CALIFORNIA WATER SERVICE COMPANY

Advice Letter 2396, Palos Verdes Tariffs for 2021

Page 1

December 29, 2020

Advice Letter No. 2396

To the California Public Utilities Commission:

California Water Service Company ("Cal Water") respectfully submits this Tier 1 advice letter requesting authority to make the changes in its tariff as described below.

Please note that, due to limitations on non-essential travel as a result of the COVID-19 virus, this advice letter will only be distributed electronically to the Water Division and the attached service lists. If applicable, paper copies will be distributed when administrative staff are able to return to company offices.

I. Summary

This advice letter requests approval to place the Palos Verdes Peninsula Water Reliability Project ("PV Pipeline" or "Pipeline") into rates consistent with the settlement agreement approved in Decision (D.) 20-12-007 and Advice Letter 2387 (the original rate base offset for the PV Pipeline). It creates a new set of tariffs applicable only to Palos Verdes customers in the Los Angeles County Region ("LAR"). It also incorporates the purchased water increases requested in Advice Letter 2394 applicable to all customers in the region.

Cal Water is requesting an effective date of January 1, 2021 for these increases. However, due to the delay in resolving Cal Water's General Rate Case (A.18-07-001), Cal Water is requesting an implementation date (when customers will start seeing the rate changes on their bills) of February 1, 2021 for this and other rate changes authorized in D.20-12-007. This will provide the Commission with additional processing time to review those rate changes before customer bills are changed.

II. Background

On July 28, 2020, Cal Water filed Advice Letter 2387 requesting approval of the Palos Verdes Peninsula Water Reliability Project ("PV Pipeline" or "Pipeline") cost up to the Cal Water and Public Advocates Office settlement agreement amount of approximately \$96.1 million.¹ Any implementation of rates in the advice letter were predicated on the approval of the settlement agreement pending resolution in Cal Water's 2018 GRC and a ruling on a joint motion to defer rates until January 1, 2021. On December 3, 2020, the Commission concluded the 2018 GRC and adopted the following Ordering Paragraphs in D.20-12-007:

1. The joint motion to adopt the Settlement Agreement of California Water Service Company and Public Advocates Office (attached hereto as Attachment 1) is granted. The Settlement Agreement is approved and adopted.

5. For Test Year 2020, within 60 days of the effective date of this decision, California Water Service Company shall file Tier 1 advice letters with revised tariff schedules in compliance with this decision for each of its districts and rate areas considered in this proceeding, consistent with the adopted rates for each rate area as illustrated in the attached Appendices A through X. This filing shall be subject to approval by the Commission's Water Division.

10. To the extent that other matters before the Commission impact the rates or tariffs adopted in this decision, California Water Service Company is authorized to incorporate those outcomes into the tariffs implemented for this General Rate Case, consistent with the terms and conditions of the Settlement Agreement approved in this decision.

¹ Advice Letter 2387 is pending CPUC Water Division approval.

29. The portion of the Joint Motion of California Water Service Company and Public Advocates Office to Defer Rate Increases for Palos Verdes Project and Reopen Record Due to Covid-19 Pandemic seeking a rate deferral is moot.

III. Discussion

In this advice letter, Cal Water is requesting approval to implement new rates for Palos Verdes consistent with the above Ordering Paragraphs of D.20-12-007. The settlement agreement states -

Upon completion of the PV Pipeline, Cal Water will prepare a Tier 2 advice letter with a new set of tariffs for Palos Verdes customers alone (a residential tariff, a non-residential tariff, and a recycled water tariff) that will become effective 30 days after filing, subject to refund.

As mentioned earlier, Cal Water filed the Tier 2 advice letter on July 28, 2020 which, if the GRC had been approved at that time, would have allowed rates to be implemented August 27, 2020. However, in that advice letter, Cal Water discussed its request to defer changing water rates and implement a freeze on current rates until January 1, 2021 through a joint motion dated April 28, 2020. The Commission has since ruled the deferral no longer has any practical significance per Ordering Paragraph 29. This is reasonable because all revenue is being captured in the interim rate memorandum account until final rates are implemented, and all rate changes related to Palos Verdes (including the rate base offset in AL 2387) are being implemented after January 1, 2021, the date originally requested in the joint motion for delayed rates.

Given the recently approved GRC decision and the time that has since elapsed from the original advice letter filing, Cal Water respectfully requests the implementation of the rates in this advice letter, subject to refund as indicated in the settlement agreement.² Consistent with the settlement agreement, Cal Water has calculated the individual rate components as if there were a tariff for the PV Pipeline alone. This was done by calculating a revenue requirement just for the capital associated with the PV Pipeline, and applying the sales and services of the Palos Verdes service area to create a hypothetical standalone tariff.

On December 17, 2020, Cal Water also filed AL 2394 requesting purchased water and pump tax offsets for various districts, including the Los Angeles County Region (LAR). The incremental Pipeline tariff components described above were then added to the individual components of the LAR tariffs in Advice Letter 2394. Thus, the new Palos Verdes tariffs for residential, non-residential, and recycled water customers ("PV tariffs") are the sum of the PV Pipeline and the latest LAR rate components from AL 2394. A separate Preliminary Statement M just for the Pipeline is included as well. Commission staff has been furnished copies of the detailed work papers showing the calculations.

IV. Requested Effective Date

² The settlement differs from GO 96-B in that it provides for a tier 2 advice letter to be filed for the PV Pipeline and become effective subject to refund 30 days later, rather than waiting for final disposition.

Under General Order 96-B, Water Industry Rule 7.3.1 (3), this is a Tier 1 advice letter. The effectiveness is subject to refund pending the Commission staff's determination that the filing is in compliance and that the calculations are correct. Cal Water requests an effective date of **January 1, 2021** but an implementation date of **February 1, 2021**.

V. Notice

Customer Notice – Notices of the charges in this advice letter will be provided as a bill message on the first bill to impacted customers³.

Service Lists – In accordance with General Order 96-B, General Rule 4.3 and 7.2 and Water Industry Rule 4.1, a copy of this supplemental advice letter will be mailed or electronically transmitted on **December 29, 2020**, to competing and adjacent utilities and other utilities or interested parties having requested such notification. ***Please note that, due to limitations on non-essential travel as a result of the COVID-19 virus, this advice letter will only be distributed electronically. If applicable, paper copies will be distributed when administrative staff are able to return to company offices.***

VI. Response or Protest

Anyone may respond to or protest this advice letter. When submitting a response or protest, please include the utility name and advice letter number in the subject line.

A response supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

- (1) The utility did not properly serve or give notice of the advice letter;
- (2) The relief requested in the advice letter would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
- (3) The analysis, calculations, or data in the advice letter contain material error or omissions;
- (4) The relief requested in the advice letter is pending before the Commission in a formal proceeding; or
- (5) The relief requested in the advice letter requires consideration in a formal hearing, or is otherwise inappropriate for the advice letter process; or
- (6) The relief requested in the advice letter is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require re-litigating a prior order of the Commission.)

A protest shall provide citations or proofs where available to allow staff to properly consider the protest. A response or protest must be made in writing or by electronic mail and must be received

³ Notice of the rate base offset has been provided previously in AL 2387 through separate mailing to customers consistent with GO 96-B, Water Industry Rule 3.1.

CALIFORNIA WATER SERVICE COMPANY

Advice Letter 2396, Palos Verdes Tariffs for 2021

Page 5

by the Water Division within 20 days of the date this advice letter is filed. The advice letter process does not provide for any responses, protests or comments, except for the utility's reply, after the comment period. The address for mailing or delivering a protest is:

Tariff Unit, Water Division, 3rd floor
California Public Utilities Commission,
505 Van Ness Avenue, San Francisco, CA 94102
water_division@cpuc.ca.gov

On the same date the response or protest is submitted to the Water Division, the respondent or protestant shall send a copy by mail (or e-mail) to us, addressed to:

Natalie Wales
California Water Service Company
1720 North First Street,
San Jose, California 95112
Fax 408/367-8566
E-mail cwsrates@calwater.com

Cities and counties that need Board of Supervisors or Board of Commissioners approval to protest should inform the Water Division, within the protest period, so that a late filed protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on.

VII. Replies

The utility shall reply to each protest and may reply to any response. Each reply must be received by the Water Division within 5 business days after the end of the protest period, and shall be served on the same day to the person who filed the protest or response. If you have not received a reply to your protest within 10 business days, contact California Water Service Company at 408-367-8200, and ask for the Rates Department.

SPECIAL CONDITIONS

(N)

1. Qualifying low-income individually metered residential customers are eligible for credits as shown on **Schedule LIRA**.
2. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule LIRA** (Low-Income Ratepayer Assistance), and **Schedule AS** (Additional Surcharges and Surcredits).
3. **Fire sprinkler rate:** A single-family residence with a meter size that has a "fire sprinkler" rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the "fire sprinkler" rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.
4. **Water Expense Increase:** Beginning on February 1, 2021, rates in this area will reflect a 2.3% revenue increase (as compared to the revenue approved in Advice Letter 2373) due to higher charges imposed by the West Basin Municipal Water District. This caused quantity rates to go up by the following amounts: \$0.0977/CCF for Tier 1 usage, \$0.1221/CCF for Tier 2 usage, and \$0.1831/CCF for Tier 3 usage. Amounts collected from these quantity rate increases will be tracked in a balancing account, as required by Section 792.5 of the Public Utilities Code, and will be trued up at a later time. Monthly service charges also went up, with the charge for a 5/8 x 3/4-inch meter increasing by \$0.62.

APPLICABILITY

Applicable to all reclaimed water customers that have signed a contract with the West Basin Municipal Water District (West Basin) for repayment of the conversion costs from potable to reclaimed water service will be charged the potable quantity rates while the contract is in effect. The Company will pay West Basin a percentage of the quantity rate revenues collected from reclaimed water customers billed at potable water rates. The percentage refunded represents the difference between the current West Basin wholesale potable water rate and the wholesale reclaimed water rate.

Decision		<u>Vice President</u>	Effective	<u>01/01/2021</u>
			Resolution	

Schedule No. LAR-PV-6
Los Angeles County Region Tariff Area
RECLAIMED METERED SERVICE

Page 2

SPECIAL CONDITIONS

1. Recycled water will be supplied **only** as available from West Basin Municipal Water District.
2. As a condition of service under this schedule, all customers are required to comply with the Company's Rule 16, **Section D**, Reclaimed Water Service.
3. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and **applicable** surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule LIRA** (Low-Income Ratepayer Assistance), and **Schedule AS** (Additional Surcharges and Surcredits).
4. **Water Expense Increase:** Beginning on February 1, 2021, rates in this area will reflect a 2.3% revenue increase (as compared to the revenue approved in Advice Letter 2373) due to higher charges imposed by the West Basin Municipal Water District. This caused quantity rates to go up by \$0.0952/CCF. Amounts collected from these quantity rate increases will be tracked in a balancing account, as required by Section 792.5 of the Public Utilities Code, and will be trued up at a later time. Monthly service charges also went up, with the charge for a 5/8 x 3/4-inch meter increasing by \$0.73.
