

PUBLIC UTILITIES COMMISSION

505 VAN NESS AVENUE

SAN FRANCISCO, CA 94102-3298

January 31, 2022

Natalie Wales
 Director, Regulatory Policy & Compliance
 California Water Service Co.
 1720 North First Street
 San Jose, CA 95112

Dear Ms. Wales,

The Water Division of the California Public Utilities Commission has approved California Water Service Company's Advice Letter No. 2433, filed on November 15, 2021, regarding 2022 Escalation Increases and Sales Reconciliation Mechanism (SRM) Adjustments for Bay Area Region, Bakersfield, Bear Gulch, Chico, Dixon, Dominguez, East Los Angeles, Hermosa Redondo, Kern River Valley, Livermore, Los Altos, Los Angeles County Region, Marysville, Oroville, Salinas Valley Region, Selma, Stockton, Visalia, Westlake, and Willows Districts (all Class A ratemaking areas except Travis and Millerton).

Enclosed are copies of the following revised tariff sheets, effective January 1, 2022, for the utility's files:

P.U.C. Sheet	
No.	Title of Sheet
12675-W	Schedule No. BAR-1-R, Residential Metered Service (p. 1)

CALIFORNIA WATER SERVICE COMPANY
1720 NORTH FIRST STREET
SAN JOSE, CA 95112 • (408) 367-8200 • F (408) 367-8428

November 15, 2021

Advice Letter No. 2433

To The Public Utilities Commission of the State of California:

California Water Service Company (Cal Water) hereby transmits for filing the changes in its tariff schedules shown on **Attachment 1** for all districts listed below.

Summary

This advice letter requests rate changes for all Cal Water's Class A ratemaking areas, except the Travis and Millerton Districts that reflect both escalation and Sales Adjustment Mechanism (SRM) changes, as appropriate.

Escalation: Cal Water requests revenue increases that were approved in Decision (D.) 20-12-007 for Attrition Year 2022 in the following areas: **Bay Area Region, Bakersfield, Bear Gulch, Chico, Dixon, Dominguez, East Los Angeles, Hermosa Redondo, Kern River Valley, Livermore, Los Altos, Los Angeles County Region (with separate tariffs for Antelope Valley and Palos Verdes), Marysville, Oroville, Salinas Valley Region (formerly Monterey Region), Stockton, Visalia, Westlake, and Willows.**

SRM: In addition, recent consumption patterns in some areas have triggered the SRM. The water sales assumptions that underpin rates have therefore been adjusted in accordance with the SRM in the following areas: **Bay Area Region, Dominguez, East Los Angeles, Kern River Valley, Los Angeles County Region (with separate tariffs for Antelope Valley and Palos Verdes), Selma, and Stockton.**

Cal Water is requesting an effective date of **January 1, 2022** for these rate increases.

Background

The Commission adopted the following Ordering Paragraphs in D.20-12-007:

6. For escalation years 2021 and 2022, California Water Service Company shall file Tier 1 advice letters, in conformance with General Order 96-B and the Revised Water Rate Case Plan (Decision 07-05-062), proposing new revenue requirements and corresponding revised tariff schedules in each rate district and rate area in this proceeding, consistent with the adopted estimated rates for each rate area as illustrated in the attached Appendices A through X. This filing shall be subject to approval by the Commission's Water Division.

7. The advice letters shall follow the escalation procedures set forth in the Revised Rate Case Plan for Class A Water Utilities adopted in Decision 07-05-062 and shall include supporting workpapers. California Water Service Company shall file for rate reduction

due to negative rate base growth, inflation factors, or customer growth. The revised tariff schedules shall take effect on January 1, 2021 and January 1, 2022, respectively, and apply to services rendered on and after their effective dates. The proposed revised revenue requirements and rates shall be reviewed by the Commission's Water Division. The Water Division shall inform the Commission if it finds that the revised rates do not conform to the Revised Rate case Plan, this decision, or other Commission decisions, and if so, reject the filing.

In addition, D. 20-12-007 continued the Sales Adjustment Mechanism (SRM) that provides for a rate adjustment in Years 2 and 3 if the actual sales volume for a ratemaking area is lower or higher than five percent of the adopted value for that ratemaking area.

Discussion

In this advice letter, Cal Water is requesting approval to implement new rates that are consistent with the above Ordering Paragraphs of D.20-12-007 relating to revenue increases to the extent a ratemaking area has passed the earnings test. Additionally, D.20-12-007 continued the Sales Adjustment Mechanism (SRM) that provides for a rate adjustment in Years 2 and 3 if the actual sales volume for a ratemaking area is lower or higher than five percent of the adopted value for that ratemaking area.

Escalation Year 2022 Rates

The ratemaking areas in the table below have pro-forma rates of return for the twelve-month period through September 30, 2021 that make them eligible to receive an escalation increase in full or in part. The table below reflects the increased revenue requirements calculated consistent with the requirements of D.12-12-007 using inflation factors provided by the Public Advocates Office. There are no ratemaking areas that merit a rate reduction due to negative rate base growth, inflation factors, or customer growth.

Any over- or under- collection from adopted revenue requirements related to commercial quantity rates will be tracked in the WRAM balancing account and are subject to the provisions of D.08-02-036.

Commission staff has been furnished copies of the detailed work papers showing the rates of return on rate base for the current twelve-month period based upon recorded data. Pro-forma rates of return for the twelve-month period through September 30, 2021 are shown below.

2022 Escalation Increase and SRM Adjustment Request								
Summary (In \$1000s)								
Official District/Region	Last Adopted Revenue Requirement *	Net Requested Escalation Increase \$\$\$**	Requested Escalation Revenue	Requested Escalation Increase %	Requested SRM Adjustment \$\$\$	SRM Adjusted Revenue (Rate Design Only) \$\$\$	Pro-forma Rate of Return	Status

**Step Revenue Increase

Water Revenue Adjustment Mechanism and Modified Cost Balancing Account (WRAM/MCBA)

In order to properly implement the WRAM/MCBA mechanism first adopted in D.08-02-036 and continued in all subsequent GRCs, Cal Water proposes a modified Preliminary Statement M for each ratemaking area based on Rate Case Plan guidelines and reflecting the quantities and rate design proposed in this filing.

Sales Reconciliation Mechanism (SRM) Adjustments

When actual sales vary from adopted sales by more than 5%, the SRM is triggered, and rates are recalculated that reflect two changes. The SRM was triggered in the following ratemaking areas: **Bay Area Region, Dominguez, East Los Angeles, Kern River Valley, Los Angeles County Region, Selma, and Stockton.**

To recalculate rates for 2022 in accordance with the SRM, sales are first adjusted to reflect one-half of the total variation from adopted sales. Second, for the purposes of the SRM adjustment, an alternate revenue requirement is calculated that incorporates the change in production costs caused by having a change in sales.

The alternate revenue requirement is used solely to calculate the rates in this advice letter. The

revenue requirement generated from the escalation filing, which is calculated in accordance with the rate case plan, is the revenue that Cal Water is proposing that the Commission adopt. Cal Water is not requesting to adopt the alternate revenue requirement as the new revenue requirement level, or to adopt the modified production costs as new values for purposes of the Preliminary Statement M.

Rate Design Adjustments

Generally, when Cal Water files an advice letter to request a change in revenue without a change in the number of customers or consumption, Cal Water has layered the incremental change on top of existing rates. For example, if the revenue change is 2%, existing rates can be changed by 2%. In this advice letter, however, when consumption levels are changing due to the SRM, the layering method would not generate accurate rates. Cal Water is requesting to modify the rate design to recalculate rates by taking the entire revenue requirement and redistributing it based on modified consumption and customer number. While Cal Water is requesting to modify the rate design, which would change the proposed rates, Cal Water is not requesting a change to the Preliminary Statement M.

Requested Effective Date

Under General Order 96-B, Water Industry Rule 7.3.1, as modified by Resolution W-4664 this is a Tier 1 advice letter with a requested **effective date of January 1, 2022**. The effectiveness is subject to refund pending the Commission staff's determination that the filing complies with the standard practice and the proposed rate design is equitable and correctly calculated.

Notice

Customer Notice – Notices of the surcharges and credits in this advice letter will be provided as a bill message on the first bill to impacted customers.

Service List – In accordance with General Order 96-B, General Rule 4.3 and 7.2 and Water Industry Rule 4.1, a copy of this advice letter will be transmitted **electronically on November 15, 2021**, to competing and adjacent utilities and other utilities or interested parties having requested such notification, including the Local Agency Formation Commission (LAFCO). ***Please note that, due to limitations on non-essential travel as a result of the COVID-19 virus, this advice letter will only be distributed electronically.***

Response or Protest

Anyone may respond to or protest this advice letter. A response supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

- (1) The utility did not properly serve or give notice of the advice letter;

- (2) The relief requested in the advice letter would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
- (3) The analysis, calculations, or data in the advice letter contain material error or omissions;
- (4) The relief requested in the advice letter is pending before the Commission in a formal proceeding; or
- (5) The relief requested in the advice letter requires consideration in a formal hearing, or is otherwise inappropriate for the advice letter process; or
- (6) The relief requested in the advice letter is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the Commission.)

A protest shall provide citations or proofs where available to allow staff to properly consider the protest. A response or protest must be made in writing or by electronic mail and must be received by the Water Division within 20 days of the date this advice letter is filed. The advice letter process does not provide for any responses, protests or comments, except for the utility's reply, after the 20-day comment period. The address for mailing or delivering a protest is:

Tariff Unit, Water Division, 3rd floor
California Public Utilities Commission,
505 Van Ness Avenue, San Francisco, CA 94102
water.division@cpuc.ca.gov

On the same date the response or protest is submitted to the Water Division, the respondent or protestant shall send a copy by mail (or e-mail) to us, addressed to:

Natalie Wales
California Water Service Company
1720 North First Street,
San Jose, California 95112
Fax 408-367-8430 or
E-mail cwsrates@calwater.com

Cities and counties that need Board of Supervisors or Board of Commissioners approval to protest should inform the Water Division, within the 20-day protest period, so that a late filed protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on.

Replies

The utility shall reply to each protest and may reply to any response. Each reply must be received by the Water Division within 5 business days after the end of the protest period, and shall be served on the same day to the person who filed the protest or response. If you have not received

CALIFORNIA WATER SERVICE COMPANY

Advice Letter 2433, 2022 Escalation Increases and SRM Adjustments

Page 7

a reply to your protest within 10 business days, contact California Water Service Company at 408/367-8200.

RECYCLED METERED SERVICE

Page 1

APPLICABILITY

Applicable to all recycled water customers that have signed a contract with the West Basin Municipal Water District (West Basin) for repayment of the conversion costs from potable to recycled water service will be charged the potable quantity rates while the contract is in effect. The Company will pay West Basin a percentage of the quantity rate revenues collected from recycled water customers billed at potable water rates. The percentage refunded represents the difference between the current West Basin wholesale potable water rate and the wholesale recycled water rate.

For	10 - inch meter	\$3,385.60	
For	12 - inch meter	\$4,857.60	
For	14 - inch meter	\$6,624.00	(I)

The service charge is a readiness-to-serve charge which is applicable to all metered service and to which is added the charge for water used computed at the quantity rates.

SPECIAL CONDITIONS

- Any designated reclaimed water customer who refuses reclaimed service shall be subject to an additional charge equivalent to 50% of the current Calleguas Municipal Water District (CMWD) potable water rate. This charge was instituted by Ordinance No. 17 of the CMWD on July 15, 1994, which calculates to \$1.5391/CCF.
