Subject: RE: 2010 UWMP Forecasts
Attachments: Cal Water Svc 2010.xls

Mr. Johnson,

Tom Salzano is traveling this week and is not able to respond to your request today.

I have attached the forecast tables updated with the value we have in our draft Urban Water Management Plan. These projections are based on the Senate Bill 7 (SBx7-7) requirements of achieving the estimated amount of conservation savings. Without these saving, the retail demand would be approximately 2000 AFY greater.

Also, note that the 2010 values in the tables represent actual amounts and not projected values.

Please contact us if you have any further questions.

Michael Bolzowski, PE
Water Resource Engineer

Subject: 2010 UWMP Forecasts

Good morning, Tom:

Just as you are, Calleguas is on the final lap of its UWMP process. I may be sending you a few formal comments on the Westlake District Draft UWMP. But, most urgent for us is getting the correct forecast for California Water

5/18/2011

Service in our UWMP numbers. Looking at the Westlake District draft, it appears that your forecast has changed a bit. I would appreciate it very much if you would update for us your forecast in the format we originally requested. For your convenience, the Westlake District forecast you previously provided is attached. Please update and return it today if possible. Thank you very much.

Cy Johnson

Calleguas Municipal Water District

Voice (805) 579-7129 Fax (805) 522-5730

MAILED
April 1, 2011

**NOTICE OF INTENT TO ADOPT
AN URBAN WATER MANAGEMENT PLAN
AND
HOLD A PUBLIC MEETING
TO
RECEIVE COMMENTS ON THE PROPOSED PLAN

CALIFORNIA WATER SERVICE COMPANY'S
WESTLAKE DISTRICT**

REMINDER MESSAGE

The Proposed Urban Water Management Plan is now available for review during normal business hours at the Westlake District Customer Service Center, 2524 Townsgate Road, Suite A, Westlake Village, CA 91361.

It is preferred that prior arrangements be made with the district's management for viewing the Proposed Urban Water Management Plan. These arrangements can be made by calling (805) 497-2757.

Cal Water has placed the Westlake UWMP on an FTP site, where City and County officials may access any portion of the plan for review. The site can be accessed at <http://calwater.ftptoday.com> ;

The user name is **cwsftp32** and the password is **M1cr0s0ft**.

The UWMP will be available at this FTP site on or about April 1, 2011 through June 15, 2011.

The Public Meeting to receive comments on the Proposed Urban Water Management Plan will be held on June 9, 2011, from 7:00 p.m. to 9:00 p.m., in the North Ranch Community Center, which is located at 14000 North Westlake Blvd. Westlake Village, CA 91362.

If you are unable to attend the scheduled public meeting but want to provide comments regarding the proposed UWMP, you may send your comments in writing via mail or email to:

Thomas A. Salzano, Water Resource Planning Supervisor
California Water Service Company
1720 North First Street
San Jose, CA 95112-4598
tsalzano@calwater.com

Cal Water will receive comments on the proposed UWMP from April 1, 2011 through June 15, 2011.

**NOTICE OF INTENT TO ADOPT
AN URBAN WATER MANAGEMENT PLAN
AND
HOLD A PUBLIC MEETING
TO
RECEIVE COMMENTS ON THE PROPOSED PLAN

CALIFORNIA WATER SERVICE COMPANY'S
WESTLAKE DISTRICT**

California Water Code, Part 2.6 Chapters 1 through 4 (Sections 10610 through 10656), are known and may be cited as the "Urban Water Management Planning Act."

These California Water Code sections require all urban water suppliers that provide water for municipal purposes either directly or indirectly to more than 3,000 customers or supply more than 3,000 acre-feet of water annually to prepare an Urban Water Management Plan as outlined and identified in those sections. This requirement applies to public and privately owned water utilities.

The plan must describe and evaluate sources of supply, reasonable and practical efficient uses, reclamation, and demand management activities. The components of the plan may vary according to an individual community or area's characteristics and its capabilities to efficiently use and conserve water. The plan must address measures for residential, commercial, governmental, and industrial water demand management.

The act requires urban water suppliers to update their Urban Water Management Plans at least once every five years, and to file updated plans with the Department of Water Resources, the California State Library, and any city or county served by the supplier no later than 30 days after adoption.

California Water Service Company (Cal Water) is an investor-owned public utility providing water service throughout California. In addition, Cal Water is regulated by the California Public Utilities Commission (CPUC).

One of Cal Water's service areas is the Westlake District, which is located in Ventura County. The Westlake District serves within the City of Thousand Oaks.

As a defined urban water supplier, Cal Water is preparing an update to its Urban Water Management Plan that will address the water service conditions in the Westlake District. It is Cal Water's intent to adopt that plan and file that plan as required with the Department of Water Resources, the California State Library, and any city or county within which Cal Water provides service.

A key focus of this UWMP update is the conservation requirement set forth in Senate Bill 7 (SBx7-7) as passed in November 2009. SBx7-7 mandates a statewide 20% reduction in per capita urban water use by 2020. In order to quantify the objectives and identify the means of achieving this mandated demand reduction, Cal Water has prepared a Conservation Master Plan.

Cal Water is in the process of expanding current conservation programs and developing new programs for its 24 districts. Over the next five years, Cal Water conservation program expenditures are likely to increase, due in large measure to recently adopted state policies requiring future reductions in per capita urban water use. These state policies include SBx7-7, as well as recent decisions by the California Public Utilities Commission (CPUC) directing Class A and B water utilities to adopt conservation programs and rate structures designed to achieve reductions in per capita water use, well as the *Memorandum of Understanding Regarding Urban Water Conservation in California* (MOU), of which Cal Water has been a signatory since 1991.

The Conservation Master Plan for the Westlake District will be presented to the Cities, Counties and public served by Cal Water's Westlake District in conjunction with the UWMP.

Schedule of upcoming actions:

On or about April 1, 2011, a copy of the Proposed Urban Water Management Plan and the Conservation Master Plan will be available for review during normal business hours at the Westlake District Customer Service Center, 2524 Townsgate Road, Suite A Westlake Village, CA 91361.

It is preferred that prior arrangements be made with the district's management for viewing the Proposed Urban Water Management Plan and/or the Conservation Master Plan. These arrangements can be made by calling (805) 497-2757.

As an alternative to reviewing the Proposed Urban Water Management Plan or Conservation Master Plan in Cal Water's Dominguez District Customer Service Center, Cal Water will make an electronic copy of the Proposed Urban Water Management Plan available on or about April 1, 2011.

It is Cal Water's intent to place the Westlake UWMP on an FTP site, where City and County officials may access any portion of the plan for review. The site can be accessed at <http://calwater.ftptoday.com> ;

The user name is **cwsftp32** and the password is **M1cr0s0ft**.

The UWMP will be available at this FTP site on or about April 1, 2011 through June 15, 2011.

Cal Water will receive comments on the proposed UWMP and the Conservation Master Plan from April 1, 2011 through June 15, 2011.

If there are issues with accessing the electronic copy, you may contact Michael Bolzowski at the company's headquarters at 1720 North First Street, San Jose, California 95112-4598, by calling (408) 367-8200, or by email at mbolzowski@calwater.com.

The Public Meeting to receive comments on the Proposed Urban Water Management Plan and the Conservation Master Plan will be held on June 9, 2011, from 7:00 p.m. to 9:00 p.m., in the North Ranch Community Center, which is located at 14000 North Westlake Blvd. Westlake Village, CA 91362.

If you are unable to attend the scheduled public meeting but want to provide comments regarding the proposed UWMP, you may send your comments in writing via mail to:

Thomas A. Salzano, Water Resource Planning Supervisor
California Water Service Company
1720 North First Street
San Jose, CA 95112-4598

Or by email at tsalzano@calwater.com

Comments regarding the Conservation Master Plan for Westlake should be sent to:

Kenneth G. Jenkins, Conservation Manager
California Water Service Company
2632 West 237th Street
Torrance, CA 90505

Or by email at kjenkins@calwater.com

If there were any errors in the address to which notice was sent, please send corrections to Tom Salzano at the above address so that we can update our information.

Also, please share this with others on your staff that may have the need to know.

City of Thousand Oaks
Mark Watkins, Public Works Director
2100 Thousand Oaks Boulevard
Thousand Oaks, CA 91362

Dear Mr. Watkins,

California Water Service Company (Cal Water) is in the process of preparing an update to the current Urban Water Management Plan (UWMP) for the Westlake District as a part of its 2009 Public Utilities Commission General Rate Case filing. This UWMP will serve as a long term planning document for water supply and can be an important source of information for city and county General Plans.

Cal Water will file the complete updated Plan with the Department of Water Resources in 2010. We are requesting your participation in the updating of this Plan and are seeking comments on the previous version, which was completed and sent to you in 2006.

We intend to address these comments prior to the normal review period, which occurs in the second quarter of 2009. This will facilitate preparation of the final draft of the UWMP and insure that any issues have been resolved to the satisfaction of both our organizations. Please submit your comments by September 1, 2008 so that we have adequate time to address your concerns.

If necessary we are available for a meeting to discuss these concerns or to provide clarification on the contents of the Plan.

If you do not have a copy of the 2006 Westlake District UWMP we would be happy to provide one to you. Please send any comments or questions to my attention:

All -

As discussed at Monday's purveyor meeting, a pdf file of Calleguas' Draft UWMP is available for download at <http://www.calleguas.com/CMWDDraftUWMP2010.pdf>. Again, as we hope to release the document for public review by mid-February, we would appreciate receiving any feedback from you by January 31.

Thank you.

Mr. Johnson,

Tom Salzano is traveling this week and is not able to respond to your request today.

I have attached the forecast tables updated with the value we have in our draft Urban Water Management Plan. These projections are based on the Senate Bill 7 (SBx7-7) requirements of achieving the estimated amount of conservation savings. Without these saving, the retail demand would be approximately 2000 AFY greater.

Also, note that the 2010 values in the tables represent actual amounts and not projected values.

Please contact us if you have any further questions.
