review process, the California Public Utilities Commission (CPUC) sets rates that allow Cal Water to cover its fixed and variable operating expenses, based on sales projections for the coming years. If water sales in a particular district are higher than projected when the rates were set, the customers receive a refund. If water sales in a particular district are lower than projected, the customers pay a surcharge. Cal Water does not earn a profit on these fixed and variable operating expenses—they are passed through to customers on a dollar-for-dollar basis. Cal Water is only allowed to earn a return on capital that is invested in water system infrastructure, and this return is a very small percentage of the total water bill.

Service Charge
 Although the service charge is based upon your meter size, it is not a "meter charge." The service charge covers a portion of the fixed costs of having a clean, reliable water supply ready to be delivered to your home or business 24 hours per day, seven days per week. These fixed costs include the costs of the wells, pipes, pumps, water quality processes, and people that are required whether you actually use the water or not. The service charge increases for larger meters because the larger your meter, the more water your home or business would typically need.

Other Charges or Credits
 "Other Charges or Credits" are small, temporary surcharges or credits that have been authorized by the CPUC due to unique conditions in your area, such as completion of a water system upgrade that isn't included in your rate or a change in the cost of electricity required to pump water to your home or business. Because these are typically small, we combine them on your bill. You can find a list of all current surcharges and credits on our web-site at www.calwater.com/votes.

Public Purpose Programs
 The "public purpose program" charge is a nominal fee approved by the CPUC to assist customers who have difficulty paying their water bill, either because they meet low-income qualifications or because they live in economically challenged communities where the costs of providing water are significantly higher than average. Although it is typically pennies per customer, the Public Purpose Programs charge makes a real difference to customers in need.

The following information is required by the California Public Utilities Commission.

For Water Bills Only

Send the bill along with a statement explaining the basis for the dispute to the California Public Utilities Commission (CPUC) at the address below. To avoid discontinuance of service, enclose a deposit for the full amount of the bill, made payable to the California Public Utilities Commission. Upon receipt of the deposit, the CPUC will review the basis of the dispute and disburse the deposit accordingly. The CPUC will not, however, accept deposits when the dispute concerns matters that do not directly relate to the accuracy of the bill. Such matters include the quality of service, general level of rates, pending rate applications, and sources of water.

Notice To Customers With Past-Due, Prior Balance On Water Bills
 This bill is due and payable upon date of presentation. It will become past due if not paid within 20 days from the date of mailing.

Should the amount of this bill be questioned, an explanation should be requested from the utility. If an explanation satisfactory to the customer is not made by the utility and the bill is still questioned, the customer may deposit with the California Public Utilities Commission, Consumer Affairs Branch, 505 Van Ness Avenue, Room 2250, San Francisco, California 94102, telephone number is (public) 415-703-1170 and (hearing required - TDD) 415-703-2032, the amount of the bill to avoid discontinuance of service. Make remittance payable to "California Public Utilities Commission" and attach the bill and a statement setting forth the basis for the dispute of the amount of bill. The Commission will review the basis of the billed amount and disburse the deposit in accordance with its findings.

The commission will not, however, accept deposits when the dispute appears to be over matters that do not directly relate to the accuracy of the bill. Such matters include the quality of a utility's service, general level of rates, pending rate applications, and sources of fuel or power.

CUSTOMER MESSAGES

On April 1, 2015, Governor Brown issued an executive order requiring a statewide mandatory reduction of 25% in water use compared to 2013. As soon as the responsible state agencies enact the regulations required by the order, we will provide additional information. Until then, we encourage you to continue to reduce your water usage as much as possible. For more information on the drought, and details about our conservation programs, visit calwater.com/drought. 111111
