Advice Letter No. 2281

To the California Public Utilities Commission:

California Water Service Company (“Cal Water”) respectfully submits this Tier 1 advice letter to establish a construction meter tariff schedule for all Cal Water districts.

New/Revised C.P.U.C. Sheet No.	Title of Sheet	Schedule No.	Cancelling C.P.U.C. Sheet No.

New	Construction Meter Tariff – Page 1	9-CM	N/A
New	Construction Meter Tariff – Page 2	9-CM	N/A

Summary

In this advice letter, Cal Water requests modifications to its tariffs to implement its new Construction and Temporary Metered Service tariff for all districts. Cal Water requests implementation of these tariff changes effective November 1, 2017.

Background

Tariff changes related to the new Construction and Temporary Metered Service tariff were set forth in Ordering Paragraphs (OP) 4 and 20 of Decision 16-12-042, adopted on December 15, 2016, which resolves Cal Water’s 2015 General Rate Case (A.15-07-015). D.16-12-042 authorizes Cal Water to implement its new construction meter tariff and collect a \$2,400 deposit for use of a hydrant meter with backflow assembly.

OP 4. Within 60 days of the effective date of this decision, California Water Service Company is authorized to file Tier 1 advice letters with revised tariff schedules in compliance with this decision for each district and rate area in this proceeding. The adopted rates for test year 2017 are included as Exhibit D to this decision. This filing shall be subject to approval by the Commission's Division of Water and Audits.

OP 20. California Water Service Company is authorized, through its tariff for temporary metered service, to collect a \$2,400 deposit for a hydrant meter with a backflow assembly for preventing cross-connections.

The implementation of the new construction meter tariff required significant coordination both within and outside Cal Water. Many of these activities were contingent upon guidance provided by the Division of Drinking Water (DDW). However, since DDW did not issue its guidance until July 7, 2017, Cal Water required additional time to implement its new tariff.

On February 7, 2017, Cal Water requested and was granted its first extension of time (to September 1, 2017) to meet the deadline to file a Tier 1 advice letter to implement tariff changes related to “Private Fire Protection Service” and “Construction and Temporary Metered Service.”

On August 24, 2017, Cal Water requested a second extension for the deadline to implement its Private Fire Protection Service replacement tariff and new Construction and Temporary Metered Service tariff, pursuant to Decision 16-12-042. In a letter dated, October 19, 2017, the Commission granted Cal Water’s request, extending the deadline to January 1, 2018.

Discussion

The new Construction and Temporary Metered Service tariff applies to customers engaged in temporary activities such as construction. As previously noted, the tariff includes the collection of a deposit for a hydrant meter with backflow assembly.

The tariff submitted in this advice letter contains a few updates from the draft that had been provided in D. 16-12-042. Although some revisions may have been grammatical (including word choice or order), the significant changes have been summarized in the table, and explained below. These changes aim to align the tariff with current guidelines, add clarity, and provide some flexibility to our customers. These revisions do not constitute a material change from the intent of the original content and they have been discussed with ORA.

Summary of Significant Tariff Updates

Reference	Draft	Final
Schedule No.	AA-9-CLM	9-CM
Applicability	N/A	Note that construction meters may also be referred to as hydrant meters.
Special Conditions 2 and 9, re: RP/BPA tested...	...annually	...according to requirements set forth by the Division of Drinking Water
Special Condition 5, re: locations for use approved...	...by utility;	...by the local fire department and utility;
Special Condition 7, re: use of water in designated service area...	N/A	...unless authorized by Cal Water in writing.
Special Condition 13, re: damages to facilities	N/A	The costs for making repairs to the damaged facilities shall be borne by the customer.

- Schedule No. has been updated to conform to Cal Water's existing convention.
- Addition of clarifying statement under Applicability addresses use of different terms to refer to the same hardware.
- Changes to Special Conditions 2 and 9 reflects the guidance provided to Cal Water by DDW. This new language also gives deference on frequency of testing to the appropriate authority and will allow the tariff to remain current, even if the frequency changes.
- The change to Special Condition 5 explicitly clarifies that meters can only be used in locations approved by the utility and also the local fire district.
- Additional statement on Special Condition 7 allows for approved exceptions for the use of water outside the designated service area. One example might be if a district approves the use of water at a construction site that is outside the district's service area but not served by any other utility.
- New statement on Special Condition 13 reminds customers that they are financially responsible for damage they cause to utility facilities.

Cal Water submits this as a Tier 1 advice letter according to General Order 96-B, Water Industry Rule 7.3.1(3).

Requested Effective Date

Cal Water requests that the attached tariffs in this Tier 1 advice letter become effective on November 1, 2017.

Notice

In accordance with General Order 96-B, General Rule 4.3 and 7.2 and Water Industry Rules 4.1 and 4.2, a copy of this advice letter has been mailed or electronically transmitted on October 24, 2017 to competing and adjacent utilities and other utilities or interested parties having requested such notification.

Response or Protest

Anyone may respond to or protest this advice letter. When submitting a response or protest, please include the utility name and advice letter number in the subject line. A response supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

- (1) The utility did not properly serve or give notice of the advice letter;
- (2) The relief requested in the advice letter would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
- (3) The analysis, calculations, or data in the advice letter contain material error or omissions;

- (4) The relief requested in the advice letter is pending before the Commission in a formal proceeding; or
- (5) The relief requested in the advice letter requires consideration in a formal hearing, or is otherwise inappropriate for the advice letter process; or
- (6) The relief requested in the advice letter is unjust, unreasonable, or discriminatory (provided such a protest may not be made where it would require relitigating a prior order of the Commission.)

A protest shall provide citations or proofs where available to allow staff to properly consider the protest. A response or protest must be made in writing or by electronic mail and must be received by the Division of Water and Audits within 20 days of the date this advice letter is filed. The address for mailing or delivering a protest is:

Tariff Unit, Division of Water and Audits, 3rd floor
California Public Utilities Commission,
505 Van Ness Avenue, San Francisco, CA 94102
water_division@cpuc.ca.gov

On the same date the response or protest is submitted to the Division of Water and Audits, the respondent or protestant shall send a copy by mail (or e-mail) to Cal Water at the following address:

Natalie Wales
California Water Service Company
1720 North First Street,
San Jose, California 95112
Fax: 408-367-8430 or
E-mail: nwales@calwater.com

Cities and counties requiring Board of Supervisors or Board of Commissioners approval to protest should inform the Division of Water and Audits within the 20-day protest period so a late-filed protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on.

The advice letter process does not provide for any responses, protests or comments, except for the utility's reply, after the 20-day comment period.

Replies: The utility shall reply to each protest and may reply to any response. Each reply must be received by the Division of Water and Audits within 5 business days after the end of the protest period and shall be served on the same day to the person who filed the protest or response. If you have not received a reply to your protest within 10 business days, contact California Water Service Company at (408) 367-8200.

Schedule No. 9-CM
All Tariff Areas
CONSTRUCTION AND TEMPORARY METERED SERVICE
Page 1

(N)

APPLICABILITY

Applicable to all temporary water service furnished for customers engaged in construction and temporary activities within the utility service area. Note that construction meters may also be referred to as hydrant meters.

TERRITORY

This schedule is applicable within the entire area served by the utility.

RATES

Monthly quantity rates and service charge listed in applicable Non-residential Metered Service will apply to service furnished under this schedule. Monthly quantity rates and service charge listed in applicable General Metered Service will apply in case Non-residential Meter Service Schedule does not exist.

SPECIAL CONDITIONS

1. Where it is necessary to obtain a temporary or construction meter, the customer will be required to sign an agreement and deposit \$2,400 for a construction meter with a Reduced Pressure (RP) or backflow prevention assembly (BPA).
2. If hardware is lost, stolen, damaged beyond repair, relocated without utility approval, or not inspected and tested according to requirements set forth by the Division of Drinking Water, the customer will forfeit the entire deposit. The deposit less the cost of any repairs other than those due to normal depreciation will be returned to the customer after termination of the service for which the meter was obtained.
3. If utility requires customer to call, fax, or email the meter reading, it is the customer's responsibility to do so by the 15th of each month. Customers that do not call, fax, or email the meter reading by the 15th of each month will be charged for 100 CCF of use.
4. In the event of failure to provide a meter read for a period of:
 - Two months, meter may be removed and permit revoked (if utility is unable to contact customer).
 - Six months, the meter will be considered abandoned, and deposit forfeited.
5. Meter can only be used in locations approved by the local fire department and utility; and meter cannot be relocated without utility approval.
6. Once water passes through meter it is no longer potable.

All Tariff Areas
CONSTRUCTION AND TEMPORARY METERED SERVICE
Page 2

(N)

7. Water taken from a utility hydrant may not be transported out of the utility's designated service area unless authorized by Cal Water in writing.
8. Meter must be inspected annually by utility. Customer is responsible for arranging inspection appointment.
9. RP and BPA must be tested according to requirements set forth by the Division of Drinking Water by a certified backflow specialist. Fee for testing is the responsibility of customer.
10. Utility will require customer to apply for a permanent service to obtain potable water to a premises. This tariff gives customer no implied rights for obtaining building permits and permanent extensions to serve customers are to be made under Rule 15.
11. Meter is not to be used for fire protection such as fire sprinkler or on-site fire hydrants. This tariff does not imply that any fire protection standards required by local or state authorities are met.
12. It is the customer's duty to notify the local fire protection agency of any connection to a fire hydrant and to disclose the intended use of water.
13. Failure of a customer to use proper spanner wrenches on the utility's fire hydrant operating nut, or any damage to the water distribution system by the customer, can result in the immediately termination of service and use of the meter. The costs for making repairs to the damaged facilities shall be borne by the customer.
14. Persons found using water from a utility hydrant location without the use of proper metering equipment will receive a warning letter and citation. A second citation may result in the suspension of all hydrant use permits issued to that customer for a period of six months. Additionally, copies of the citations will be sent to the local law enforcement authorities and the fire department will be notified that all hydrant use permits have been revoked.
15. Water used without a meter is water theft and customer will be held accountable in accordance with California Penal Code 498.
