Summary

This filing proposes a revenue increase of \$1,429,600 or 2.6% to reflect increases in purchased water in the Bear Gulch district. Cal Water requests an effective date of July 15, 2019 for this Tier 1 advice letter.

Discussion

Purchased water for the Bear Gulch District is obtained from San Francisco Public Utilities Commission ("SFPUC"). Effective July 1, 2019, the Bay Area Water Supply & Conservation Agency ("BAWSCA") will increase their FY 2019-2020 Bond Surcharges. The annual "BAWSCA" charges will be increased by \$128,892, thus representing a 5.5% increase over charges approved in Cal Water's approved Advice Letter 2218.¹ The remaining revenue increase is attributed to the change in adopted quantities approved in Advice Letter 2332-A.²

Because purchased water offset costs are variable in nature, Cal Water has recalculated rates by applying 100% of the increase to the quantity rates. Corresponding changes are made to the WRAM/MCBA mechanism adopted in D.08-02-036.

¹ Advice Letter 2218 was approved by the CPUC on June 20, 2016 with an effective date of July 1, 2016.

² Advice Letter 2332-A was approved by the CPUC with a requested effective date of January 1, 2019.

Each residential tier has been increased by the same percentage to keep the adopted tier ratios intact. Residential customer will have quantity rates increase by \$0.2336 for Tier 1 usage, by \$0.2482 for Tier 2 usage, and by \$0.2968 for Tier 3 usage. Nonresidential quantity rates will increase by \$0.02523 relative to current rates.³

The typical residential customer using 19 CCF will see an increase of \$4.56, or 2.9%, in their monthly water bill. The revised tariff sheets and Preliminary Statement M accurately reflect the proposed rate impact.

Requested Effective Date

Under General Order 96-B, Water Industry Rule 7.3.1, as modified by Resolution W-4664, this is a Tier 1 advice letter. Cal Water requests that the rates proposed in this advice letter become effective on **July 15, 2019**.

Notice

Customer Notice – A legal notice of this advice letter is being published in a newspaper of local circulation consistent with GO 96-B, Water Industry Rule 3.1. A copy of the order for newspaper publication, and verification from an officer of the utility that the advice letter has been properly and timely noticed, are attached.

Service Lists – In accordance with General Order 96-B, General Rule 4.3 and 7.2 and Water Industry Rule 4.1, a copy of this advice letter will be mailed or electronically transmitted on July 3, 2019 to competing and adjacent utilities and other utilities or interested parties having requested such notification.

Response or Protest

Anyone may respond to or protest this advice letter. When submitting a response or protest, please include the utility name and advice letter number in the subject line. A response supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

- (1) The utility did not properly serve or give notice of the advice letter;
- (2) The relief requested in the advice letter would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
- (3) The analysis, calculations, or data in the advice letter contain material error or omissions;
- (4) The relief requested in the advice letter is pending before the Commission in a formal proceeding; or
- (5) The relief requested in the advice letter requires consideration in a formal hearing, or is otherwise inappropriate for the advice letter process; or

³ The present rates in this advice letter are the adopted rates in AL 2332-A effective 1/1/2019.

(6) The relief requested in the advice letter is unjust, unreasonable, or discriminatory (provided such a protest may not be made where it would require re-litigating a prior order of the Commission.)

A protest shall provide citations or proofs where available to allow staff to properly consider the protest. A response or protest must be made in writing or by electronic mail and must be received by the Division of Water and Audits within 20 days of the date this advice letter is filed. The address for mailing or delivering a protest is:

Tariff Unit, Division of Water and Audits, 3rd floor
California Public Utilities Commission,
505 Van Ness Avenue, San Francisco, CA 94102
water_division@cpuc.ca.gov

On the same date the response or protest is submitted to the Division of Water and Audits, the respondent or protestant shall send a copy by mail (or e-mail) to Cal Water at the following address:

San Jose, California 95112
E-mail nwales@calwater.com

Cities and counties requiring Board of Supervisors or Board of Commissioners approval to protest should inform the Division of Water and Audits within the 20-day protest period so a late-filed protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on.

The advice letter process does not provide for any responses, protests or comments, except for the utility's reply, after the 20-day comment period.

Replies: The utility shall reply to each protest and may reply to any response. Each reply must be received by the Division of Water and Audits within 5 business days after the end of the protest period and shall be served on the same day to the person who filed the protest or response. Bear Gulch NOTICE OF PROPOSED RATE CHANGE BEFORE THE CALIFORNIA PUBLIC UTILITIES COMMISSION (CPUC)

Beginning in July 2019, the water bills of California Water Service (Cal Water) customers in the Bear Gulch District will reflect a pass-through of higher wholesale water charges by the Bay Area Water Supply and Conservation Agency. The California Public Utilities Commission (CPUC) has determined that expenses for wholesale water are not under the company's control, and that a pass-through of those costs to customers is just and reasonable if properly calculated. In Advice Letter 2349 filed on July 3, 2019, Cal Water requested authority to increase its annual revenue by \$1,429,600, or 2.6%. Pending the CPUC's review of Cal Water's calculations, the increase will be effective on or after July 15, 2019. With the increase, a typical bill for Bear Gulch residential customer with a 5/8" x 3/4" meter who uses 19 CCF (which is 1,900 cubic feet or 14,213 gallons) of water per month will increase by \$4.56, or 2.9%. A copy of Advice Letter 2349 is available on the internet at http://www.calwater.com/rates/advice_letters/index.php (please select the Bear Gulch District from the drop-down menu), and may also be obtained from the company's local offices by calling (650) 561-9709. You may also contact the company's headquarters at 1720 North First Street, San Jose, California 95112-4598, or by calling (408) 367-8200. Cal Water offers many programs to help you manage your water bill including a low-income ratepayer assistance program (LIRA), water conserving appliance rebates, and other conservation programs. Please visit our website at www.calwater.com to take advantage of these opportunities.

Protests and Responses. Anyone may respond to or protest this filing. A response supports the filing and may contain information that proves useful to the Commission in its evaluation. A protest objects to the filing in whole or in part and must set forth the specific grounds on which it is based, and shall provide citations or proof where available to allow Commission staff to properly consider the protest. The grounds for protests are:

1. The utility did not properly serve or give notice of the filing.
2. The relief requested in the filing would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies.
3. The analysis, calculations, or data in the filing contains material error or omissions.
4. The relief requested in the filing is pending before the Commission in a formal proceeding, or
