Advice Letter No. 2397**CALIFORNIA WATER SERVICE COMPANY (U 60 W)**

To The Public Utilities Commission of the State of California:

California Water Service Company ("Cal Water") hereby transmits for filing a modified tariff sheet for the list of "Contracts and Deviations" to reflect a new temporary contract in the Salinas Valley Region.

Summary

Cal Water requests approval to add the attached draft Agreement for Emergency Water Service ("Agreement") with Gabilan Water Company ("Gabilan") to the tariff sheet for "Contracts and Deviations." The Agreement allows Gabilan to take water from a fire hydrant in Cal Water's Salinas Valley Region while Gabilan repairs a well.

This advice letter is submitted as a Tier 2 filing consistent with Water Industry Rule 7.3.2(2). Cal Water requests that the Agreement be allowed to go into effect pending the Water Division's review of this advice letter.

General Order 96-B Requirements for Tariff Deviations

Water Industry Rule 8.3 allows a water company to enter into a contract or other tariff deviation for approval by the Commission at least 30 days before the effective date of the rate or service.

General Rule 8.5.6 identifies the information about each contract or other deviation from a tariff that must be provided on the “list of contracts or deviations.”

Water Industry Rule 4.3 requires that an advice letter requesting a contract or other tariff deviation be served on each customer for whom the deviation is proposed, and that the advice letter state that the customer may object to it or seek a modification by submitting a protest.

Water Industry Rule 7.3.2(2) specifies that advice letters for a contract or other deviation may be filed as Tier 2.

Discussion

Gabilan Water Company provides service near Cal Water’s Salinas Valley ratemaking area, and requests emergency water service while it repairs one of its wells. Under the Agreement, Gabilan would withdraw water from a designated Cal Water hydrant and be charged according to the non-residential tariff in effect for the Salinas Valley Region.

A draft of the Agreement for Emergency Water Service between Cal Water and Gabilan is provided as **Attachment A**.¹ Gabilan would like to begin drawing up to a maximum of 1 million gallons of water per month from Cal Water’s hydrant starting in mid-January 2021. Accordingly, Cal Water requests that Gabilan be allowed to begin taking water pending Commission approval of the Agreement. The Agreement will continue until the well is repaired, or 3 months after the Agreement is signed, whichever is earlier. (See page 3, Section 8.)

Cal Water requests that the Commission accept the attached Emergency Water Service Agreement as a deviation from Cal Water’s tariff. Consistent with the intent of General Rule 8.3, Section 4.d of the Agreement acknowledges the Commission’s authority over the Agreement. Consistent with General Rule 8.5.6, Cal Water proposes adding modifying its list of “Contracts or Deviations” by adding the Emergency Water Service Agreement.

As required by Water Industry Rule 4.3, Cal Water will serve this advice letter on Gabilan Water Company, the “customer” in this case, and hereby notes that Gabilan may object to the tariff deviation or seek a modification by submitting a protest.

Requested Effective Date

This advice letter is submitted as a Tier 2 submission consistent with Water Industry Rule 7.3.2(2). Cal Water requests that acceptance of these contract deviations become effective by **January 28, 2021**, 30 days after this filing, but that Gabilan be allowed to begin taking water pending

¹ The Agreement was signed by a Gabilan representative on December 24, 2020, but language in the document is still highlighted in yellow.

Response or Protest

Anyone may respond to or protest this advice letter. A response supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A protest shall provide citations or proofs where available to allow staff to properly consider the protest. AGREEMENT FOR EMERGENCY WATER SERVICE

THIS AGREEMENT is made on 12/24/2020, 2020, by and between the GABILAN WATER COMPANY ("Gabilan") and CALIFORNIA WATER SERVICE COMPANY, a California corporation ("Cal Water") (together, "Parties").

RECITALS

- A. Gabilan is a water utility that provides water services in Monterey County, California.
- B. Cal Water is a public water utility regulated by the California Public Utilities Commission ("Commission") that provides water services throughout California, including in and around the City of Salinas, Monterey County, California.
- C. Due to required well maintenance, there are customers of Gabilan near Cal Water's Salinas service area who do not have a reliable source of water.
- D. Gabilan desires to receive, and Cal Water agrees to provide, emergency water service pursuant to the terms and conditions set forth in this Agreement to assist those customers for a limited time period.
- E. Cal Water enters into this Agreement subject to Commission rules, including the Commission's General Order 96-B, Water Industry Rules Sections 4.3 and 8.3, which allow service under terms and conditions that deviate from a utility's tariff, such as those contained in this Agreement.

NOW, THEREFORE, for and in consideration of the provisions herein contained, it is agreed as follows:

- 1. Recitals. The above Recitals are incorporated into this Agreement as if fully set forth herein.
- 2. Definitions.
 - a. "Gabilan" means the employees, agents, and contractors of Gabilan Water Company.
 - b. "End User" shall mean any recipient or beneficiary of water, whether an individual, household, business, or other entity.

3. Emergency Water Service.

a. Interconnect: The water systems of Gabilan and Cal Water will be connected at a Cal Water hydrant via a hose to a Gabilan hydrant ("Interconnect"). A water meter and backflow device shall be in this hose assembly. A map showing the location of the Interconnect is attached hereto as Appendix "B".

b. Access: Cal Water hereby grants permission to Gabilan to withdraw water pursuant to this Agreement. Unless otherwise specified in the Agreement, all terms and conditions of service are subject to Cal Water's tariffs. The Parties shall at all times have access to the Interconnect for purposes of reading the meter and determining whether the Interconnect is in good and operable condition. The Parties shall meet as needed to coordinate and jointly respond to any operational issues.

c. Meters. Cal Water shall provide a meter for the purpose of measuring the volume of water withdrawn by Gabilan. Gabilan agrees the meter shall only be connected to the designated Cal Water hydrant, absent advance written agreement from Cal Water to use a non-designated hydrant.

d. Backflow Prevention. Gabilan shall withdraw water from the designated hydrant only if a backflow prevention device (or other method approved in writing by Cal Water) is in place to prevent the backflow of water into Cal Water's system.

e. Designated Hydrant. The designated hydrant will be shown on a map or identified by street address in a writing, which is incorporated by reference into this Agreement.

f. Operation and Maintenance. Cal Water shall be responsible for the repair and maintenance of the Interconnect. Gabilan shall immediately advise Cal Water if it observes any tampering, alteration, damage or malfunction of the Interconnect. Gabilan shall also immediately Cal Water if it receives reports of the same from customers or third parties.

4. Limitations.

a. Gabilan shall instruct End Users that they must comply with the State Water Resources Control Board's restrictions on water use and Cal Water's Tariff Rule 14.1. Gabilan shall not use the water for commercial or other nonresidential purposes.

b. Gabilan agrees to the maximum monthly limitations of up to 1,000,000 gallons as set forth in Appendix A, subject to available capacity as determined by Cal Water, of water service under this Agreement, as specified in Appendix A, which may be modified by mutual written agreement of the Parties or by the Commission.

c. Only Gabilan shall withdraw water from Cal Water's designated hydrant under this Agreement.

d. If the Commission determines that terms or conditions of this Agreement are not reasonable or are not in the public interest, the Agreement shall terminate at a time mutually agreed-upon by the Parties, but in no event later than 30 days after the Commission's determination. In such case, the Gabilan shall remit payment under the terms of this Agreement for any water withdrawn prior to termination.

5. No Warranties. Cal Water does not warrant the quality of water after it is withdrawn from its hydrant; in particular, Cal Water makes no representation that the water obtained under this Agreement meets the state's health and safety requirements for safe drinking water. THE WATER IS PROVIDED "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. Gabilan shall regularly notify End Users in writing that the water delivered by Cal Water under the terms of this Agreement is not so warranted.

6. Billing and Compensation.

a. Cal Water shall bill Gabilan monthly for all water obtained under this Agreement and such payments to be made within thirty (30) days after receipt of a bill. The amount of water delivered shall be estimated if conditions do not permit metered measurement.

b. The effective tariff rates for non-residential metered service in the Salinas District shall apply to water withdrawn under this Agreement, with the amount of the fixed monthly service charge determined by the non-residential metered rates. Current tariffs can be obtained from the Cal Water website at www.calwater.com.

c. Gabilan will be responsible for any repair or replacement costs associated with Cal Water's assets, if any, at the termination of the Agreement.

7. Reporting. Gabilan will provide the following documents to Cal Water monthly:

- a. Number of locations served, by month; and
- b. Total amount of water delivered, by month; and
- c. Additional reasonable information as requested by Cal Water.

8. Term and Termination.

a. This Agreement shall continue in effect until the Gabilan well is repaired or three (3) months from the effective date of this Agreement, whichever is earlier. Either Party may terminate this Agreement, with or without cause, by providing at least twenty (20) days advance written notice to the other.

b. Notwithstanding the above notice for termination, if the Commission or Cal Water, in its sole discretion, determines that continuing with the Agreement negatively impacts Cal Water's operations or customers who are situated within Cal Water's Commission-approved service area (including a determination that there is excessive or inappropriate use of water obtained under this Agreement), Gabilan shall be notified, and the Parties shall develop a timetable and process (such as phasing in a decrease of the maximum withdrawal amounts) to ensure termination of the Agreement within a reasonable time not to exceed thirty (30) days.

9. Notice. Any notice required or given under this Agreement must be in writing, and may be given either by acknowledged email, personally, by certified mail, or by overnight mail. If personally delivered, a notice shall be deemed to have been given and received when delivered to the party to whom it is addressed. If given by certified mail or overnight carrier, the same shall be deemed to have been given and received on the first to occur of (a) actual receipt by any of the addressees designated below as the party to whom notices are to be sent, or (b) five (5) days after a letter containing such notice, properly addressed, with postage prepaid, is deposited in the United States mail or with the overnight carrier. 10. Water Supply for Limited Purpose. The obligation to supply water under this Agreement is limited to supplemental water above and beyond that required to service the needs of Cal Water, and only during emergency or disaster for a reasonable period of time to permit Gabilan to affect repairs to its own sources or to obtain water from other
