## **Advice Letter No. 2539**

To the California Public Utilities Commission:

California Water Service Company (“Cal Water”) respectfully submits this Tier 1 advice letter (“AL”) requesting approval to implement the tariff changes listed below applicable to all Class A service areas except Travis. The Travis rate schedule incorporating the relevant changes will be filed in a separate advice letter. ***Please note that this advice letter will only be distributed electronically to the Water Division and the attached service lists.***

<u>New/Revised CPUC Sheet No.</u>	<u>Title of Sheet</u>	<u>Schedule No.</u>	<u>Cancelling CPUC Sheet No.</u>
---------------------------------------	-----------------------	---------------------	--------------------------------------

**See Attachment 1**

### **Summary**

Cal Water requests authority to implement the attached proposed rates that reflect attrition year increases (as appropriate), revenue adjustments for 2025 sales and services, and the revenue impacts of two previously-filed advice letters – AL 2535 for water production cost offsets (‘Pending for Approval’) and AL 2536 for rate base offsets (‘Pending for approval’) filed for used and useful projects previously authorized in Cal Water’s 2018 General Rate Case (“GRC”) Decision (D.20-12-007) and Cal Water’s 2021 GRC Decision (D. 24-03-042).

In ALs 2535 and 2536, which are still under review by the Water Division, Cal Water requested an effective date of January 1, 2025, which coincides with the proposed effective date of this advice letter. Implementing the rate changes in these advice letters at the same time will help avoid customer confusion and frustration.

The tariffs attached to this advice letter accordingly reflect all the revenue, sales, and service changes proposed in the advice letters discussed above for a proposed effective date of January 1, 2025.

### **Background**

On March 7, 2024, the Commission issued D.24-03-042 resolving Cal Water’s 2021 GRC. The Commission adopted the following Ordering Paragraphs in D.24-03-042:

2. The Joint Motion of California Water Service Company and the Public Advocates Office to adopt an Amended Partial Settlement Agreement is approved, and the Amended Partial Settlement Agreement between California Water Service Company and the Public Advocates Office at the California Public Utilities Commission (Settlement Agreement) is adopted and

attached to this decision as Appendix 1. The parties are bound by, and the adopted rate recovery is set by, the terms of the complete Settlement Agreement.<sup>1</sup>

32. We adopt the post-test year ratemaking mechanisms, estimated rates, and forecasted sales for each rate district and rate area for California Water Service Company, as illustrated in Appendices A through Z attached hereto and reflecting all terms of the Settlement Agreement and this decision.

33. For escalation year 2025, California Water Service Company shall file Tier 1 advice letters, in conformance with General Order 96-B and Revised Water Rate Case Plan (Decision 05-05-062), proposing new revenue requirements and corresponding revised tariff schedules in each rate district and rate area in this proceeding, and in conformance with the Settlement agreement and adopted estimated rates for each rate area as illustrated in the attached Appendices A through Z. This filing shall be subject to approval by the Commission's Water Division.

### Discussion

In this advice letter, Cal Water requests authority to implement new rates that are consistent with D.24-03-042, updating for 2025 escalation increases, adjusting revenue for 2025 sales and services, and incorporating revenue offsets previously filed with the Commission. As referenced in the Summary above, Cal Water is requesting an **effective date of January 1, 2025, for this advice letter filing.**

---

<sup>1</sup> The Settlement Agreement referenced in the Ordering Paragraphs is attached to D.24-03-042 as Appendix 1 ("Settlement"). Note that, among the parties in the case, the Settlement represents an agreement reached between Cal Water and the Public Advocates Office ("Cal Advocates").

**A. Summary of Incremental Revenue Adjustments**

The Incremental revenue adjustments shown in Table 1 are briefly summarized below. Full descriptions of the incremental revenue adjustments are provided in the following sections.

- Column C – Attrition year increases for eligible ratemaking areas (“RMAs”)<sup>3</sup>;

<sup>2</sup> Operating districts that have been consolidated into a regional ratemaking area are listed in Column A using the following acronyms: the Bayshore District (“BAY”), the Redwood Valley District (“RDV”), the Antelope Valley District (“AV”), the Palos Verdes District (“PV”), the Chico District (“CH”), the Oroville District (“ORO”), the Salinas District (“SLN”), the King City District (“KC”), the Dominguez District (“DOM”), and the Hermosa-Redondo District (“HR”).

<sup>3</sup> A ratemaking area has one revenue requirement but may have more than one set of rates or tariffs (a “set” typically being a residential tariff and a non-residential tariff, and sometimes a recycled water tariff).

- Column D – Revenue adjustments for adopted sales and services consistent with the 2021 GRC Settlement Agreement (all RMAs);
- Column E – Revenue offsets for water production requested in AL 2535 (pending approval) (8 RMAs); and
- Column F – Revenue offsets for used and useful capital projects requested in AL 2536 (still under review by the Water Division) (9 RMAs).

B. Attrition Year Rates for January 1, 2025 (Column C)

As shown in the workpapers for this advice letter, Cal Water calculated the pro-forma rate of return and performed the earnings test for each RMA consistent with Standard Practice U-34-W to determine what, if any, revenue adjustment was appropriate for the 2025 attrition year. The pro-forma rate of return was calculated using the inflation factors provided by the Public Advocates Office (“Cal Advocates”), with the exception that labor rates are based on Cal Water’s current union contract consistent with the 2021 GRC Settlement Agreement.<sup>4</sup> All RMAs are eligible for a full or partial attrition year increase except for the Kern River Valley (“KRV”) District and the Palos Verdes (“PV”) Pipeline.<sup>5</sup> However, Cal Water will file for a revenue decrease for PV Pipeline to reflect a reduction in rate base as authorized in D. 24-03-042<sup>6</sup> (corrected by D. 24-03-042). Cal Water also adjusted the 2025 pro forma income taxes for the difference in interest deduction used to calculate income taxes. Cal Water’s current rate of return (7.46%) includes lower debt ratio (1.97%) than that of the debt ratio (2.57%) included in 2021 GRC adopted rate of return (7.48%). Therefore, income tax adjustments were recalculated for all RMA using lower interest deduction (1.97% versus 2.57%).

C. Sales and Services Update for January 1, 2025 (Column D)

As shown in the 2021 GRC Settlement Agreement, different sales and services were adopted for each year for the 2023-2025 GRC period.<sup>7</sup> The workpapers reflect the use of the adopted sales and

---

Currently, there are nineteen (19) RMAs, but some operating districts within an RMA each have its own set of tariffs. For why the PV Pipeline is not a ratemaking area, see footnote 5.

<sup>4</sup> The 2021 GRC Settlement Agreement includes an Updated Undisputed Issues List identified as Settlement Attachment 3 (“Updated Undisputed Issues List”). See Updated Undisputed Issues List, Item 60 (Special Request # 15) (stating “In lieu of the CPUC’s payroll escalation rates, union wage increases will be used for escalation and attrition rates”).

<sup>5</sup> The PV Pipeline is a separate department for accounting purposes used to calculate the revenues associated with certain infrastructure costs that are intended to be collected only from PV customers (not from AV customers, who are also in the Los Angeles County Region (“LAR”) ratemaking area. While the PV Pipeline has a revenue requirement, it is not actually a ratemaking area because it has neither customers nor water systems. Using each revenue requirement, separate rates are calculated for LAR and the PV Pipeline. Then, AV customers are charged the LAR rates, and PV customers are charged the sum of the LAR and PV Pipeline rates.

services data for attrition year 2025 for each RMA, which in most cases resulted in revenue decreases due to lower water production costs.

D. Purchased Water and Pump Tax Offsets for January 1, 2025 (Column E)

In AL 2535, Cal Water requested authorization to adjust revenues associated with increased water production costs (in this case, purchased water and pump taxes) for the Bay Area Region, Bear Gulch, East Los Angeles, Los Altos, Los Angeles County Region, South Bay Region, and Westlake RMAs as applicable. In 2535, Cal Water also requested to decrease revenues associated with water production cost for the Stockton RMA. Since Cal Water requested an effective date of January 1, 2025, for AL 2535, the attached workpapers include these revenue adjustments in the final rates for respective RMAs.

E. Rate Base Offsets for January 1, 2025 (Column F)

In AL 2536, Cal Water has requested approval for revenue increases associated with 28 used and useful capital projects previously authorized by the Commission in D.20-12-007 and D.24-03-042 (corrected by D.24-04-043). Cal Water requested an effective date of January 1, 2025, for AL 2536, which is still under review by the Water Division. As such, the attached workpapers also include these revenue adjustments in the final rates for respective RMAs. If the Water Division's review of AL 2536 continues beyond the 30-day period and to a point where a January 1, 2025, effective date is no longer feasible, Cal Water will file a supplement to this advice letter to adjust rates accordingly.

F. Travis Rate Schedule:

Cal Water's Travis RMA includes a single customer, Travis Air Force Base ("TAFB"). Cal Water does not send a water bill to the TAFB for payment as it does for customers in other ratemaking areas. Instead, Cal Water requests payment of the total bill which consists of the flat monthly rate plus applicable surcharges. Cal Water proposes \$274,896.57 as the new flat monthly rate in this advice letter, however, the applicable surcharges will be submitted in separate subsequent advice letter filings. The final Travis rate schedule will incorporate updates to the monthly flat rate as proposed in this advice letter, the to-be-determined Rate Support Fund (RSF) and Customer Assistance Program (CAP) surcharges, as well as the CPUC Fee.

G. Kern River Valley Rate Design:

As adopted in D.24-03-042 and described above, Cal Water adjusts rates for post-test year sales and services. However, sales in the KRV District have been higher than adopted levels for both 2023 and 2024. Therefore, Cal Water is requesting recalculate 2025 rates using the 2024 proposed sales and services from its 2024 GRC. Doing so will increase the assumed sales from 180,068 to 216,776 ccfs, reducing the general quantity rate for all customers from \$28.6199 to \$23.7735.

**H. Typical Bill Impact:**

The table below shows the monthly bill impact to typical residential customer for the January 2025 revenue increases including attrition year steps increases, updated sales and services, purchased water/pump tax offsets, and rate base offsets for applicable districts.

**Requested Effective Date**

Under General Order 96-B, Water Industry Rule 7.3.1, as modified by Resolution W-4664 this is a Tier 1 advice letter with a requested **effective date of January 1, 2025**. The effectiveness is subject to a refund pending the Commission staff’s determination that the filing complies with the standard practice and the proposed rate design is equitable and correctly calculated.

## **Notice**

*Customer Notice* – Individual customer notice of this advice letter is not required under General Order 96-B, Water Industry Rule 7.3.1 for a Tier 1 advice letter.

*Service Lists* – In accordance with General Order 96-B, General Rule 4.3 and 7.2 and Water Industry Rule 4.1, a copy of this advice letter will be electronically transmitted on **November 15, 2024**, to competing and adjacent utilities and other utilities or interested parties having requested such notification. ***Please note that this advice letter will only be distributed electronically.***

## **Response or Protest**

Anyone may respond to or protest this advice letter. When submitting a response or protest, please include the utility name and advice letter number in the subject line. A response supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

- (1) The utility did not properly serve or give notice of the advice letter;
- (2) The relief requested in the advice letter would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
- (3) The analysis, calculations, or data in the advice letter contain material error or omissions;
- (4) The relief requested in the advice letter is pending before the Commission in a formal proceeding; or
- (5) The relief requested in the advice letter requires consideration in a formal hearing, or is otherwise inappropriate for the advice letter process; or
- (6) The relief requested in the advice letter is unjust, unreasonable, or discriminatory (provided such a protest may not be made where it would require relitigating a prior order of the Commission.)

A protest shall provide citations or proofs where available to allow staff to properly consider the protest. A response or protest must be made in writing or by electronic mail and must be received by the Water Division within 20 days of the date this advice letter is filed. The address for mailing or delivering a protest is:

Cities and counties requiring Board of Supervisors or Board of Commissioners approval to protest should inform the Water Division within the 20-day protest period so a late-filed protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on. The advice letter process does not provide for any responses, protests or comments, except for the utility's reply, after the 20-day comment period.

**Replies:** The utility shall reply to each protest and may reply to any response. Each reply must be received by the Water Division within 5 business days after the end of the protest period and shall be served on the same day to the person who filed the protest or response. If you have not received a reply to your protest within 10 business days, contact California Water Service Company at (408) 367-8200 and ask for the Rates Department.

**Schedule No. BAR-1-R**  
**Bay Area Region**  
**RESIDENTIAL METERED SERVICE**

SPECIAL CONDITIONS (continued)

4. **Fire sprinkler rate:** Any service to a residential customer not exceeding two units with a meter size that has a "fire sprinkler" rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the "fire sprinkler" rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.
  
5. **Capacity Surcharge for RDV-Coast Springs:** Monthly bills with usage greater than 2 CCF and less than or equal to 6 CCF will include a monthly surcharge of \$8.00 per CCF. Monthly bills with usage at and above 7 CCF will include a monthly capacity surcharge of \$20.00 per CCF. This results in rates for **RDV-Coast Springs** customers as follows:

		<u>RDV-Coast Springs</u>	
		Quantity Rate with Surcharge	
		Included, per CCF	
For	1 – 2 CCF	\$3.7097	(I)
For	3 – 6 CCF	\$11.7097	
For	7 - 9 CCF	\$34.7613	
For	10 - 13 CCF	\$38.4452	
For	For Over 13	\$47.6548	(I)

6. **Safe Drinking Water Surcharges:** The SDWBA (Safe Drinking Water Bond Act) and SDWSRF (Safe Drinking Water State Revolving Fund) surcharges are in addition to the water bill. This surcharge must be identified on each bill. The surcharge is specifically for the repayment of the loan authorized by the decision indicated below for each area: **RDV-Coast Springs** (D.06-04-031) and **RDV-Lucerne** (D.89-09-002).
