

## **Appendix J: Tariff Rule 14.1 Water Conservation and Rationing Plan, and Local Conservation Ordinances**

- Tariff Rule and Schedule 14.1
- Selma Conservation Ordinance

**Rule No. 14.1**

**WATER SHORTAGE CONTINGENCY PLAN (continued)**

(Page 1)

( T )

**A. APPLICABILITY**

( N )

1. This schedule applies to all of California Water Service's regulated ratemaking areas in California, as well as Grand Oaks Water.

**B. GENERAL INFORMATION**

1. All expenses incurred by utility to implement Rule 14.1, and Schedule 14.1, and requirements of the California State Water Resources Control Board ("Water Board") that have not been considered in a General Rate Case or other proceeding shall be accumulated by Cal Water in a separate memorandum account, authorized in Resolution W-4976, for disposition as directed or authorized from time to time by the Commission.
2. To the extent that a Stage of Mandatory Water Use Restrictions in Schedule 14.1 has been activated, and a provision in this Rule is inconsistent with the activated Stage in Schedule 14.1, the provisions of Schedule 14.1 apply.

**C. DEFINITIONS**

For the purposes of this Rule, the following terms have the meanings set forth in this section.

1. "Commercial nursery" means the use of land, buildings or structures for the growing and/or storing of flowers, fruit trees, ornamental trees, vegetable plants, shrubs, trees and similar vegetation for the purpose of transplanting, for use as stock or grafting, and includes the retail sale or wholesale distribution of such items directly from the premises/lot.
2. "Drip irrigation system" means a non-spray, low-pressure, and low volume irrigation system utilizing emission devices with a precipitation or flow rate measured in gallons per hour (GPH), designed to slowly apply small volumes of water at or near the root zone of plants or other landscaping.
3. "Flow rate" means the rate at which water flows through pipes, valves, and emission devices, measured in gallons per minute (GPM), gallons per hour (GPH), inches per hour (IPH), hundred cubic feet (Ccf), or cubic feet per second (CFS).
4. "Flow-restricting device" means valves, orifices, or other devices that reduce the flow of potable water through a service line, which are capable of passing a minimum of 3 Ccf per person, per month, based upon the U.S. Census calculation of the average number of people in a household in the area.
5. "High-efficiency sprinkler systems" means an irrigation system with emission devices, such as sprinkler heads or nozzles, with a precipitation or flow rate no greater than one IPH.
6. "Irrigation" means the application of potable water by artificial means to landscape.
7. "Irrigation system" means the components of a system meant to apply water to an area for the purpose of irrigation, including, but not limited to, piping, fittings, sprinkler heads or nozzles, drip tubing, valves, and control wiring.
8. "Landscape" means all of the outdoor planting areas, turf areas, and water features at a particular location.
9. "Measureable rainfall" means any amount of precipitation of more than one-tenth of an inch (0.1").
10. "Micro spray irrigation system" means a low-pressure, low-volume irrigation system utilizing emission devices that spray, mist, sprinkle, or drip with a precipitation or flow rate measured in GPH, designed to slowly apply small volumes of water to a specific area.

**C. DEFINITIONS (Continued)**

11. "Ornamental landscape" means shrubs, bushes, flowers, ground cover, turf, lawns, and grass planted for the purpose of improving the aesthetic appearance of property, but does not include crops or other agricultural products or special landscape areas.
12. "Ornamental turf" means a ground cover surface of grass that can be mowed and is planted for the purpose of improving the aesthetic appearance of the property, but does not include crops or other agricultural products or special landscape areas.
13. "Plumbing fixture" means a receptacle or device that is connected to a water supply system, including, but not limited to, pipes, toilets, urinals, showerheads, faucets, washing machines, water heaters, tubs, and dishwashers.
14. "Potable water" means water supplied by Cal Water which conforms to the federal and state standards for human consumption.
15. "Properly programmed" means a smart irrigation controller that has been programmed according to the manufacturer's instructions and site-specific conditions.
16. "Real-time water measurement device" means a device or system that provides regularly updated electronic information regarding the customer's water use.
17. "Runoff" means water which is not absorbed by the soil or landscape to which it is applied and flows from the landscape onto other areas.
18. "Smart irrigation controller" means an automatic device used to remotely control valves that operate an irrigation system that has been tested by an American National Standards Institute accredited third-party certifying body or laboratory in accordance with the Environmental Protection Agency's WaterSense program (or an analogous successor program), and certified by such body or laboratory as meeting the performance and efficiency requirements of such program, or the more stringent performance and efficiency requirements of another similar program.
19. "Special landscape area" means an area of the landscape dedicated solely to edible plants and areas dedicated to active play such as parks, sports fields, golf courses, and where turf provides a playing surface.
20. "Turf" means a ground cover surface of grass that can be mowed.
21. "Water feature" means a design element where open, artificially supplied water performs an aesthetic or recreation feature, including, but not limited to, ponds, lakes, waterfalls, fountains, and streams.
22. "Water use evaluation" means an evaluation of the efficiency of indoor water-using devices, including, but not limited to, measurement of flow rates for all existing showerheads, faucets, and toilets, inspection for leaks, and providing written recommendations to improve the efficiency of the indoor water-using fixtures and devices and/or an evaluation of the performance of an irrigation system, including, but not limited to, inspection for leaks, reporting of overspray or runoff, and providing written recommendations to improve the performance of the irrigation system.

Resolution No.

**Rule No. 14.1**

**WATER SHORTAGE CONTINGENCY PLAN (continued)**

(Page 3)

( T )

**D. ENFORCEMENT**

( N )

Each Stage of this Rule establishes certain restrictions on the use of potable water. Violating the restrictions set forth in a particular Stage while it is in effect is declared a non-essential, wasteful use of potable water. Subject to the schedule and conditions outlined below, Cal Water is authorized to install a flow-restricting device on the service line of any customer when its personnel verify a customer is using potable water for non-essential, wasteful uses. No person shall have any right or claim in law or in equity, against Cal Water because of, or as a result of, any matter or thing done or threatened to be done pursuant to the restrictions on using potable water for non-essential, wasteful uses.

1. FIRST VIOLATION: Cal Water shall provide the customer with a written notice of violation.
2. SECOND VIOLATION: If Cal Water verifies that the customer has used potable water for non-essential, wasteful uses after having been notified of the first violation, Cal Water shall provide the customer with a second written notice of violation and is authorized to install a flow-restricting device on the customer's service line. Cal Water shall not be held liable for any injuries, damages, and/or consequences arising from the installation of a flow restricting device.
3. NOTICES OF VIOLATION:
  - A. Written notices of violation provided to customers pursuant to this Rule shall document the verified violation and alert the customer to the fact that future violations of the restricted uses of potable water may result in the installation of a flow-restricting device on the customer's service line or the discontinuation of the customer's service.
  - B. If Cal Water elects to install a flow-restricting device on a customer's service line, the written notice of violation shall explain that a flow-restricting device has or will be installed on the customer's service line, document the steps the customer must take in order for the flow-restricting device to be removed, and explain that after the flow-restricting device is removed, it may be reinstalled, without further notice, if the customer is again verified by Cal Water's personnel to be using potable water for non-essential, wasteful uses.
4. FLOW RESTRICTING DEVICE CONDITIONS: The installation of a flow-restricting device on a customer's service line is subject to the following conditions:
  - a. The device shall be capable of providing the premise with a minimum of 3 Ccf per person, per month, based upon the U.S. Census calculation of the average number of people in a household in the area.
  - b. The device may only be removed by Cal Water, and only after a minimum three-day period has elapsed.
  - c. Any tampering with the device may result in the discontinuation of the customer's water service and the customer being charged for any damage to Cal Water's equipment or facilities and any required service visits.

Resolution No.

**Rule No. 14.1**

**WATER SHORTAGE CONTINGENCY PLAN (continued)**

(Page 4)

( T )

**D. ENFORCEMENT (Continued)**

( N )

d. After the removal of the device, if Cal Water verifies that the customer is using potable water for non-essential, wasteful uses, Cal Water may install another flow-restricting device without prior notice. This device may remain in place until water supply conditions warrant its removal. If, despite the installation of the device, Cal Water verifies that the customer is using potable water for non-essential and, unauthorized wasteful uses, then Cal Water may discontinue the customer's water service, as provided in its Rule No. 11.

5. FLOW-RESTRICTING DEVICE REMOVAL CHARGES: The charge to customers for removal of a flow-restricting device installed pursuant to this Rule is \$100 during normal business hours, and \$150 for the device to be removed outside of normal business hours.

**E. WASTEFUL USES OF WATER**

Except where necessary to address an immediate health or safety need or to comply with a term or condition in a permit issued by a state or federal agency, customers are prohibited, at all times, from using potable water for the following actions, as each is declared a non-essential, wasteful use of water:

1. Use of potable water through a broken or defective plumbing fixture or irrigation system when Cal Water has notified the customer in writing to repair the broken or defective plumbing fixture or irrigation system, and the customer has failed to effect such repairs within seven (7) business days of receipt of such notice;
2. The application of potable water to landscapes in a manner that causes runoff such that water flows onto adjacent property, non-irrigated areas, private and public walkways, roadways, parking lots, or structures;
3. The use of a hose that dispenses potable water to wash vehicles, including cars, trucks, buses, boats, aircraft, and trailers, whether motorized or not, except where the hose is fitted with a shut-off nozzle or device attached to it that causes it to cease dispensing water immediately when not in use.

**F. MANDATORY STAGED RESTRICTIONS OF WATER USE**

1. ADOPTION OF STAGED MANDATORY RESTRICTIONS: Cal Water may implement the following staged mandatory restrictions of water use, after notifying the Director of the Commission's Division of Water and Audits (DWA), by a Tier 1 advice letter in both hard-copy and emailed formats, of Cal Water's intent to implement a particular stage, if:
  - a. Water supplies are projected to be insufficient to meet normal customer demand by Cal Water; or
  - b. A water supply shortage or threatened shortage exists; or
  - c. Water supplies are curtailed by a wholesale water supplier; or
  - d. Directed to do so under a duly adopted emergency regulation by the Commission or other authorized government agencies.

**WATER SHORTAGE CONTINGENCY PLAN (continued)**

(Page 5)

**F. MANDATORY STAGED RESTRICTIONS OF WATER USE (Continued)**

2. **PUBLIC NOTICE:** Thirty (30) days prior to implementing a mandatory staged reduction in water use in this Rule, Cal Water shall notify its customer of the requirements of the particular stage implemented by Cal Water by bill insert, direct mailing, email, or bill message directing the customer to additional information on Cal Water's website.
3. **STAGE 1 WATER SHORTAGE:** A Stage 1 Water Shortage occurs when Cal Water, the Commission, a wholesale water supplier, or other authorized government agency determines that measures are needed to reduce water consumption by customers served by public water suppliers. In addition to the prohibitions outlined in **Section E**, the following restrictions may be imposed by Cal Water, except where necessary to address an immediate health or safety need or to comply with a term or condition in a permit issued by a state or federal agency:
  - a. Outdoor Irrigation Restrictions (Stage 1)
    - i. Irrigating ornamental landscapes with potable water is limited to no more than **three (3) days** per week, on a schedule established and posted by Cal Water on its website or otherwise provided to customers by bill message, bill insert, direct mail, or email, or as follows:
      1. Customers with even-numbered addresses may irrigate on Saturdays, Tuesdays, and Thursdays.
      2. Customers with odd-numbered addresses may irrigate on Sundays, Wednesdays, and Fridays.
      3. Customers without a street address may irrigate on Saturdays, Tuesdays, and Thursdays.
      4. Notwithstanding the foregoing restrictions, irrigation of special landscape areas or commercial nurseries may occur as needed, provided that the customer who wishes to irrigate a special landscape area or commercial nursery presents Cal Water with a plan to achieve water use reductions commensurate with those that would be achieved by complying with foregoing restrictions.
      5. Notwithstanding the foregoing restrictions, when a city, county, or other local public agency in one of Cal Water's service areas duly adopts restrictions on the number of days or hours of the day that customers may irrigate which are different than those adopted by Cal Water, Cal Water may enforce the city, county, or other local public agency's restrictions.
    - ii. Irrigating ornamental landscape with potable water is prohibited during the hours between **8:00 a.m. and 6:00 p.m.**
    - iii. The foregoing restrictions do **not** apply to:
      1. Landscape irrigation zones that exclusively use drip irrigation systems and/or micro spray irrigation system;

2. Irrigating ornamental landscapes with the use of a hand-held bucket or similar container, with a continuously monitored hose which is fitted with an automatic shut-off nozzle or device attached to it that causes it to cease dispensing water immediately when not in use or monitored, or for the express purpose of adjusting or repairing an irrigation system.
- b. **Obligation to Fix Leaks, Breaks or Malfunctions:** All leaks, breaks, or other malfunctions in the customer's plumbing fixture(s) or irrigation system(s) must be repaired within **five (5) business days** of written notification by Cal Water, unless other arrangements are made with Cal Water.
- c. **Prohibited Uses of Water:** Customers are prohibited from using potable water for the following actions:
  - i. The application of potable water to driveways and sidewalks;
  - ii. The use of potable water in a water feature, except where the water is part of a recirculating system;
  - iii. The application of potable water to outdoor landscapes during and within forty-eight (48) hours after measurable rainfall.
- d. Other duly adopted restrictions on the use potable water as prescribed from time to time by the Commission or other authorized government agencies are incorporated herein by reference.
4. **STAGE 2 WATER SHORTAGE:** A Stage 2 Water Shortage occurs when the Stage 1 Water Shortage restrictions are deemed insufficient to achieve identified water use goals established by Cal Water, the Commission, a wholesale water supplier, or other authorized government agency. In addition to the prohibited wasteful water use practices listed in Section D, the following restrictions may be imposed by Cal Water, except where necessary to address an immediate health or safety need or to comply with a term or condition in a permit issued by a state or federal agency. Differences from or additions to the previous Stage are underlined.
  - a. **Outdoor Irrigation Restrictions (Stage 2)**
    - i. Irrigating ornamental landscapes with potable water is limited to no more than **three (3) days** per week, on a schedule established and posted by Cal Water on its website or otherwise provided to customers by bill message, bill insert, direct mail, or email, or as follows:
      1. Customers with even-numbered addresses may irrigate on Saturdays, Tuesdays, and Thursdays.
      2. Customers with odd-numbered addresses may irrigate on Sundays, Wednesdays, and Fridays.

**G. ADOPTION OF STAGED MANDATORY WATER USE REDUCTIONS (for Schedule 14.1)**

1. ADDITION OF SCHEDULE 14.1: If, in the opinion of Cal Water, more stringent water conservation measures are required due to supply conditions or government directive, Cal Water may request the addition of a Schedule No. 14.1 – Staged Mandatory Water Use Reductions, via a Tier 2 advice letter.

- A. Cal Water may not activate Schedule No. 14.1 until it has been authorized to do so by the California Public Utilities Commission, as delegated to its Division of Water and Audits.
- B. A Schedule No. 14.1 that has been authorized by the California Public Utilities Commission shall remain dormant until triggered by specific conditions detailed in the Schedule 14.1 tariff and Cal Water has requested and received authorization for activating a stage by the California Public Utilities Commission.

**G. ADOPTION OF STAGED MANDATORY WATER USE REDUCTIONS (for Schedule 14.1) (continued)**

- c. Notice of the Tier 2 advice letter and associated public participation hearing, if required, shall be provided to customers through a bill insert or a direct mailing, as set forth in Subsection 5 (Public Notice) below.
  - d. Cal Water shall comply with all requirements of Sections 350-358 of the California Water Code.
  - e. The Tier 2 advice letter requesting the addition of a Schedule No. 14.1 shall include, but not be limited to:
    - i. A proposed Schedule No. 14.1 tariff, which shall include but not be limited to:
      - 1. Applicability,
      - 2. Territory applicable to,
      - 3. A detailed description of each stage of water budgets (the number of stages requested for a ratemaking area may vary depending on the specifics of the water shortage event),
      - 4. A detailed description of the trigger(s) that activates each stage of water budgets,
      - 5. A detailed description of each water use restriction for each stage of water budgets,
      - 6. Water use violation levels, written warning levels, associated fines, if applicable, and exception procedures,
      - 7. Conditions for installation of a flow restrictor,
      - 8. Charges for removal of flow restrictors, and
      - 9. Special conditions
    - ii. Justification for, and documentation and calculations in support of the water budgets.
2. Conditions for Activating Schedule No. 14.1: Cal Water may file a Tier 1 advice letter to request activation of a particular stage of its Schedule No. 14.1 tariff if:
- a. Cal Water, the California Public Utilities Commission, wholesale water supplier, or other government agency declares an emergency requiring mandatory water budgets, mandatory water rationing, or mandatory water allocations; or
  - b. A government agency declares a state of emergency in response to severe drought conditions, earthquake or other catastrophic event that severely reduces Cal Water's water supply; or
  - c. Cal Water is unable to achieve water conservation targets set by itself; or
  - d. Water conservation targets set by itself or a governing agency are insufficient; or
  - e. Cal Water chooses to subsequently activate a different stage of its Schedule No. 14.1 tariff.

**G. ADOPTION OF STAGED MANDATORY WATER USE REDUCTIONS (for Schedule 14.1) (continued)**

- a. Include, but not be limited to, a justification for activating the particular stage of mandatory water use reductions, as well as the period during which the particular stage will be in effect.
  - b. Be accompanied by the customer notification measures detailed in sub-section 5 (Public Notice) below.
4. De-Activating Schedule No. 14.1: When Schedule No. 14.1 is activated and Cal Water determines that water supplies are again sufficient to meet normal demands, and mandatory water use reductions are no longer necessary, Cal Water shall seek the approval of the California Public Utilities Commission, via a Tier 1 advice letter, to deactivate the particular stage of mandatory water use reductions that had been authorized.
5. Public Notice
- a. When Cal Water requests the addition of a Schedule 14.1 – Staged Mandatory Water Use Reductions Tariff, via a Tier 2 advice letter, it shall provide notice of the Tier 2 advice letter and associated public hearing provided to customers through bill inserts or direct mailing, and it shall comply with all requirements of Sections 350-358 of the California Water Code (CWC), including but not limited to the following:
    - i. In order to be in compliance with both the General Order 96-B and CWC, notice shall be provided via both newspaper and bill insert/direct mailing.
    - ii. One notice shall be provided for each advice letter filed, that includes both notice of the filing of the Tier 2 advice letter as well as the details of the public hearing (date, time, place, etc.).
    - iii. The public meeting shall be held after the Tier 2 advice letter is filed, and before the Commission authorizes the addition of Schedule 14.1 to the tariff except in cases of emergency water shortages approved by DWA.
    - iv. Cal Water shall consult with Division of Water and Audits staff prior to filing advice letter, in order to determine details of public meeting.
  - b. In the event that Schedule No. 14.1- Staged Mandatory Water Use Reductions Tariff is triggered, and Cal Water requests activation through the filing of a Tier 1 advice letter, Cal Water shall notify its customers and provide each customer with a summary of Schedule No. 14.1 by means of bill insert or direct mailing. Notification shall take place prior to imposing any penalties associated with this plan. If activation of Schedule No. 14.1 occurs one year or more since the public hearing associated with adding Schedule 14.1 to its tariffs, then Cal Water shall conduct a public hearing pursuant to California Water Code Section 351 prior to activating a stage of its Mandatory Water Use Reduction Tariff.
  - c. During the period that a stage of Schedule No. 14.1 is activated, Cal Water shall provide customers with updates in at least every other bill, regarding its water supply status and the results of customers' conservation efforts.

May 27, 2015

**Advice Letter No. 2168-A**

**CALIFORNIA WATER SERVICE COMPANY (U 60 W)**

To The Public Utilities Commission of the State of California:

California Water Service Company ("Cal Water") hereby transmits for filing the following changes in its tariffs:

New/Revised C.P.U.C. Sheet No.	Title of Sheet	Schedule No.	Cancelling C.P.U.C. Sheet No.
xxxxx-W	Schedule No. 14.1 (Pages 1 – 14)	Not Applicable	xxxxx-W
xxxxx-W	Table of Contents (Page 1)	Not Applicable	xxxxx-W
xxxxx-W	Table of Contents (Page2)	Not Applicable	xxxxx-W

**Summary**

Via this Tier 2 advice letter, Cal Water requests Commission approval to add Schedule 14.1, which contains the Staged Mandatory Reductions and Drought Surcharges associated with its Water Shortage Contingency Plan. This filing is consistent with Resolution W-5034, adopted by the Commission on April 9, 2015, ordering compliance with requirements of the State Water Resources Control Board. Cal Water requests an effective date of **June 1, 2015**.

**This supplement to AL 2168 makes several changes to the language in the originally-proposed Schedule 14.1, some of which correct typographical and formatting errors, and some of which are substantive, as discussed below.**

**Background**

The Division of Water and Audits, with input from interested parties, substantially modified the sample Rule 14.1 originally provided in the July 2007 SP U-40 document. The result – "Example Rule 14.1" – is now contained in the Drought Procedures adopted in Res. W-4976.

## CALIFORNIA WATER SERVICE COMPANY

Advice Letter 2168-A – Addition of Schedule 14.1 – Drought Surcharges

Page 2

In Advice Letter 1881, Cal Water sought, and the Commission approved, a proposed Rule 14.1 that was based upon the sample Rule 14.1 in Standard Practice U-40-W (“SP U-40”), dated July 2007. Cal Water’s Rule 14.1 became effective on September 15, 2008.

On February 27, 2014, the Commission adopted Drought Procedures in Resolution No. (“Res.”) W-4976. Appendix B to those Drought Procedures contains an “Example of Rule 14.1” that modifies the sample Rule 14.1 in the July 2007 version of SP U-40. For Class A and B water companies like Cal Water that have an existing Rule 14.1, Ordering Paragraph (“OP”) 2 of Res. W-4976 requires the submission of a letter notifying the Division of Water & Audits (“DWA”) that the companies are activating their Tariff Rule 14.1 to call for a 20% voluntary reduction in water use. Cal Water submitted that notification to DWA on March 28, 2014.

### **Discussion**

In Resolution W-5034, the Commission articulated the steps that its regulated water utilities should take to comply with the mandatory use restrictions and penalties for violations established by the State Water Resources Control Board (“Water Board”). As required by that resolution, Cal Water submits the attached proposed Schedule 14.1.

In addition, Cal Water has been holding the public hearings required by California Water Code Sections 350 *et seq.* as follows:

District/Service Area	In May	Time	Location
Los Altos	11 Mon	6 p.m.	Covington School 201 Covington Road, Los Altos, CA 94024

**This supplement corrects several typographical and formatting errors. In addition, in response to concerns expressed by customers, this supplement makes the following substantive changes to the Schedule 14.1 originally proposed in AL 2168, changes that are mirrored in the supplement to AL 2167 also being submitted today:**

## **CALIFORNIA WATER SERVICE COMPANY**

Advice Letter 2168-A – Addition of Schedule 14.1 – Drought Surcharges

Page 4

- Adding a definition for “ornamental lawns” and modifying related water use restrictions.
- Eliminating the water use prohibition on the filling and re-filling of single-family, residential swimming pools.
- Modifying the advice letter to activate stages from Tier 1 to Tier 2.
- Adding specific details relating to the appeals procedures, banking procedures, water budgets, and drought surcharges.

### **Tier Designation**

Pursuant to Resolutions W-4976 and W-5034, Cal Water submits this as a Tier 2 advice letter.

### **Requested Effective Date**

Cal Water requests that this advice letter become effective on **June 1, 2015**.

### **Notice**

*Customer Notice* – Cal Water is providing customer notice of this Tier 2 filing via a bill message, a bill insert, or separate mailing.

*Service Lists* – In accordance with General Order 96-B, General Rule 4.3 and 7.2 and Water Industry Rule 4.1, a copy of this **supplement** will be mailed or electronically transmitted on **May 27, 2015**, to competing and adjacent utilities and other utilities or interested parties having requested such notification.

### **Response or Protest**

Anyone may respond to or protest this advice letter. A response supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

- (1) The utility did not properly serve or give notice of the advice letter;
- (2) The relief requested in the advice letter would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
- (3) The analysis, calculations, or data in the advice letter contain material error or omissions;
- (4) The relief requested in the advice letter is pending before the Commission in a formal proceeding; or

**CALIFORNIA WATER SERVICE COMPANY**

Advice Letter 2168-A – Addition of Schedule 14.1 – Drought Surcharges

Page 5

- (5) The relief requested in the advice letter requires consideration in a formal hearing, or is otherwise inappropriate for the advice letter process; or
- (6) The relief requested in the advice letter is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the Commission.)

A protest shall provide citations or proofs where available to allow staff to properly consider the protest. A response or protest must be made in writing or by electronic mail and must be received by the Division of Water and Audits within 20 days of the date this advice letter is filed. The advice letter process does not provide for any responses, protests or comments, except for the utility's reply, after the 20-day comment period. The address for mailing or delivering a protest is:

Tariff Unit, Division of Water and Audits, 3<sup>rd</sup> floor  
California Public Utilities Commission,  
505 Van Ness Avenue, San Francisco, CA 94102  
[water\\_division@cpuc.ca.gov](mailto:water_division@cpuc.ca.gov)

On the same date the response or protest is submitted to the Division of Water and Audits, the respondent or protestant shall send a copy by mail (or e-mail) to us, addressed to:

Darin Duncan  
California Water Service Company  
1720 North First Street,  
San Jose, California 95112  
Fax 408/367-8430 or  
E-mail [dduncan@calwater.com](mailto:dduncan@calwater.com)

Cities and counties that need Board of Supervisors or Board of Commissioners approval to protest should inform the Division of Water and Audits, within the 20-day protest period, so that a late filed protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on.

**Replies**

The utility shall reply to each protest and may reply to any response. Each reply must be received by the Division of Water and Audits within 5 business days after the end of the protest period, and shall be served on the same day to the person who filed the protest or response. If you have not received a reply to your protest within 10 business days, contact California Water Service Company at 408/367-8200.

**Schedule No. 14.1**

( N )

**WATER SHORTAGE CONTINGENCY PLAN**

**WITH STAGED MANDATORY REDUCTIONS AND DROUGHT SURCHARGES**

Page 1

**A. APPLICABILITY**

1. This schedule applies to all of California Water Service's regulated ratemaking areas in California, as well as Grand Oaks Water.

**B. GENERAL INFORMATION**

1. All expenses incurred by utility to implement Rule 14.1, and Schedule 14.1, and requirements of the California State Water Resources Control Board ("Water Board") that have not been considered in a General Rate Case or other proceeding shall be accumulated by Cal Water in a separate memorandum account, authorized in Resolution W-4976, for disposition as directed or authorized from time to time by the Commission.
2. All monies collected by Cal Water through waste of water penalties established in this schedule shall be recorded in the appropriate memorandum account and used to offset the expenses described in Section 1 above.
3. Except in the case of Grand Oaks, all monies collected by Cal Water through drought surcharges, as established by the Mandatory Water Budgets found in Schedule 14.1, shall be recorded in the appropriate Water Revenue Adjustment Mechanism ("WRAM") account and used to offset under-collected revenues.
4. To the extent that any provision in this Schedule is inconsistent with Rule 14.1, the provisions of this Schedule apply.
5. A customer may request installation of a real-time water measurement device on the customer's service line. The cost of the device, including installation and ongoing operating costs, shall be billed to the customer, and nonpayment may result in discontinuance of service.
6. On April 1, 2015, the Governor of the State of California issued Executive Order B-29-15 due to severe drought conditions. The Executive Order, among other requirements, directs the State Water Resources Control Board ("Water Board") to impose restrictions on urban water suppliers like Cal Water to achieve a statewide 25% reduction in potable urban usage, as compared with the amount used in 2013, through February 2016.
  - A. The restrictions must take into consideration the relative per capita water usage of each water supplier's service area such that those with high per capital use are required to achieve proportionally greater reductions than those with less use.
  - B. Urban water suppliers must develop rate structures and other pricing mechanisms, such as surcharges and penalties, to achieve 25% water conservation.
7. On May 5, 2015, the Water Board issued an Emergency Regulation by Resolution No. 2015-0032 due to continuing drought conditions with specific water use reductions, by service area, and prohibitions on how end-use customers can use potable water. On May 7, 2015, the California Public Utilities Commission ("Commission") issued Resolution W-5041 ordering compliance with the mandates of the Governor and the Water Board.

**C. DEFINITIONS**

For the purposes of this Schedule, the following terms have the meanings set forth in this section.  
(These are the same as in Rule 14.1, unless otherwise specified.)

1. "Commercial nursery" means the use of land, buildings or structures for the growing and/or storing of flowers, fruit trees, ornamental trees, vegetable plants, shrubs, trees and similar vegetation for the purpose of transplanting, for use as stock or grafting, and includes the retail sale or wholesale distribution of such items directly from the premises/lot.

Page 2

**C. DEFINITIONS (Continued)**

2. "Drip irrigation system" means a non-spray, low-pressure, and low volume irrigation system utilizing emission devices with a precipitation or flow rate measured in gallons per hour (GPH), designed to slowly apply small volumes of water at or near the root zone of plants or other landscaping.
3. "Flow rate" means the rate at which water flows through pipes, valves, and emission devices, measured in gallons per minute (GPM), gallons per hour (GPH), inches per hour (IPH), hundred cubic feet (Ccf), or cubic feet per second (CFS).
4. "Flow-restricting device" means valves, orifices, or other devices that reduce the flow of potable water through a service line, which are capable of passing a minimum of 3 Ccf per person, per month, based upon the U.S. Census calculation of the average number of people in a household in the area.
5. "High-efficiency sprinkler systems" means an irrigation system with emission devices, such as sprinkler heads or nozzles, with a precipitation or flow rate no greater than one IPH.
6. "Irrigation" means the application of potable water by artificial means to landscape.
7. "Irrigation system" means the components of a system meant to apply water to an area for the purpose of irrigation, including, but not limited to, piping, fittings, sprinkler heads or nozzles, drip tubing, valves, and control wiring.
8. "Landscape" means all of the outdoor planting areas, turf areas, and water features at a particular location.
9. "Measureable rainfall" means any amount of precipitation of more than one-tenth of an inch (0.1").
10. "Micro spray irrigation system" means a low-pressure, low-volume irrigation system utilizing emission devices that spray, mist, sprinkle, or drip with a precipitation or flow rate measured in GPH, designed to slowly apply small volumes of water to a specific area.
11. "Ornamental landscape" means shrubs, bushes, flowers, ground cover, turf, lawns, and grass planted for the purpose of improving the aesthetic appearance of property, but does not include crops or other agricultural products or special landscape areas.
12. "Ornamental turf" means a ground cover surface of grass that can be mowed and is planted for the purpose of improving the aesthetic appearance of the property, but does not include crops or other agricultural products or special landscape areas.
13. "Plumbing fixture" means a receptacle or device that is connected to a water supply system, including, but not limited to, pipes, toilets, urinals, showerheads, faucets, washing machines, water heaters, tubs, and dishwashers.
14. "Potable water" means water supplied by Cal Water which conforms to the federal and state standards for human consumption.
15. "Properly programmed" means a smart irrigation controller that has been programmed according to the manufacturer's instructions and site-specific conditions.
16. "Real-time water measurement device" means a device or system that provides regularly updated electronic information regarding the customer's water use.
17. "Runoff" means water which is not absorbed by the soil or landscape to which it is applied and flows from the landscape onto other areas.
18. "Smart irrigation controller" means an automatic device used to remotely control valves that operate an irrigation system that has been tested by an American National Standards Institute accredited third-party certifying body or

laboratory in accordance with the Environmental Protection Agency's WaterSense program (or an analogous successor program), and certified by such body or laboratory as meeting the performance and efficiency requirements of such program, or the more stringent performance and efficiency requirements of another similar program.

19. "Special landscape area" means an area of the landscape dedicated solely to edible plants and areas dedicated to active play such as parks, sports fields, golf courses, and where turf provides a playing surface.
20. "Turf" means a ground cover surface of grass that can be mowed.
21. "Water feature" means a design element where open, artificially supplied water performs an aesthetic or recreation feature, including, but not limited to, ponds, lakes, waterfalls, fountains, and streams.
22. "Water use evaluation" means an evaluation of the efficiency of indoor water-using devices, including, but not limited to, measurement of flow rates for all existing showerheads, faucets, and toilets, inspection for leaks, and providing written recommendations to improve the efficiency of the indoor water-using fixtures and devices and/or an evaluation of the performance of an irrigation system, including, but not limited to, inspection for leaks, reporting of overspray or runoff, and providing written recommendations to improve the performance of the irrigation system.

**D. WASTE OF WATER PENALTIES**

Each Stage of this Schedule establishes certain restrictions on the use of potable water. essential, wasteful use of potable water. Cal Water is authorized to take the following actions when its personnel verify a customer is using potable water for non-essential, wasteful uses. No person shall have any right or claim in law or in equity, against Cal Water because of, or as a result of, any matter or thing done or threatened to be done pursuant to the restrictions on using potable water for non-essential, wasteful uses.

Note: When a Stage in this Schedule has been activated, Section D in this Schedule supersedes Section D (Enforcement) in Rule 14.1.

1. **FIRST VIOLATION**: Cal Water shall provide the customer with a written notice of violation. In addition, Cal Water is authorized to take the following actions:
  - A. If the customer currently receives service through a metered connection, install a real-time water measurement device on the customer's service line and provide the customer with access to information from the device. The cost of the device, including installation and ongoing operating costs, shall be billed to the customer, and nonpayment may result in discontinuance of service.
  - B. If the customer does not currently receive service through a metered connection, install a water meter on the customer's service line, charge the customer for water use pursuant to Cal Water's metered service tariffs and rules, and install a real-time water measurement device on the customer's service line and provide the customer with access to information from the device. The cost of the device, including installation and ongoing operating costs, shall be billed to the customer, and nonpayment may result in discontinuance of service.
2. **SECOND VIOLATION**: If Cal Water verifies that the customer has used potable water for non-essential, wasteful uses after having been notified of the first violation, Cal Water shall provide the customer with a second written notice of violation. In addition to the actions prescribed under the first violation above, Cal Water is authorized to take the following actions:
  - A. Apply the following waste of water penalties, which are in addition to any other charges authorized by this Schedule or other Cal Water tariffs.
    - i. If Stage 1 is in effect, \$25 (Stage 1 is detailed below in Section E).
    - ii. If Stage 2 is in effect, \$50 (Stage 2 is detailed below in Section F).

**D. WASTE OF WATER PENALTIES (Continued)**

- iii. If Stage 3 is in effect, \$100 (Stage 3 is detailed below in Section G).
- iv. If Stage 4 is in effect, \$200 (Stage 4 is detailed below in Section H).
- B. At its sole discretion, waive the waste of water penalty if the customer participates in a water use evaluation provided by Cal Water and/or provides documentation to Cal Water proving that a drip irrigation system, micro spray irrigation system, high-efficiency sprinkler system, or properly programmed smart irrigator controller has been installed, after a notice of violation was delivered, and is in use at the customer's service address.
- 3. **THIRD VIOLATION:** If Cal Water verifies that the customer has used potable water for non-essential, wasteful uses after having been notified of the second violation, Cal Water shall provide the first and second violations above, Cal Water is authorized to take the following actions:
  - A. Apply the following waste of water penalties, which are in addition to any other charges authorized by this Schedule or other Cal Water tariffs.
    - i. If Stage 1 is in effect, \$50 (Stage 1 is detailed below in Section E).
    - ii. If Stage 2 is in effect, \$100 (Stage 2 is detailed below in Section F).
    - iii. If Stage 3 is in effect, \$200 (Stage 3 is detailed below in Section G).
    - iv. If Stage 4 is in effect, \$400 (Stage 4 is detailed below in Section H).
  - B. At its sole discretion, waive the waste of water surcharge if the customer participates in a water use evaluation provided by Cal Water and/or provides documentation to Cal Water proving that a drip irrigation system, micro spray irrigation system, high-efficiency sprinkler system, or properly programmed smart irrigation controller has been installed, after notice of violations have been delivered, and is in use at the customer's service address.
- 4. **FOURTH VIOLATION:** If Cal Water verifies that the customer has used potable water for non-essential, wasteful uses after having been notified of the third violation, Cal Water shall provide the customer with a fourth written notice of violation. In addition to actions set forth in previous violations prescribed above, Cal Water is authorized to install a flow-restricting device on the customer's service line. Cal Water shall not be held liable for any injuries, damages, and/or consequences arising from the installation of a flow restricting device.
- 5. **EGREGIOUS VIOLATIONS:** Notwithstanding the foregoing framework for penalties, customers who Cal Water has verified are egregiously using potable water for non-essential, wasteful uses are subject to having a flow-restricting device installed on their service line. After providing the customer with one notice of egregious violation, either by direct mail or door hanger, which documents the egregious use of potable water for non-essential, wasteful uses and explains that failure to correct the violation may result in the installation of a flow-restricting device on the customer's service line, Cal Water is authorized to install a flow-restricting device on the customer's service line. Cal Water shall not be held liable for any injuries, damages, and/or consequences arising from the installation of a flow restricting device.
- 6. **NOTICES OF VIOLATION:**
  - A. Unless otherwise specified, written notices of violation provided to customers pursuant to this Schedule shall document the verified violation and alert the customer to the fact that future violations of the restricted uses of potable water may result in a real-time water management device being installed on the customer's service line at the customers expense, waste of water surcharges being applied to the customer's bill, the installation of a flow-restricting device on the customer's service line, or the discontinuation of the customer's service.

**WITH STAGED MANDATORY REDUCTIONS AND DROUGHT SURCHARGES (continued)**

Page 5

**D. WASTE OF WATER PENALTIES (Continued)**

- B. If Cal Water elects to install a flow-restricting device on a customer's service line, the written notice service line, shall document the steps the customer must take in order for the flow-restricting device to be removed, and shall explain that after the flow-restricting device is removed, it may be reinstalled, without further notice, if the customer is again verified by Cal Water to be using potable water for non-essential, wasteful uses.
7. **FLOW RESTRICTING DEVICE CONDITIONS:** The installation of a flow-restricting device on a customer's service line is subject to the following conditions:
- A. The device shall be capable of providing the premise with a minimum of 3 Ccf per person, per month, based upon the U.S. Census calculation of the average number of people in a household in the area.
- B. The device may only be removed by Cal Water, and only after a minimum three-day period has elapsed.
- C. Any tampering with the device may result in the discontinuation of the customer's water service and the customer being charged for any damage to Cal Water's equipment or facilities and any required service visits.
- D. After the removal of the device, if Cal Water verifies that the customer is using potable water for non-essential, wasteful uses, Cal Water may install another flow-restricting device without prior notice. This device shall remain in place until water supply conditions warrant its removal. If, despite the installation of the device, Cal Water verifies that the customer is using potable water for non-essential and, unauthorized wasteful uses, then Cal Water may discontinue the customer's water service, as provided in its Rule No. 11.
8. **FLOW-RESTRICTING DEVICE REMOVAL CHARGES:** The charge to customers for removal of a flow-restricting device installed pursuant to this Schedule is \$100 during normal business hours, and \$150 for the device to be removed outside of normal business hours.

**E. STAGE ONE WATER USE RESTRICTIONS**

**1. WASTEFUL USES OF WATER (STAGE 1)**

The following restrictions may be imposed by Cal Water, except where necessary to address an immediate health or safety need, or to comply with a term or condition in a permit issued by a state or federal agency:

**A. Outdoor Irrigation Restrictions (Stage 1)**

- i. Irrigating ornamental landscapes with potable water is limited to no more than **three (3) days per week**, on a schedule established and posted by Cal Water on its website or otherwise provided to customers by bill message, bill insert, direct mail, or email, or as follows:
1. Customers with even-numbered addresses may irrigate on Saturdays, Tuesdays, and Thursdays.
  2. Customers with odd-numbered addresses may irrigate on Sundays, Wednesdays, and Fridays.
  3. Customers without a street address may irrigate on Saturdays, Tuesdays, and Thursdays.

**WATER SHORTAGE CONTINGENCY PLAN**  
**WITH STAGED MANDATORY REDUCTIONS AND DROUGHT SURCHARGES (continued)**

Page 6

**E. STAGE ONE WATER USE RESTRICTIONS (Continued)**

4. Notwithstanding the foregoing restrictions, irrigation of special landscape areas or commercial nurseries landscape area or may occur as needed, provided that the customer who wishes to irrigate a special commercial nursery presents Cal Water with a plan to achieve water use reductions commensurate with those that would be achieved by complying with foregoing restrictions.
5. Notwithstanding the foregoing restrictions, when a city, county, or other local public agency in one of Cal Water's service areas duly adopts restrictions on the number of days or hours of the day that customers may irrigate that are different than those adopted by Cal Water, Cal Water may enforce the city, county, or other local public agency's restrictions.
- ii. Irrigating ornamental landscape with potable water is prohibited during the hours between **8:00 a.m. and 6:00 p.m.**
- iii. The foregoing restrictions do **not** apply to:
  1. Landscape irrigation zones that exclusively use drip irrigation systems and/or micro spray irrigation system;
  2. Irrigating ornamental landscapes with the use of a hand-held bucket or similar container, with a continuously monitored hose which is fitted with an automatic shut-off nozzle or device attached to it that causes it to cease dispensing water immediately when not in use or monitored, or for the express purpose of adjusting or repairing an irrigation system.
- B. Obligation to Fix Leaks, Breaks or Malfunctions: All leaks, breaks, or other malfunctions in the customer's plumbing fixtures and/or irrigation system must be repaired within **five (5) business days** of written notification by Cal Water, unless other arrangements are made with Cal Water.
- C. Prohibited Uses of Water: Customers are prohibited from using potable water for the following actions:
  - i. The application of potable water to landscapes in a manner that causes runoff such that water flows onto adjacent property, non-irrigated areas, private and public walkways, roadways, parking lots, or structures;
  - ii. The use of a hose that dispenses potable water to wash vehicles, including cars, trucks, buses, shut-off nozzle or device attached to it that causes it to cease dispensing water immediately when not in use.
  - iii. The application of potable water to driveways and sidewalks;
  - iv. The use of potable water in a water feature, except where the water is part of a recirculating system;
  - v. The application of potable water to outdoor landscapes during and within forty-eight (48) hours after measurable rainfall (see Definitions);
  - vi. The serving of drinking water other than upon request in eating or drinking establishments, including but not limited to restaurants, hotels, cafes, cafeterias, bars, or other public places where food or drink are served and/or purchased;
  - vii. Irrigation of ornamental turf on public street medians with potable water;
  - viii. Irrigation outside of newly constructed homes and buildings with potable water in a manner inconsistent with regulations or other requirements established by the California Building Standards Commission and the Department of Housing and Community Development.
- D. Operators of hotels and motels shall provide guests with the option of choosing not to have towels and linens laundered daily. The hotel or motel shall prominently display notice of this option in each guest room using clear and easily understood language.

TITLE

Effective \_\_\_\_\_

Resolution No. \_\_\_\_\_

**Schedule No. 14.1**

( N )

**WATER SHORTAGE CONTINGENCY PLAN**  
**WITH STAGED MANDATORY REDUCTIONS AND DROUGHT SURCHARGES (continued)**

Page 7

**E. STAGE ONE WATER USE RESTRICTIONS (Continued)**

[Stage 1 (cont.)]

- e. Limits on Filling Ornamental Lakes or Ponds: Filling or re-filling ornamental lakes or ponds with potable water is prohibited, except to the extent needed to sustain aquatic life, provided that such animals are of significant value and have been actively managed within the water feature prior to the implementation of any staged mandatory restrictions of water use as described in this Schedule.
- f. Other duly adopted restrictions on the use of potable water as prescribed from time to time by the Commission or other authorized government agencies are incorporated herein by reference.

**F. STAGE TWO WATER USE RESTRICTIONS**

**1. MANDATORY WATER BUDGETS AND BANKING (STAGE 2)**

The Governor's Executive Order mandates a 25% reduction in potable urban usage, as compared with the amount used in 2013, through February 2016. To carry out this mandate, the Water Board must develop water use restrictions that take into consideration the relative per capita water usage of each water supplier's service area such that those with high per capita use are required to achieve proportionally greater reductions than those with less use. In addition, water suppliers must develop rate structures and other pricing mechanisms, such as surcharges and penalties, to achieve 25% water conservation.

A. **Mandatory Reduction Percentage:** The Water Board has established increasing levels of required water reduction based upon residential per capita per day use (R-GPCD) for the three summer months of July through September 2014.

- i. The Mandatory Reduction Percentage for each of Cal Water's service areas [and Grand Oaks] is in **Appendix B**. This Mandatory Reduction Percentage is the percentage by which customers in that area must reduce their total potable water use, as compared to their use in 2013.

B. **Customer Water Budgets:** Each customer with metered potable water service (residential and non-residential customers) will receive an individualized "water budget" for each billing period.

- i. The water budget will be the amount of water the customer can use in that billing period without incurring a "drought surcharge." The water budget will be based on the units of water (Ccfs) that customer used in the same billing period in 2013, minus the Mandatory Reduction Percentage established by the Water Board (as identified in **Appendix B**). A customer's water budget will vary according to their monthly water usage in 2013.
- ii. If a customer was not in his or her current location in 2013, the average monthly consumption will be used as a starting budget. If customers have a unique situation and the average budget is not appropriate, they can file an appeal to have their water budget increased. Cal Water may also modify the starting budget to reflect suitable use.
- iii. The water budget for the following billing period will appear on each customer's water bill. Customers will also be able to find their water budgets, and their individual water use history dating back to 2013, by going to [usage.calwater.com](http://usage.calwater.com) (do not include "www"), and entering their account number, street (or house) number, and ZIP code.
- iv. **Water budgets will become effective with the first billing period that begins in the month of June 2015.** No Drought Surcharges will be applied for billing periods that include any days in the month of May 2015.

Schedule No. 14.1

( N )

**WATER SHORTAGE CONTINGENCY PLAN**  
**WITH STAGED MANDATORY REDUCTIONS AND DROUGHT SURCHARGES (continued)**

Page 8

**F. STAGE TWO WATER USE RESTRICTIONS (Continued)**

[Stage 2 (cont.)]

- C. **Minimum Water Budgets:** A minimum monthly amount of water that protects the health and safety of customers will be established for each service area as a Minimum Water Budget for single-family residential customers.
- i. No single-family residential customer will have a water budget that is below the threshold of the monthly Minimum Water Budget, even if applying the Mandatory Reduction Percentage to that customer's 2013 usage would result in a lower amount.
  - ii. The Minimum Water Budget for each service area is identified in **Appendix A**. (For areas with bi-monthly billing and bi-monthly water budgets, the Minimum Water Budget in Appendix A should be doubled for the billing period.)
- D. **Drought Surcharges:** If a customer uses more units of potable water (Ccf) than their Water Budget in a billing period, that customer's water bill will reflect an additional "Drought Surcharge" for each unit of water over the Water Budget.
- i. The Drought Surcharge per unit of water for each service area is identified in **Appendix A**.
  - ii. Customers will continue to pay the normal tariffed rates for potable water, in addition to any applicable Drought Surcharges. Cal Water retains the right to increase the surcharges if there are changes to the rates in the future.
- E. **Water Banking:** Customers will be able to "bank" unused units of water from their water budget for use in future billing periods.
- i. Should a customer exceed his or her monthly budget, any banked units of water will be applied to the overage before drought surcharges are imposed.
  - ii. Banked water units can only offset future usage that exceeds a water budget.
- F. **Water Budget Appeals:** If specified criteria are met, a customer can file an appeal to have his or her water budget increased.
- i. The reasons appeals may be considered include: water use necessary for health and safety; business or economic needs, including process-water requirements; significant long-term savings achieved since 2011; average monthly water use in 2014 that is at least 50% lower than district average; and large animal care (e.g. horse).
  - ii. All appeals must be submitted online at [www.calwater.com/appeal](http://www.calwater.com/appeal) or via a written application form (available at [www.calwater.com/appeal](http://www.calwater.com/appeal) or from our local Customer Center).
  - iii. Surcharges incurred during the appeal review period may be waived if the review takes an extended period of time.

**G. STAGE THREE WATER USE RESTRICTIONS**

**1. MANDATORY WATER BUDGETS AND BANKING (STAGE 3)**

Water budgets will be based on a customer's consumption during a historical base period and will include a percentage reduction designed to meet necessary water-use reductions. Cal Water may include provisions such as minimum water budgets to protect the health and safety of customers, and water banking allowing customers additional flexibility with regard to their required reductions.

In addition to the normal rate paid for the unit of water, a drought surcharge will be charged to a customer for each unit of water used over the established water budget for the billing period. Cal Water may implement surcharges up to three (3) times those charged in Stage 2. Cal Water will establish an appeals process for customers that will allow for requests for increased water budgets.

**G. STAGE THREE WATER USE RESTRICTIONS (Continued)**

[Stage 3 (cont.)]

**2. WASTEFUL USES OF WATER (STAGE 3)**

The following restrictions may be imposed by Cal Water, except where necessary to address an immediate health or safety need or to comply with a term or condition in a permit issued by a state or federal agency.

Differences from or additions to previous Stages are underlined. (The following restrictions are the same as those provided in Stage 3 of Rule 14.1.)

a. Outdoor Irrigation Restrictions (Stage 3)

- i. Irrigating ornamental landscapes with potable water is limited to no more than **two (2) days per week,** on a schedule established and posted by Cal Water on its website or otherwise provided to customers by bill message, bill insert, direct mail, or email, or as follows:

1. Customers with even-numbered addresses may irrigate on Saturdays and Tuesdays (previous Stages allowed Thursdays as well).
2. Customers with odd-numbered addresses may irrigate on Sundays and Wednesdays (previous Stages allowed Fridays as well).
3. Customers without a street address may irrigate on Saturdays and Tuesdays (previous Stages allowed Thursdays as well).
4. Notwithstanding the foregoing restrictions, irrigation of special landscape areas or irrigate a special landscape area or commercial nursery presents Cal Water with a plan to achieve water use reductions commensurate with those that would be achieved by complying with foregoing restrictions.
5. Notwithstanding the foregoing restrictions, when a city, county, or other local public agency in one of Cal Water's service areas duly adopts restrictions on the number of days or hours of the day that customers may irrigate which are different than those adopted by Cal Water, Cal Water may enforce the city, county, or other local public agency's restrictions.

- ii. Irrigating ornamental landscape with potable water is prohibited during the hours between

**8:00 a.m. and 6:00 p.m.**

- iii. The foregoing restrictions do **not** apply to:

1. Landscape irrigation zones that exclusively use drip irrigation systems and/or micro spray irrigation system;
2. Irrigating ornamental landscapes with the use of a hand-held bucket or similar container, a continuously monitored hose which is fitted with an automatic shut-off nozzle or device attached to it that causes it to cease dispensing water immediately when not in use or monitored, or for the express purpose of adjusting or repairing an irrigation system.

B. **Obligation to Fix Leaks, Breaks or Malfunctions:** All leaks, breaks, or other malfunctions in the customer's plumbing fixtures and/or irrigation system must be repaired within **two (2) business days** of written notification by Cal Water, unless other arrangements are made with Cal Water.

C. **Prohibited Uses of Water:** Customers are prohibited from using potable water for the following actions:

- i. The application of potable water to landscapes in a manner that causes runoff such that water flows onto adjacent property, non-irrigated areas, private and public walkways, roadways, parking lots, or structures (note: this provision appears under Section E in Rule 14.1);

**G. STAGE THREE WATER USE RESTRICTIONS (Continued)**

[Stage 3 (cont.)]

- ii. The use of a hose that dispenses potable water to wash vehicles, including cars, trucks, buses, boats, aircraft, and trailers, whether motorized or not, except where the hose is fitted with a shut-off nozzle or device attached to it that causes it to cease dispensing water immediately when not in use (note: this provision appears under Section E in Rule 14.1).
  - iii. The application of potable water to driveways and sidewalks;
  - iv. The use of potable water in a water feature, except where the water is part of a recirculating system;
  - v. The application of potable water to outdoor landscapes during and within forty-eight (48) hours after measurable rainfall;
  - vi. The serving of drinking water other than upon request in eating or drinking establishments, including but not limited to restaurants, hotels, cafes, cafeterias, bars, or other public places where food or drink are served and/or purchased;
  - vii. Irrigation of ornamental turf on public street medians with potable water;
  - viii. Irrigation outside of newly constructed homes and buildings with potable water in a manner inconsistent with regulations or other requirements established by the California Building Standards Commission and the Department of Housing and Community Development.
  - ix. Use of potable water for street cleaning with trucks, except for initial wash-down for construction purposes (if street sweeping is not feasible);
  - x. Use of potable water for construction purposes, such as consolidation of backfill, dust control, or other uses unless no other source of water or other method can be used.
- D. Operators of hotels and motels shall provide guests with the option of choosing not to have towels and linens laundered daily. The hotel or motel shall prominently display notice of this option in each guest room using clear and easily understood language.
- E. Limits on Filling Ornamental Lakes or Ponds: Filling or re-filling ornamental lakes or ponds with potable water is prohibited, except to the extent needed to sustain aquatic life, provided that such animals are of significant value and have been actively managed within the water feature prior to the implementation of any staged mandatory restrictions of water use as described in this Schedule.
- F. Other duly adopted restrictions on the use of potable water as prescribed from time to time by the Commission or other authorized government agencies are incorporated herein by reference.

**H. STAGE FOUR WATER USE RESTRICTIONS**

**1. MANDATORY WATER BUDGETS AND BANKING (STAGE 4)**

Water budgets will be based on a customer's consumption during a historical base period and will include a percentage reduction designed to meet necessary water-use reductions. Cal Water may include provisions such as minimum water budgets to protect the health and safety of customers, and water banking allowing customers additional flexibility with regard to their required reductions.

In addition to the normal rate paid for the unit of water, a drought surcharge will be charged to a customer for each unit of water used over the established water budget for the billing period. For Stage 4, Cal Water may implement surcharges up to three (3) times those charged in Stage 2. Cal Water may require customer consumption reductions of up to 50%.

Cal Water will establish an appeals process for customers that will allow for requests for increased water budgets.

**H. STAGE FOUR WATER USE RESTRICTIONS (Continued)**

[Stage 4 (cont.)]

**2. WASTEFUL USES OF WATER (STAGE 4)**

The following restrictions may be imposed by Cal Water, except where necessary to address an immediate health or safety need or to comply with a term or condition in a permit issued by a state or federal agency. Differences from or additions to previous Stages are underlined. (The following restrictions are the same as those provided in Stage 4 of Rule 14.1.)

- A. Irrigating ornamental landscape with potable water is prohibited, except when a hand-held bucket nozzle or device attached to it that causes it to cease dispensing water immediately when not in use or monitored is used to maintain vegetation, including trees and shrubs.
- B. Obligation to Fix Leaks, Breaks or Malfunctions: All leaks, breaks, or other malfunctions in the customer's plumbing fixtures or irrigation system must be repaired within **one (1) business day** of written notification by Cal Water, unless other arrangements are made with Cal Water.
- C. Prohibited Uses of Water: Customers are prohibited from using potable water for the following actions:
- i. The application of potable water to landscapes in a manner that causes runoff such that water flows onto adjacent property, non-irrigated areas, private and public walkways, roadways, parking lots, or structures;
  - ii. The use of a hose that dispenses potable water to wash vehicles, including cars, trucks, buses, boats, aircraft, and trailers, whether motorized or not, except where the hose is fitted with a shut-off nozzle or device attached to it that causes it to cease dispensing water immediately when not in use.
  - iii. The application of potable water to driveways and sidewalks;
  - iv. The use of potable water in a water feature, except where the water is part of a recirculating system;
  - v. The application of potable water to outdoor landscapes during and within forty-eight (48) hours after measurable rainfall;
  - vi. The serving of drinking water other than upon request in eating or drinking establishments, including but not limited to restaurants, hotels, cafes, cafeterias, bars, or other public places where food or drink are served and/or purchased;
- [Note that items previously identified as (ix) and (x) in Stage 3 have been eliminated.]
- vii. Use of potable water for street cleaning with trucks (previous Stage allowed certain exceptions);
- viii. Use of potable water for construction purposes, such as consolidation of backfill, dust control, or other uses (previous Stage allowed certain exceptions).
- D. Operators of hotels and motels shall provide guests with the option of choosing not to have towels and linens laundered daily. The hotel or motel shall prominently display notice of this option in each guest room using clear and easily understood language.
- E. Limits on Filling Ornamental Lakes or Ponds: Filling or re-filling ornamental lakes or ponds with potable water is prohibited, except to the extent needed to sustain aquatic life, provided that such animals are of significant value and have been actively managed within the water feature prior to the implementation of any staged mandatory restrictions of water use as described in this Schedule.
- F. Other duly adopted restrictions on the use of potable water as prescribed from time to time by the Commission or other authorized government agencies are incorporated herein by reference.

**APPENDIX A**

Drought surcharges apply to all metered customers of potable water.

District	Tariff Area	Drought Surcharge Non-LIRA Customers (a)	Drought Surcharge LIRA Customers (b)	Minimum Monthly Water Budget (Ccf) (c)	Rate Support Fund (RSF) Areas
Antelope Valley	Fremont Valley & Lake Hughes	\$4.5200	\$2.2600	5	RSF Area
	Lancaster	\$7.1180	\$3.5590	5	
	Leona Valley	\$4.5200	\$2.2600	5	RSF Area
Bakersfield		\$4.1868	\$2.0934	7	
Bayshore	Mid-Peninsula	\$10.0000	\$5.0000	6	
	South San Francisco	\$5.6492	\$2.8246	6	
Bear Gulch		\$10.0000	\$5.0000	6	
Chico		\$3.1314	\$1.5657	6	
Dixon		\$7.9402	\$3.9701	7	
Dominguez		\$6.9934	\$3.4967	7	
East Los Angeles		\$3.7605	\$1.8803	9	
Grand Oaks		\$2.1236	\$1.0618	5	
Hermosa Redondo		\$9.1586	\$4.5793	5	
Kern River Valley		\$4.5200	\$2.2600	4	RSF Area
King City		\$6.7536	\$3.3768	9	
Livermore		\$7.6194	\$3.8097	6	
Los Altos		\$8.1608	\$4.0804	6	
Marysville		\$5.1470	\$2.5735	6	
Oroville		\$6.1840	\$3.0920	6	
Palos Verdes		\$9.5358	\$4.7679	6	
Redwood Valley		\$4.5200	\$2.2600	4	RSF Area
Salinas		\$5.7776	\$2.8888	7	
Selma		\$3.0122	\$1.5061	8	
Stockton		\$5.5506	\$2.7753	7	
Visalia		\$2.9796	\$1.4898	7	
Westlake		\$9.2378	\$4.6189	6	
Willows		\$4.1356	\$2.0678	6	

- (a) The Drought Surcharge is equal to two (2) times the highest residential tier rate with a \$10.00 maximum EXCEPT:  
The Drought Surcharge in Rate Support Fund (RSF) areas is equal to \$4.52.  
The Drought Surcharge for districts with a 10% or less water reduction requirement is equal to the highest residential tier rate.
- (b) The Drought Surcharge for LIRA customers is 50% of the Drought Surcharge for Non-LIRA customers.
- (c) The Minimum Water Budget is set at 55 gpcd (gallons per capita per day) multiplied by the number of people per household for the area according to the U.S. Census.

## Chapter 9

# WATER CONSERVATION

### 8-9-1: PURPOSE:

It is the purpose of this Chapter to minimize outdoor water use, control unnecessary water consumption and to conserve water in landscaping to preserve the available potable water supply of the City. (Ord. 92-10, 1-19-93)

### 8-9-2: SHORT TITLE:

This Chapter shall be known as the *WATER CONSERVATION ORDINANCE OF THE CITY OF SELMA*. (Ord. 91-1, 3-4-91)

### 8-9-3: AUTHORIZATION:

The City Manager, or his designee, is hereby authorized and directed to implement the applicable provisions of this Chapter upon their determination that such implementation is necessary to protect the public welfare and safety. (Ord. 91-1, 3-4-91)

### 8-9-4: APPLICATION:

The provisions of this Chapter shall apply to all persons, customers and property within the limits of the City. (Ord. 91-1, 3-4-91)

### 8-9-5: WASTE OF WATER PROHIBITION:

The following uses of water are defined as a "waste of water" and are hereby prohibited except as otherwise authorized:

- (A) The use of water which allows substantial amounts of water to run off to a gutter, ditch, or drain. Every water user is deemed to have his water distribution lines and facilities under his control at all times and to know the manner and extent of his water use and excess runoff.
- (B) The excessive use, loss, or escape of water through breaks, leaks or malfunctions in the

water user's plumbing or distribution facilities for any period of time after such escape of water should reasonably have been discovered and corrected. It shall be presumed that a period of forty eight (48) hours after discovery is a reasonable time within which to correct such a leak or break.

(C) The washing of vehicles, building exteriors, sidewalks, driveways, parking areas, tennis courts, patios, or other paved areas without the use of a positive shut-off nozzle on the hose, which results in excessive runoff, except where necessary to dispose of liquids or substances that would endanger the public's health and safety. (Ord. 930, 5-7-90)

(D) The watering of lawns, groundcover and shrubbery shall not be allowed between certain hours and certain dates to be determined by the City Council. (Ord. 91-1, 3-4-91)

### **8-9-6: OUTDOOR WATER USE; WATER CONSERVATION STAGES:**

No one within the City shall knowingly make, cause, use or permit the use of water for residential, commercial, industrial, governmental, or any other purpose in a manner contrary to any provision of this Chapter, or in an amount in excess of that use permitted by the conservation stage in effect pursuant to action taken by the City Manager, or his designee, in accordance with the provisions of this Chapter. The Director of the Public Works Department shall promulgate guidelines which shall set forth the criteria for determining when a particular conservation stage is to be implemented and terminated. Such guidelines shall be updated when, in the opinion of the Director, the conditions of the utility system have changed so as to necessitate such update. The Director shall include in such guidelines a scheduling system designating allowed days for irrigation by customers. Said guidelines shall be available for inspection at the City Clerk's office, and the Public Works Department City Hall offices during normal business hours.

(A) Stage 1. Voluntary Conservation: Water users in the City are requested to voluntarily limit the amount of water used at all times to that amount absolutely necessary for health, business and irrigation.

(B) Stage 2. Voluntary Compliance - Water Alert: Upon implementation by the City Manager, and publication of notice, the following restrictions shall apply to all persons. All elements of Stage 1 shall remain in effect in Stage 2 except that: (Ord. 930, 5-7-90)

1. Irrigation utilizing individual sprinklers or sprinkler systems of lawns, gardens, landscaped areas, trees, shrubs, or other plants is permitted only on days and times as designated by resolution of the City Council. Irrigation of lawns, gardens, landscaped areas, trees, shrubs, or other plants is permitted anytime if:

(a) A hand-held hose with a positive shut-off nozzle is used;

(b) A hand-held, faucet-filled bucket of five (5) gallons or less is used; or

(c) A drip irrigation system is used.

EXCEPTION: Commercial nurseries, commercial sod farmers, and similar establishments are exempt from State 2 irrigation restrictions, but will be requested to curtail all nonessential water use. (Ord. 92-10, 1-19-93)

2. The washing of automobiles, trucks, trailers, boats, airplanes and other types of mobile equipment is permitted only on designated irrigation days between the hours of seven o'clock (7:00) P.M. and ten o'clock (10:00) A.M. Such washing, when allowed, shall be done with a hand-held bucket, or a hand-held hose, equipped with a positive shut-off nozzle for quick rinses.

EXCEPTION: Washing may be done at any time on the immediate premises of a commercial car wash or commercial service station. Further, such washing may be exempted from these regulations if the health, safety and welfare of the public is contingent upon frequent vehicle cleaning, such as garbage trucks and vehicles to transport food and perishables.

3. The refilling or adding of water to swimming pools, wading pools and/or spas is permitted only on designated irrigation days between the hours of seven o'clock (7:00) P.M. and ten o'clock (10:00) A.M.
4. The operation of any ornamental fountain or other structure making similar use of water is prohibited unless the fountain uses a recycling system, such as an electric pump.
5. The washing of sidewalks, driveways, parking areas, courts, patios, or other paved areas is absolutely prohibited.
6. All restaurants are requested to serve water to customers only when specifically requested by the customers.

(C) Stage 3. Mandatory Compliance - Water Warning: Upon implementation by the City Manager and publication of notice, the following restrictions shall apply to all persons. All elements of Stage 2 shall remain in effect in Stage 3 except that: (Ord. 930, 5-7-90)

1. All outdoor irrigation of lawns, gardens, landscaped areas, trees, shrubs, or other plants shall occur only on days and between times as designated by resolution of the City Council, and shall be done utilizing individual sprinklers, sprinkler systems, drip systems, or hand-held faucet filled buckets of five (5) gallons or less, with no exceptions. (Ord. 92-10, 1-19-93)
2. The use of water for irrigation of golf greens and tees is permitted only on designated irrigation days between the hours of eight o'clock (8:00) P.M. and ten o'clock (10:00) A.M. The irrigation of golf course fairways is absolutely prohibited.

(D) Stage 4. Mandatory Compliance - Water Emergency: Upon implementation by the City

Manager and publication of notice, the following restrictions shall apply to all persons; all elements of Stage 3 shall remain in effect in Stage 4 except that:

1. All outdoor irrigation of vegetation shall be allowed only between the hours of eight o'clock (8:00) P.M. and twelve o'clock (12:00) midnight on designated days.
2. The washing of automobiles, trucks, trailers, boats, airplanes and other types of mobile equipment not occurring upon the immediate premises of commercial car washes and commercial service stations and not in the immediate interest of the public health, safety and welfare shall be prohibited.
3. The washing of automobiles, trucks, trailers, boats, airplanes and other types of mobile equipment upon the immediate premises of commercial car washes and commercial service stations, not in the immediate interest of the public health, safety and welfare shall occur only between the hours of twelve o'clock (12:00) noon and six o'clock (6:00) P.M.
4. The watering of golf course tee areas is prohibited.
5. Use of water from fire hydrants shall be limited to firefighting and/or other activities immediately necessary to maintaining the health, safety, and welfare of the citizens of Selma.
6. Commercial nurseries, commercial sod farmers, and similar establishments shall water only on designated days between the hours of ten o'clock (10:00) A.M. and six o'clock (6:00) P.M. and shall use only hand-held hoses, drip irrigation systems, or hand-held buckets.
7. The filling, refilling, or adding of water to swimming pools, wading pools and/or spas is prohibited.
8. The operation of any ornamental fountain or similar structure is prohibited. (Ord. 930, 5-7-90)

### **8-9-7: MANDATORY CONSERVATION PHASE IMPLEMENTATION:**

The City Public Works Department and California Water Service Company shall monitor the projected supply and demand for water within the City and shall recommend to the City Manager the extent of the conservation required through the implementation and/or termination of particular conservation stages in order to assure the water supply of the City. Thereafter, the City Manager, as directed by Administrative policies, may order that the appropriate phase of water conservation be implemented or terminated in accordance with the applicable provisions of this Chapter. Said order shall be made by public announcement and shall be published a minimum of one time in a newspaper of general circulation and shall continue to be published on a weekly basis as a poster ad until such time as all restrictions are removed and shall become effective immediately upon such publication. The City Council will approve the conservation state at a regularly scheduled meeting within fourteen (14) days

following implementation by the City Manager. (Ord. 930, 5-7-90)

## **8-9-8: DESIGN CRITERIA FOR WATER CONSERVATION IN LANDSCAPING:**

(A) Irrigation System Design Criteria: All commercial and industrial projects requiring landscaping and developer provided landscape for single- and multi-family residential projects completed after adoption of this Section, shall comply with the following design criteria for irrigation. All upgraded or refurbished projects are encouraged to follow these criteria.

1. All irrigation systems shall be designed by a licensed landscape architect, licensed landscape contractor or other appropriate licensed professional. The person preparing the plans shall certify that all requirements of this Section are complied with.
2. All irrigation systems shall be on an automatic timer. No battery operated timers shall be permitted.
3. All irrigation systems shall be designed to minimize the amount of over spray between sprinklers and onto any adjacent nonlandscape areas.
4. No spray irrigation shall be allowed in any landscape area which is less than eight feet (8') in width.
5. Unless within a turf or similar area, all trees and shrubs shall be irrigated by drip or similar low flow devices which do not exceed a flow of sixteen (16) gallons per hour.
6. All irrigation systems shall be designed to account for project specific terrain, soil types, prevalent wind conditions, temperatures, and other environmental factors to provide the most water efficient irrigation design.
7. The irrigation system design criteria shall not apply to public or private golf courses, parks, cemeteries, and City maintained parking lots and medians, although these uses are encouraged to comply with water conserving irrigation practices.

(B) Landscape Design Criteria: All commercial and industrial projects requiring landscaping and developer provided landscape for single- and multi-family residential projects, completed after adoption of this Section, shall comply with the following design criteria for landscaping. All upgraded or refurbished projects are encouraged to follow the criteria.

1. All landscaping plans shall be prepared by a licensed landscape architect, licensed landscape contractor or other appropriate licensed professional. The person preparing the plans shall certify that all requirements of this Section are complied with.
2. A maximum of twenty five percent (25%) of the landscape area of a lot may be turf. The amount of turf area may be increased by five percent (5%) for each of the following water

conservation measures incorporated into the landscaping:

- (a) Micro irrigation for trees and shrubs is used (watering heads which do not exceed sixteen (16) gallons per hour).
  - (b) Rain gauges are used for automatic shut-off during periods of rain.
  - (c) Soil moisture sensors are used to activate and deactivate irrigation systems.
  - (d) Use of a drought tolerant turf.
3. No turf shall be permitted in any landscape area less than eight feet (8') in width.
  4. All plant materials shall be well-suited to the local climate and require low to moderate water usage. Plants having similar water usage shall be grouped together in distinct hydrozones. It is recommended that all plant materials be from the City's recommended plant list.
  5. All nonturf areas shall be prepared with three inches (3") of mulch prior to any planting.
  6. The landscape plans shall include a regular maintenance schedule, which shall include but not be limited to the following:
    - (a) Inspecting, adjusting and repairing damage to irrigation systems and landscaping.
    - (b) Resetting automatic controllers to compensate for seasonal changes.
    - (c) Fertilizing, weeding, pruning and other routine maintenance. Aerating and dethatching turf areas.
  7. The landscape design criteria shall not apply to public or private golf courses, parks, cemeteries, and City maintained parking lots and medians, although these uses are encouraged to comply with this subsection B.
  8. The City staff shall develop and have available to the public, landscape guidelines which outline various water conservation techniques and recommended plant materials within six (6) months of the adoption of this Section. (Ord. 92-10, 1-19-93)

### **8-9-9: ENFORCEMENT:**

It is one of the objectives of the City Council of the City that the citizens of Selma be encouraged to voluntarily comply with the provisions of Sections [8-9-5](#) and [8-9-6](#) of this Chapter. Therefore, in furtherance of said objective, the enforcement of this Chapter will permit issuance of up to three (3) warnings of violation of Sections [8-9-5](#) and [8-9-6](#), by way of written notices of violation to the violating water user, before the issuance of a citation for said violations.

Notwithstanding the foregoing, any person violating any provision of Sections [8-9-5](#) and [8-9-6](#) shall be deemed guilty of an infraction and upon conviction thereof shall be punishable by a fine not to exceed five hundred dollars (\$500.00). Each day that a violation continues shall be regarded as a new and separate offense.

Section [8-9-8](#) of this Chapter shall be enforced by the Planning Department during the development review process. The Planning Department shall review and approve landscape and irrigation plans as per other sections of the Municipal Code. (Ord. 92-10, 1-19-93)

## **8-9-10: PUBLIC NUISANCE; DEFINITIONS:**

In addition to any other remedies which may otherwise be available to the City, the City Council of the City hereby makes the following findings and declarations:

- (A) The waste of water, as that term is defined herein, on public or private property within the City is hereby found to contribute to and compound drought conditions which may, from time to time, exist in the City to the detriment of one of our most precious and finite resources, to wit; water. Such conditions cause injury to the health, safety and general welfare of the citizens of Selma. Therefore, the waste of water within the City on private or public property, except as expressly permitted hereinabove, is hereby declared to constitute a public nuisance which may be abated in an action brought on behalf of the people of the State of California, by the City Attorney, in any court of competent jurisdiction. (Ord. 930, 5-7-90)

## **8-9-11: ENFORCEMENT OFFICERS:**

- (A) Compliance: All peace officers and persons authorized by law to issue citations within the City shall, in conjunction with duties imposed by the law, diligently enforce the provisions of this Chapter.
- (B) Authority: Pursuant to the provisions of section 835.5 of the Penal Code, the following officers and employees of the City are hereby designated as enforcement officers and authorized to issue citations for enforcement of this Chapter:

Director of Public Works  
Public Works Supervisor  
Building Official  
Police officers  
Fire captains

- (C) Notice: Employees of the California Water Service Company are authorized by this

Chapter to issue written notices of violations of Section [8-9-5](#) and [8-9-6](#), but are not authorized by law to issue citations for said violations.

(D) Exceptions: Consideration of written applications for exceptions to Sections [8-9-5](#) and [8-9-6](#) of this Chapter, regarding regulations and restrictions on water use not otherwise set forth in previous sections of this Chapter shall be as follows:

1. Written application for exception to Section [8-9-5](#) and [8-9-6](#) of this Chapter shall be submitted to the City Manager. The City Manager may grant an exception if the following conditions exist:
  - (a) Strict application of those sections would cause an unnecessary and undue hardship to the applicant, including, but not limited to, adverse economic impact; or
  - (b) Strict application of those sections would cause a condition adversely affecting the health, sanitation, fire protection or safety of the applicant or the public; or
  - (c) Granting the application is not detrimental to the "general welfare". (Ord. 92-10, 1-19-93)
