CALIFORNIA WATER SERVICE COMPANY (U 60 W)

To The Public Utilities Commission of the State of California:

Summary

This filing proposes a revenue increase of \$339,900, or 1.6%, to reflect increases in purchased water in the Westlake District. Cal Water requests an effective date of February 1, 2020 for this Tier 1 advice letter.

Discussion

Purchased water for the Westlake District is obtained from the Calleguas Municipal Water District (Calleguas). Effective January 1, 2020, Calleguas increased its quantity rates for Tier 1 from \$1,423 to \$1,472 per acre-foot. Triunfo Sanitation District will increase recycled water rates to \$1,177.6 per acre-foot.

Because purchased water costs are variable in nature, Cal Water has recalculated rates by applying 100% of the increase to the quantity rates. Corresponding changes are made to the WRAM/MCBA mechanism adopted in D.08-02-036.

Each residential tier has been increased by the same percentage to keep the adopted tier ratios intact. Residential customer will have quantity rates increase by \$0.0962/CCF for Tier 1 usage, by \$0.1142/CCF for Tier 2 usage, and by \$0.1263/CCF for Tier 3 usage. Nonresidential quantity rates

will increase by \$0.0939/CCF relative to current rates. Recycled water quantity rates will increase by \$0.0807/CCF per CCF.¹

The typical residential customer using 25 CCF (average residential usage in 2017) will see a \$2.62, or 1.7%, monthly increase in their water bill. The details relating to the calculations for the above amounts are contained in work papers.

The revised tariff sheets and Preliminary Statement M accurately reflect the proposed rate impact. The Commission staff will be provided the work papers associated to this filing in accordance with Standard Practice U-27-W.

Requested Effective Date

Under General Order 96-B, Water Industry Rule 7.3.1, as modified by Resolution W-4664, this is a Tier 1 advice letter. Cal Water requests that the rates proposed in this advice letter become effective on February 1, 2020.

Notice to Westlake Customers Regarding Rate Increases for Purchased Water Offset and Pre- Authorized Infrastructure Improvements

On December 20, 2019, California Water Service (Cal Water) will file three advice letters (ALs) with the California Public Utilities Commission (CPUC) requesting approval to increase rates on February 1, 2020.

Two advice letters are for completed improvements to Cal Water's Supervisory Control & Data Acquisition (SCADA), a computer system for monitoring and controlling the water facilities located throughout the company. These infrastructure projects were authorized by the CPUC in Decision 16-12-042 as part of the utility's triennial rate review process, however costs for the projects can only be recovered after they are completed.

AL 2358 requests a revenue increase for upgrades to the centralized SCADA hub (Project #99272) located in San Jose. If approved, the Westlake District's portion of the costs would be an annual revenue increase of \$9,676 (or 0.05%) collected through a monthly surcharge of \$0.12 per connection (until the surcharge is rolled into basic water rates). The water bill of a residential Westlake customer with 25 Ccf of monthly water usage would increase by approximately \$0.12 (or 0.1%).

In AL 2360, Cal Water requests an annual revenue increase of \$36,963 (or 0.2%) for the Westlake District (Project #99182) to replace SCADA components located throughout the service area. If approved, the water bill of a Westlake residential customer with 25 Ccf of monthly water usage would increase by approximately \$0.28 (or 0.2%).

Protest and Responses

Anyone may respond to or protest this filing. A response supports the filing and may contain information that proves useful to the CPUC in its evaluation. A protest objects to the filing in whole or in part and must set forth the specific grounds on which it is based, and shall provide citations or proof where available to allow staff to properly consider the protest. The grounds for protests are:

1. The utility did not properly serve or give notice of the filing.
2. The relief requested in the filing would violate statute or CPUC order, or is not authorized by statute or CPUC order on which the utility relies.
3. The analysis, calculations, or data in the filing contains material error or omissions.
4. The relief requested in the filing is pending before the CPUC in a formal proceeding, or
5. The relief requested in the filing requires consideration in a formal hearing, or is otherwise inappropriate for the filing process, or
6. The relief requested in the filing is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the CPUC).

A response or protest must be made in writing and received by the Water Division via mail or email within 20 days of the date the advice letter was filed. The response or protest should be sent to water_division@cpuc.ca.gov or to "Tariff Unit, Water Division, 3rd Floor, CPUC, 505 Van Ness Avenue, San Francisco, CA 94102." On the same date, it must be sent to rateshelp@calwater.com or to "Rates Department, California Water Service, 1720 North First Street, San Jose, CA 95112."

Cities and counties that need Board of Supervisors or Board of Commissioners approval to protest should inform the Water Division within the 20-day protest period, so that a late-filed protest can be considered. The informing document should include an estimated date on which the proposed protest may be voted.

If you have not received a reply to your protest within 10 business days, contact Cal Water at (408) 367-8200.
