* 20% senior discount applicable to quantity rates and 5/8 x 3/4 inch meter or a 3/4 inch meter service charge

SPECIAL CONDITIONS

1. A temporary surcharge of \$0.0727 per 1 CCF of water used will apply to the quantity rates effective January 15, 2020 thru August 9, 2026 to recover costs associated with the Water Conservation Program Drought Response Plan, per Resolution No. 8123 of the City Council of the City of Hawthorne.

2. A temporary surcharge of \$1.1262 per CCF will be applied to each customer bill on a monthly basis for a period of 12 months, starting April 1, 2025, consistent with Resolution No. 8422 of the City of Hawthorne. The surcharge amortizes the account balance (as of December 31, 2024) for Hawthorne's Full Cost Balancing Account, which tracks the difference between water production costs embedded in customer rates, and the actual water production costs incurred.

*Recycled water customers that have signed a contract with the West Basin Municipal Water District (West Basin) for repayment of the conversion costs from potable to recycled water service will be charged the potable quantity rates while the contract is in effect. Cal Water will pay West Basin a percentage of the quantity rate revenues collected from recycled water customers billed at potable water rates. The percentage refunded represents the difference between the current West Basin wholesale potable water rate and the wholesale recycled water rate.

SPECIAL CONDITIONS

1. The facilities for service to a privately owned fire protection system will be installed by the Utility at the cost of the applicant. Such cost shall not be subject to refund.
2. If a distribution main of adequate size to serve a private fire protection system in addition to all other normal service does not exist in the street or alley adjacent to the premises to be served, then a service main from the nearest existing main of adequate capacity will be installed by the Utility at the cost of the applicant. Such cost shall not be subject to refund.
3. Service hereunder is for private fire protection systems to which no connections for other than fire protection purposes are allowed and which are regularly inspected by the underwriters having jurisdiction, are installed according to specifications of the utility, and are maintained to the satisfaction of the Utility. The Utility may require the installation of a detector check valve with meter for protection against theft, leakage, or waste of water.
4. For water delivered for other than service to privately owned fire protection systems, charges will be made therefore under Schedule No. HW-1, General Metered Service.
5. The Utility will supply only such water at such pressure as may be available from time to time as a result of normal operation of Utility's system.
