Advice Letter No. 2309

CALIFORNIA WATER SERVICE COMPANY (U 60 W)

To The Public Utilities Commission of the State of California:

Summary

In this advice letter, Cal Water is requesting a revenue increase of 1,845,046 or 4.80%, to reflect an increase in purchased water and pump tax expenses for the Los Altos District.

Discussion

Purchased water for the Los Altos District is obtained from Santa Clara Valley Water District (SCVWD) and San Jose Water Company (SJWC). Pump taxes are also paid to SCVWD. Effective July 1, 2018, SCVWD will increase its rates for contract water from \$1,275 to \$1,389 an acre-foot. The unit costs per CCF for SJWC will increase from \$4.7642 to \$4.8994. Additional surcharges and credits related to the SJWC bill are detailed in the “Offset work papers.” Additionally, the SCVWD will increase its groundwater pump tax rate from \$1,175 per acre-foot to \$1,289 per acre-foot.

Because the costs of purchased water and groundwater replenishment are variable in nature, Cal Water has recalculated rates by applying 100% of the increase to the quantity rates. Corresponding changes are made to the WRAM/MCBA mechanism adopted in D.08-02-036.

Each residential tier has been increased by the same percentage to keep the adopted tier ratios intact. Residential customer will have quantity rates increase by \$0.3236 for Tier 1 usage, by \$0.3443 for Tier 2 usage, and by \$0.4131 for Tier 3 usage. Nonresidential quantity rates will

increase by \$0.3541 relative to the rates in effect prior to AL 2286-A. Reclaimed water quantity rates will increase by \$0.3541 per CCF.¹

The bill impact of this request on a residential customer with 16 CCF of water usage per month (the recorded average monthly residential usage in 2017) will be an increase of approximately \$5.30, or 5.25%. The details relating to the calculations for the above amounts are contained in work papers.

The revised tariff sheets and Preliminary Statement M accurately reflect the proposed rate impact. The Commission staff will be provided the work papers associated to this filing in accordance with Standard Practice U-27-W.

Requested Effective Date

Under General Order 96-B, Water Industry Rule 7.3.1, as modified by Resolution W-4664, this is a Tier 1 advice letter. Cal Water requests that the rates proposed in this advice letter become effective on July 1, 2018.

Notice

Customer Notice – Customer notice of Tier 1 advice letters is not required under General Order 96-B, General Rule 7.3.1.

2. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule LIRA** (Low-Income Ratepayer Assistance), and **Schedule AS** (Additional Surcharges and Surcredits).
3. **Fire sprinkler rates:** A single-family residence with a meter size that has a "fire sprinkler" rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the "fire sprinkler" rate.
