Advice Letter No. 2359

To The Public Utilities Commission of the State of California:

California Water Service Company ("Cal Water") respectfully submits this Tier 2 advice letter and hereby transmits for filing the changes in its tariff schedules shown on Attachment A for its Bakersfield, Monterey Region, Marysville, Oroville, Selma, and Visalia Districts:

New/Revised CPUC Sheet No.	Title of Sheet	Schedule No.	Cancelling CPUC Sheet No.
Please see Attachment A			

Summary

This advice letter requests approval for rate increases for the costs associated with the replacement of SCADA (Supervisory Control and Data Acquisition) systems and software in the Bakersfield, Monterey Region (King City area and Salinas area), Marysville, Oroville, Selma, and Visalia ratemaking areas. The requested effective date is February 1, 2020.

Background

The Commission adopted a Settlement Agreement and resolved Cal Water's 2015 General Rate Case in D.16-12-042.¹ As described in the introduction to the Plant Chapter for each district, the Settlement Agreement identifies capital projects that will not be included in new rates, but that may be recovered through an advice letter after the project is in service, up to a specified capped dollar amount. The list of approved projects that may be filed as "rate base offsets" is in Attachment 3 to the Settlement Agreement.

Water Industry Rule 7.3.3(8) specifies that a rate base offset may be a Tier 2 filing if it meets the following requirements:

- (i) The Rate base offset was previously approved by the Commission in a decision or resolution
- (ii) The project scope is consistent with what the Commission approved

¹ D.16-12-042, Ordering Paragraph 1. The Settlement Agreement and its attachments are provided in Exhibit A to the decision.

- (iii) The Commission approval included a budget cap and the rate base offset request is at or below the budget cap.

Discussion

In the 2015 GRC, Cal Water proposed a number of projects throughout the company to maintain reliable and uninterrupted water distribution with a dependable monitoring and control system by replacing SCADA system software and hardware throughout Cal Water. The table below shows projects that are specific to the Bakersfield, Monterey Region (Salinas area and King City area), Marysville, Oroville, Selma, and Visalia ratemaking areas.

The table shows the actual costs of the projects as well as the capped amounts adopted in the 2015 GRC Settlement Agreement. Cal Water requests revenue recovery up to the actual costs or capped amounts, whichever is lower. If approved, the annual revenue increases for the districts in dollars and percentages are shown in the table below.

District	RBO Project #	Capped Amount	Actual Cost	Requested Capital Cost (\$)	Request Revenue Increase (\$)	Request Revenue Increase (%)
Bakersfield	99166	\$1,590,809	\$2,085,050	\$1,590,809	\$224,818	0.3%
Bakersfield	99267	\$103,800	\$192,568	\$103,800		
Marysville	99174	\$343,217	\$282,000	\$282,000	\$36,947	0.9%
Monterey Region (Salinas)	99176	\$816,176	\$1,244,988	\$816,176	\$156,387	0.4%
Monterey Region (King City)	99170	\$344,460	\$320,099	\$320,099		
Oroville	99175	\$355,987	\$293,693	\$293,693	\$38,595	0.7%
Selma	99177	\$386,645	\$365,954	\$365,954	\$49,321	0.9%
Visalia	99179	\$913,127	\$1,265,837	\$913,127	\$118,798	0.4%

The following table shows the typical residential monthly bill increases at average water usage in dollars and percentage.

District	Average Usage	Typical Bill @ Current Rates	Typical Bill @ RBO Rates	Request Revenue Increase (\$)	Request Revenue Increase (%)
Bakersfield	18	\$53.34	\$53.54	\$0.20	0.4%
Marysville	10	\$52.05	\$52.55	\$0.50	1.0%
Monterey Region	10	\$51.82	\$52.04	\$0.22	0.4%
Oroville	10	\$60.86	\$61.28	\$0.42	0.7%
Selma	15	\$48.70	\$49.13	\$0.43	0.9%

Notice to Visalia Customers Regarding Rate Increases for Pre-Authorized Infrastructure Improvements

On December 20, 2019, California Water Service (Cal Water) will file two advice letters (ALs) with the California Public Utilities Commission (CPUC) requesting approval to increase rates on February 1, 2020. The two advice letters are for completed improvements to Cal Water's Supervisory Control & Data Acquisition (SCADA), a computer system for monitoring and controlling the water facilities located throughout the company. These infrastructure projects were authorized by the CPUC in Decision 16-12-042 as part of the utility's triennial rate review process, however costs for the projects can only be recovered after they are completed.

AL 2358 requests a revenue increase for upgrades to the centralized SCADA hub (Project #99272) located in San Jose. If approved, the Visalia portion of the costs would be an annual revenue increase of \$63,272 (or 0.21%) collected through a monthly surcharge of \$0.12 per connection (until the surcharge is rolled into basic water rates). The water bill of a residential Visalia customer with 16 Ccf of monthly water usage would increase by approximately \$0.12 (or 0.3%).

In AL 2359, Cal Water requests an annual revenue increase of \$118,798 (or 0.4%) for the Visalia (Project # 99179) to replace SCADA components located throughout the service area. If approved, the water bill of a Visalia residential customer with 16 Ccf of monthly water usage would increase by approximately \$0.13 (or 0.4%). Copies of these advice letters are available on the internet at <https://www.calwater.com/rates/advice-letters/> (please select the Visalia District from the drop-down menu), and may also be obtained from the company's local offices by calling (559) 624-1600. You may also contact the company's headquarters at 1720 North First Street, San Jose, California 95112-4598, or by calling (408) 367-8200.

Protest and Responses

Anyone may respond to or protest this filing. A response supports the filing and may contain information that proves useful to the CPUC in its evaluation. A protest objects to the filing in whole or in part and must set forth the specific grounds on which it is based, and shall provide citations or proof where available to allow staff to properly consider the

protest. The grounds for protests are:

1. The utility did not properly serve or give notice of the filing.
2. The relief requested in the filing would violate statute or CPUC order, or is not authorized by statute or CPUC order on which the utility relies.
3. The analysis, calculations, or data in the filing contains material error or omissions.
4. The relief requested in the filing is pending before the CPUC in a formal proceeding, or
5. The relief requested in the filing requires consideration in a formal hearing, or is otherwise inappropriate for the filing process, or
6. The relief requested in the filing is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the CPUC).

A response or protest must be made in writing and received by the Water Division via mail or email within 20 days of the date the advice letter was filed. The response or protest should be sent to water_division@cpuc.ca.gov or to "Tariff Unit, Water Division, 3rd Floor, CPUC, 505 Van Ness Avenue, San Francisco, CA 94102." On the same date, it must be sent to rateshelp@calwater.com or to "Rates Department, California Water Service, 1720 North First Street, San Jose, CA 95112." Cities and counties that need Board of Supervisors or Board of Commissioners approval to protest should inform the Water Division within the 20-day protest period, so that a late-filed protest can be considered. The informing document should include an estimated date on which the proposed protest may be voted.

If you have not received a reply to your protest within 10 business days, contact Cal Water at (408) 367-8200.

These infrastructure projects were authorized by the CPUC in Decision 16-12-042 as part of the utility's triennial rate review process, however costs for the projects can only be recovered after they are completed.

AL 2358 requests a revenue increase for upgrades to the centralized SCADA hub (Project #99272) located in San Jose. If approved, the Monterey Region portion of the costs would be an annual revenue increase of \$43,233 (or 0.11%) collected through a monthly surcharge of \$0.12 per connection (until the surcharge is rolled into basic water rates). The water bill of a residential Monterey Region customer with 10 Ccf of monthly water usage would increase by approximately \$0.12 (or 0.2%).

In AL 2359, Cal Water requests an annual revenue increase of \$156,387 (or 0.4%) for the Monterey Region (Project # 99170 and 99176) to replace SCADA components located throughout the service area. SALINAS CALIFORNIAN

DECLARATION OF GREG A. MILLEMAN
REGARDING PROPER AND TIMELY SERVICE OF ADVICE LETTER

I, Greg A. Milleman, declare and state:

1. I am the Vice President, California Rates, of California Water Service Company (U 60 W) ("Cal Water").

2. Cal Water is filing **Advice Letters (ALs) 2358 through 2368 on December 20, 2019** to request a revenue increase for all of its regulated districts, except Grand Oaks and Travis. AL 2358 (all districts), AL 2359 (Bakersfield, Monterey Region, Marysville, Oroville, Selma, and Visalia Districts), and AL 2360 (Chico, Dominguez Hermosa Redondo, Los Angeles County Region, Los Altos, Livermore, Stockton, and Westlake Districts) request revenue increases for completed upgrades to Cal Water's Supervisory Control & Data Acquisition (SCADA). ALs 2361 through 2366 reflect an increase in purchased water costs for the Dominguez, Hermosa Redondo, Los Angeles County Region, East Los Angeles, Westlake, and Livermore Districts, respectively. ALs 2367 and 2368 request revenue increases for the Bay Area Region (station 1-24) and East Los Angeles District (station 62-02) for completed capital improvements that were previously authorized by the CPUC in Decision 16-12-042.

3. Customer notice of the filing of this advice letter is being provided through the publication of a legal notice in a newspaper of general circulation. This advice letter includes a copy of the publication order that identifies the name of the publication, the date of publication, and a copy of the notice itself.

4. This newspaper publication meets the requirements of the California Public Utilities Commission's ("Commission's") General Order 96-B ("GO 96-B"), Water Industry Rule 3.1.

5. With the first customer bill reflecting the requested revenue increase, Cal Water will inform customers of the rate increase, and its impact on a typical residential customer's bill in both dollar and percentage terms.

6. This customer bill notice meets the requirements of the Commission's GO 96-B, Water Industry Rule 3.2.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

Executed on **December 20, 2019**, in San Jose, California.
