**Advice Letter No. 2321**

**CALIFORNIA WATER SERVICE COMPANY (U 60 W)**

To The Public Utilities Commission of the State of California:

California Water Service Company ("Cal Water") hereby transmits for filing the following changes in its tariffs applicable to Dominguez District:

XXXX-W	Preliminary Statement M (WRAM / MCBA –DOM)		XXXXX-W

**Summary**

This filing proposes a revenue increase of \$618,200 or 0.8% to reflect increases in purchased water cost in the Dominguez District. Cal Water requests an effective date of January 1, 2019 for this Tier 1 advice letter.

**Discussion**

Purchased water for the Dominguez-South Bay District is obtained from the West Basin Municipal Water District (West Basin). Effective January 1, 2019, West Basin will increase its quantity rates for Tier 1 from \$1,354/AF to \$1,385/AF. The groundwater replenishment charges from the Water Replenishment District of Southern California are *not* changing.

Because the costs of purchased water are variable in nature, Cal Water has recalculated rates by applying 100% of the increase to the quantity rates. Corresponding changes are made to the WRAM/MCBA mechanism adopted in D.08-02-036.

Each residential tier has been increased by the same percentage to keep the adopted tier ratios intact. Residential customer will have quantity rates increase by \$0.0363/CCF for Tier 1 usage, by \$0.0394/CCF for Tier 2 usage, and by \$0.0458/CCF for Tier 3 usage. Nonresidential quantity rates

will increase by \$0.0395/CCF relative to current rates. Recycled water quantity rates will increase between \$0.0242/CCF and 0.0372/CCF in accordance with its volume of usage and source type.<sup>1</sup>

The typical residential customer using 10 CCF (average residential usage in 2017) will see a \$0.37, or 0.7%, monthly increase in their water bill. The details relating to the calculations for the above amounts are contained in work papers.

The revised tariff sheets and Preliminary Statement M accurately reflect the proposed rate impact. The Commission staff will be provided the work papers associated to this filing in accordance with Standard Practice U-27-W.

### **Requested Effective Date**

Under General Order 96-B, Water Industry Rule 7.3.1, as modified by Resolution W-4664, this is a Tier 1 advice letter. Cal Water requests that the rates proposed in this advice letter become effective on January 1, 2019.

### **Notice**

*Customer Notice* – Customer notice of Tier 1 advice letters is not required under General Order 96-B, General Rule 7.3.1.

*Service Lists* – In accordance with General Order 96-B, General Rule 4.3 and 7.2 and Water Industry Rule 4.1, a copy of this advice letter will be mailed or electronically transmitted on November 5, 2018 to competing and adjacent utilities and other utilities or interested parties having requested such notification.

### **Response or Protest**

Anyone may respond to or protest this advice letter. A response supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

- (1) The utility did not properly serve or give notice of the advice letter;
- (2) The relief requested in the advice letter would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
- (3) The analysis, calculations, or data in the advice letter contain material error or omissions;
- (4) The relief requested in the advice letter is pending before the Commission in a formal proceeding; or
- (5) The relief requested in the advice letter requires consideration in a formal hearing, or is otherwise inappropriate for the advice letter process; or

---

<sup>1</sup> The present rates for Dominguez District became effective on July 1, 2018, as a result of Advice Letter 2308 authorized by 96-B.
