**Advice Letter No. 2345**

**CALIFORNIA WATER SERVICE COMPANY (U 60 W)**

To The Public Utilities Commission of the State of California:

California Water Service Company (“Cal Water”) hereby transmits for filing the following changes in its tariffs applicable to Dominguez District:

CPUC <u>Sheet No.</u>	<u>Title of Sheet</u>	Schedule <u>No.</u>	Canceling CPUC <u>Sheet No.</u>

XXXX-W	Preliminary Statement M (WRAM / MCBA –DOM)		XXXXX-W

**Summary**

This filing proposes a revenue increase of \$943,200 or 1.3% to reflect increases in purchased water cost and pump tax cost in the Dominguez District. Cal Water requests an effective date of July 15, 2019 for this Tier 1 advice letter.

**Discussion**

Purchased water for the Dominguez-South Bay District is obtained from the West Basin Municipal Water District (West Basin). Effective July 1, 2019, West Basin will increase its Recycled water rates by \$35/AF in each source rate in accordance with its source type. West Basin will also increase its Fixed Service Charge by \$327,712 from last calculated water service charge cost. In addition, Water Replenishment District of Southern California will increase its pump tax rate from \$339 per acre feet to \$365 per acre feet effective from July 1, 2019.

Because costs of purchased water offset is variable in nature, Cal Water has recalculated rates by applying 100% of the increase to the quantity rates. Corresponding changes are made to the WRAM/MCBA mechanism adopted in D.08-02-036.

Each residential tier has been increased by the same percentage to keep the adopted tier ratios intact. Residential customer will have quantity rates increase by \$0.0555 for Tier 1 usage, by \$0.0601 for Tier 2 usage, and by \$0.0700 for Tier 3 usage. Nonresidential quantity rates will

increase by \$0.0603 relative to current rates. Recycled water quantity rates will increase between \$0.0370/CCF and 0.0568/CCF in accordance with its volume of usage and source type.<sup>1</sup>

The typical residential customer using 10 CCF (average residential usage in 2017) will see a \$0.56, or 1.1%, monthly increase in their water bill. The revised tariff sheets and Preliminary Statement M accurately reflect the proposed rate impact.

### **Requested Effective Date**

Under General Order 96-B, Water Industry Rule 7.3.1, as modified by Resolution W-4664, this is a Tier 1 advice letter. Cal Water requests that the rates proposed in this advice letter become effective on July 15, 2019.

<sup>1</sup> The present rates for Dominguez District became effective on January 1, 2019, as a result of Advice Letter 2332-A, authorized by D.16-12-042.

**Dominguez**  
**NOTICE OF PROPOSED RATE CHANGE BEFORE THE CALIFORNIA**  
**PUBLIC UTILITIES COMMISSION (CPUC)**

Beginning in July 2019, the water bills of California Water Service (Cal Water) customers in the Dominguez District will reflect a pass-through of higher wholesale water charges by the West Basin Municipal Water District, and higher groundwater replenishment charges from the Water Replenishment District of Southern California. The California Public Utilities Commission (CPUC) has determined that expenses for wholesale water are not under the company's control, and that a pass-through of those costs to customers is just and reasonable if properly calculated.

In Advice Letter 2345 filed on June 27, 2019, Cal Water requested authority to increase its annual revenue by \$943,200 or 1.3%. Pending the CPUC's review of Cal Water's calculations, the increase will be effective on or after July 15, 2019. With the increase, a typical monthly bill for a Dominguez residential customer with a 5/8" x 3/4" meter who uses 10 CCF (which is 1,000 cubic feet or 7,480 gallons) of water per month will increase by \$0.56, or 1.1%.

A copy of Advice Letter 2345 is available on the internet at [http://www.calwater.com/rates/advice\\_letters/index.php](http://www.calwater.com/rates/advice_letters/index.php) (please select the Rancho Dominguez District from the drop-down menu), and may also be obtained from the company's local offices by calling (310) 257-1400. You may also contact the company's headquarters at 1720 North First Street, San Jose, California 95112-4598, or by calling (408) 367-8200.

Cal Water offers many programs to help you manage your water bill including a low-income ratepayer assistance program (LIRA), water conserving appliance rebates, and other conservation programs. Please visit our website at [www.calwater.com](http://www.calwater.com) to take advantage of these opportunities.

**Protests and Responses.** Anyone may respond to or protest this filing. A response supports the filing and may contain information that proves useful to the Commission in its evaluation. A protest objects to the filing in whole or in part and must set forth the specific grounds on which it is based, and shall provide citations or proof where available to allow Commission staff to properly consider the protest. The grounds for protests are:

1. The utility did not properly serve or give notice of the filing.
2. The relief requested in the filing would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies.
3. The analysis, calculations, or data in the filing contains material error or omissions.
4. The relief requested in the filing is pending before the Commission in a formal proceeding, or
5. The relief requested in the filing requires consideration in a formal hearing, or is otherwise inappropriate for the filing process, or
6. The relief requested in the filing is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the Commission).

A response or protest must be made in writing and received by the Commission's Water Division by July 17, 2019, the end of the comment period. The response or protest should be sent to [water\\_division@cpuc.ca.gov](mailto:water_division@cpuc.ca.gov) or to the Tariff Unit, Water Division, 3<sup>rd</sup> Floor, CPUC, 505 Van Ness Avenue, San Francisco, CA 94102.

2. Cal Water is filing Advice Letter 2345 on June 27, 2019 requesting a revenue increase in the Dominguez District to reflect increases in purchased water and pump tax costs.

This advice letter includes a copy of the publication order that identifies the name of the publication, the date of publication, and a copy of the notice itself.
