RESIDENTIAL METERED SERVICE

SPECIAL CONDITIONS (continued)

- 2. Qualifying low-income individually metered residential customers are eligible for credits as shown on **Schedule CAP**.
- 3. Fire sprinkler rate: A single-family residence with a meter size that has a “fire sprinkler” rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the “fire sprinkler” rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.
