Purpose

With this advice letter, Cal Water requests authorization from the California Public Utilities Commission (CPUC) to implement new rates for 20 Class A ratemaking areas effective February 1, 2020. The new rates reflect a consolidation of the changes requested in six Tier 1 advice letters for purchased water/pump tax offsets, and six Tier 2 advice letters for ratebase offsets, all of which request revenue increases.

Background

Cal Water filed Tier 1 advice letters on December 20, 2019 for six purchased water/pump tax offsets and six ratebase offsets for the ratemaking areas shown below.

2353	Ratebase Offset	Dominguez	Approved
2358	Ratebase Offset	All Cal Water Districts (except Travis District and Grand Oaks)	Approved

Discussion

In advice letter (AL) 2358, Cal Water requested to consolidate all revenue increases related to all the filed purchased water and ratebase offsets as one increase to basic water rates (quantity charges and service charges) to avoid multiple rate increases for the same ratemaking area. This Tier 1 advice letter proposes new rates for 20 Cal Water ratemaking areas (excludes the Travis District and Grand Oaks) to reflect the revenue increases requested and approved in the advice letters identified above. Implementing one rate change to encompasses all advice letters relevant to an area helps to address customers' historically concerns about multiple rate increases.

The table below shows the monthly typical bill impacts using average usage for residential customers for all ratemaking areas.

Average Residential Bills					
Ratemaking Area	Average Monthly Usage (CCF)	Current Typical Bill	Estimated Monthly Typical Bill	Change (\$)	Change (%)
Bakersfield	18	\$53.34	\$53.61	\$0.27	0.5%
