**Advice Letter No. 2409**

To the California Public Utilities Commission:

California Water Service Company ("Cal Water") respectfully submits this Tier 1 advice letter requesting authority to make the changes in its tariff as described below.

***Please note that, due to limitations on non-essential travel as a result of the COVID-19 virus, this advice letter will only be distributed electronically to the Water Division and the attached service lists.***

**Summary**

This advice letter requests authority to amortize the General District Balancing Accounts (Preliminary Statement AO) for all Class A areas, except for the Travis District, in the amount of \$6,876,000

Cal Water requests an effective date of **April 15, 2021** for the surcharges proposed in this Tier 1 filing.

**Background**

The General District Balancing Accounts and the proposed treatment of the balances tracked in those accounts are described in the Settlement Agreement in Cal Water's 2018 GRC as follows:

The purpose of the General District Balancing Accounts ("District BAs") is to track small sums (negative and positive) associated with a ratemaking district so that they can be aggregated, and the net amount addressed as a group when the sums grow larger. The general terms of the District BAs were adopted in D.14-08-011, and are as follows:

- a) Each ratemaking area will have an associated "general balancing account" (referred to as a "general district balancing account");

- b) Each general district balancing account may be amortized consistent with the Commission's standard practices (2% of last adopted revenue requirement), or in a GRC; and
- c) For accounts for which the Commission has authorized a fixed period of amortization, the small residual balances that result from under- or over-amortization may be put into a general district balancing account.<sup>1</sup>

In Special Request #13, Cal Water requested authority to recover the amounts tracked in the District BAs via a Tier 1 advice letter, and to net the amounts against other balancing and memorandum accounts being amortized at the same time. The Public Advocates Office did not oppose the request to amortize the District BAs, but opposed the request to net balances against one another.

**RESOLUTION:** The Parties agree that Cal Water should be authorized to amortize (at the ratemaking level) the total net balance of \$6,876,000 (as of May 31, 2018) in the District BAs as of May 31, 2018 via a Tier 1 advice letter. Cal Water withdraws its request to net District BA amounts against the balances of other accounts being amortized at the same time.<sup>2</sup>

In D.20-12-007, the Commission adopted the Settlement Agreement and authorized implementation of the matters addressed therein in Ordering Paragraph 10:

To the extent that other matters before the Commission impact the rates or tariffs adopted in this decision, California Water Service Company is authorized to incorporate those outcomes into the tariffs implemented for this General Rate Case, consistent with the terms and conditions of the Settlement Agreement approved in this decision.

### **Discussion**

The total net balance of \$6,876,000 in the General District Balancing Account Cal Water is the sum of residuals from the previous amortization of 19 balances associated with 16 balancing accounts ("BAs") and memorandum accounts ("MAs"). **Table 1** provides a brief description of each relevant BA or MA. **Table 2** lists the balances associated with each district. (Positive amounts represent under-collections, and negative amounts represent over-collections.)

For the districts that have been consolidated into the Bay Area Region (Bayshore and Redwood Valley), the LA County Region (Antelope Valley and Palos Verdes), and the Salinas Valley Region (King City and Salinas), the surcharges associated with the individual districts have also been consolidated so that the surcharges for amortization of this balancing account are regional.

<b>J2</b>	Credit Card Program Memo Account (CCP MA)	Tracks the savings and costs related to a pilot program allowing customers to use credit and debit cards for payment without individual fees.
<b>Q</b>	HomeServe Memo Account	To ensure compliance with the Commission's non-tariffed products and services rules, tracks the costs and revenues related to a contract with a third party (HomeServe) that provides an insurance-type product for various home maintenance needs, fees for which are included on Cal Water's water bills.
<b>X</b>	Operational Energy Efficiency Program Memorandum Account (OEEPMA)	Tracks the costs of capital pilot programs to improve energy efficiency for well pumps and booster pumps in Bakersfield, Chico, and Visalia.
<b>Z1</b>	Conservation Expense One-Way Balancing Account (CEBA1)	One-way balancing account that tracks the difference between actual conservation expenses and authorized conservation amounts included in rates in 2011-2013 (2009 GRC period).
<b>Z2</b>	Conservation Expense One-Way Balancing Account (CEBA2)	One-way balancing account that tracks the difference between actual conservation expenses and authorized conservation amounts included in rates in 2014-2016 (2012 GRC period).
<b>AA1</b>	Pension Cost Balancing Account (PCBA1)	Two-way balancing account that tracks the difference between actual pension costs and pension costs adopted in the 2009 GRC for the period of 2011-2013. If actual pension costs exceeds adopted pension costs at the end of three year period, Cal Water will file for recovery. If actual costs are lower than adopted costs at the end of three year period, Cal Water will be liable to refund the balance to ratepayers.
<b>AA2</b>	Pension Cost Balancing Account (PCBA2)	Two-way balancing account that tracks the difference between actual pension costs and pension costs adopted in the 2012 GRC for the period of 2014-2016. If actual costs are lower than adopted costs at the end of three year period, Cal Water will be liable to refund the balance to ratepayers.
<b>AB2</b>	Health Care Balancing Account Account (HCBA2)	Two-way balancing account that tracks the difference between actual healthcare costs and healthcare costs adopted in the 2012 GRC for the period of 2014-2016. True-up is only for 85% of the difference between actual and adopted costs.
<b>AK</b>	Rate Support Fund Balancing Account (RSF BA)	Tracks subsidies provided by Rate Support Fund and surcharges collected to fund the program.
<b>AE</b>	2010 Tax Act Memorandum Account	Resolution L-411A enable Cal Water to establish a memorandum account to track the various benefits and costs of the Tax Relief Act (signed on December 17, 2010). Tracks decreases in revenue requirement resulting from increase in its deferred tax reserve and other direct changes resulting from taking advantage of the new Tax Laws.
<b>AP</b>	General District Balancing Accounts	Tracks small sums (negative and positive) associated with a ratemaking district so that they can be aggregated, and the net amount addressed as a group when the sums grow larger.
<b>AQ</b>	East LA Memorandum Account	As part of the 2012 GRC Settlement, the Parties agreed that 50% of the Tubeway Property purchase could be included in rate base to account for the total land cost for the wells at this site. The remaining 50% (in the amount of \$3,411,313, to account for the warehouse building), and the full amount of the Phase 1 building improvements (\$1,235,313), could be tracked in the ELA MA, along with the related carrying costs (consisting of the return on investment, ad valorem taxes, and depreciation).
<b>AK</b>	2012 GRC Interim Rate Memorandum Account	Tracks the difference between interim and final rates due to delay in resolving the 2012 GRC (Test Years 2014-2016).
<b>(none)</b>	Old Interim Rates Surcharges	Cal Water implemented "interim rate surcharges" to effectuate the transition from one Cal Water rate case per year, to a consolidated rate case that started with the 2009 GRC. The delay in the GRCs for one group of districts was handled by allowing a surcharge for those districts for a set time period. The residual amounts from those amortizations are not part of a formally authorized memo or balancing account, but were authorized for a second amortization period in D.16-12-042, Exhibit A (Settlement) at 64. See also A.15-07-015, General Report at 36-37.
<b>(none)</b>	American Job Creation Act (AJCA) true-up tax deduction	Decision 06-08-011(OP11) For each of the eight districts in the 2005 GRC, Cal Water shall collect subject to refund the amount of its adopted revenue requirement that results from the computational assumption that the American Jobs Creation Act of 2004 does not apply, until an order finally establishing in a future proceeding the actual tax benefit, if any, conveyed to Cal Water under the Act. Cal Water shall report the amount so collected and the status of its tax liability under the Act in each GRC for these districts until the Commission has made a final determination. Cal Water will refund tax benefit received for production activity credit 2006-2009.

**4. General Balancing Account**

The purpose of the "general balancing account" for each district or region is to track small dollar amounts left over after other accounts (for a specific purpose) have been amortized. The amounts are collected in each general balancing account, and then the total balance is amortized.

As of May 31, 2018, the amounts in the general balancing account for each area below totaled \$6,876,000. In December 2020 (Decision 20-12-007), the Commission authorized Cal Water to recover these balances through surcharges.

For metered customers, a surcharge (per 100 Cubic Feet, or CCF) will be applied based on water usage. For flat rate customers, a fixed surcharge per month will be applied to each service. These surcharges are in effect for a period of 12 months (April 15, 2021 – April 14, 2022).
