Advice Letter No. 2554

CALIFORNIA WATER SERVICE COMPANY (U-60-W)

To The Public Utilities Commission of the State of California:

California Water Service Company (“Cal Water”) respectfully submits this Tier 2 advice letter requesting approval to implement the tariff changes listed below applicable to all Class A service areas in accordance with Ordering Paragraph 1 of Decision 20-12-007 and the dicta of Decision 24-03-042. ***Please note that this advice letter will only be distributed electronically to the Water Division and the attached service lists.***

See Attachment 1

Summary

This advice letter requests approval for revenue increases for the costs associated with 30 used and useful capital projects previously authorized in Cal Water’s 2018 General Rate Case decision (“D.20-12-007”) and Cal Water’s recent 2021 General Rate Case decision (“D.24-03-042”). The requested effective date is July 1, 2025. Note that Cal Water proposes to extend the protest period to **June 6, 2025** to ensure the deadline is at least 20 days after the last notice of this request is published in newspapers.

Background

In December 2020, the Commission issued D.20-12-007 adopting a Partial Settlement Agreement (“2018 Settlement Agreement”) which resolved Cal Water’s 2018 General Rate Case (“2018 GRC”). Attachment 8 of the 2018 Settlement Agreement identifies certain projects whose costs may be recovered through a Tier 2 advice letter after the projects are used and useful.

In March 2024, the Commission approved D.24-03-042 adopting a Partial Settlement Agreement (“2021 GRC Settlement Agreement”) which resolved Cal Water’s 2021 General Rate Case (“2021 GRC”). Included in D.24-03-042 was a discussion on previously authorized capital projects from Cal Water’s 2018 GRC. While the Commission declined to include such previously authorized projects in adopted rate base when issuing D.24-03-042, it authorized Cal Water to “follow the

Commission's existing processes for adding previously authorized projects that are completed and used and useful into rate base."¹

Water Industry Rule 7.3.3(8) of Commission General Order 96-B ("GO 96-B") categorizes a rate base offset as a Tier 3 advice letter. However, Water Industry Rule 7.3.3(8) provides that a rate base offset can be filed as a Tier 2 advice letter if:

- (i) The rate base offset was previously approved by the Commission in a decision or resolution;
- (ii) The project scope is consistent with what the Commission approved; and
- (iii) The Commission approval included a budget cap and the rate base offset request is at or below the budget cap.

Cal Water's immediate request to add used and useful projects to rate base, consistent with the previously authorized scope and budget, is thus appropriate for disposition via a Tier 2 advice letter.

Discussion

As mentioned above, Cal Water was authorized to complete numerous projects to maintain safe and reliable service throughout its service territory.² Cal Water is requesting to add 30 used and useful projects, authorized by the Commission, to adopted rate base. All projects included for revenue recovery are consistent with the scope and budget authorized by the Commission.

The total authorized budget for these projects is \$12,185,934. While the total cost for these projects is currently \$25,032,700, Cal Water only requests recovery of \$11,443,395. Previously authorized projects with actual costs exceeding the allowed costs were capped at the allowed amount. Previously approved projects with actual costs less than allowed cost are requested for recovery at the actual amount. The list of approved projects for which recovery is being requested is in **Attachment 2** to this advice letter. Adding these 30 previously authorized used and useful projects to rate base will result in a company-wide annual revenue increase of \$1,555,650. A summary of the revenue increases by ratemaking area is provided in **Table 1** below, and shows that most increases are significantly less than one percent of the last adopted revenue requirement.

In D.24-03-002, the Commission stated that, when seeking recovery of used and useful projects, Cal Water should “seek to package rate base offset approval requests for multiple projects into a single advice letter request for both administrative efficiency and to minimize the number of rate requests outside of the GRC.”³ The Commission indicated such a process would provide for timely authorization of rate base offsets for previously approved projects, “especially if these projects may be approved as Tier 2 advice letters.”⁴ Cal Water’s requested relief in this Tier 2 advice letter is in accordance with D.24-03-002, so timely authorization for recovery is appropriate. Furthermore, when commenting on Cal Water’s 2021 GRC during the Commission’s March 7, 2024, Business Meeting, President Alice Reynolds set the clear expectation that such advice letters

be processed in a timely manner.⁵ The importance of timely and efficient processing of utility requests was reiterated by the other Commissioners as well.⁶

The details relating to the calculations for the recovery amounts are contained in the workpapers.

Adjustment to Los Altos Recycled Water Tariff

In this advice letter, an error in the quantity rate for recycled water in Los Altos is being corrected. In AL 2234, a recycled water tariff was created pursuant to a contract with Apple to have recycled water provided to one of its campuses at rates that are no higher than the district's potable non-residential rates. The proposed tariff for recycled water (Schedule No. LS-6) in this advice letter now reflects the same quantity rate as that proposed for potable non-residential service. Despite the revenue increase, this correction results in a proposed recycled quantity rate that is lower than the recycled quantity rate currently in effect.

No Change to Bay Area Region Recycled Water Tariff

This advice letter does not include changes to Schedule No. BAR-BAY-6, the tariff for recycled metered service that was approved in AL 2529-A. The new tariff was created to enable Cal Water to provide recycled water from the City of Redwood City's pipeline to the California Department of Transportation (Caltrans) in the San Carlos area of the Bayshore District. As approved by AL 2529-A, Cal Water's recycled water tariff will mirror the rates Cal Water pays for recycled water – essentially, Redwood City's rates – and will only vary from those rates upon the conclusion of A.24-07-003.⁸

Requested Effective Date

Cal Water requests that this advice letter become effective **July 1, 2025**.

Notice

Customer Notice – Individual customer notice of this advice letter is not required under General Order 96-B, Water Industry Rule 3.1, as the requested rate increase is less than 10% of the district's revenue requirement. In this case, none of the requested revenue increases exceed the 10% threshold. Therefore, Cal Water is publishing legal notice of this advice letter in newspapers of local circulation for the impacted tariff areas consistent with Rule 3.1. A copy of the order for newspaper publication, and verification from an officer of the utility that the advice letter has been properly and timely noticed for these customers are provided in **Attachment 3 and Attachment 4**, respectively.

In an abundance of caution, Cal Water proposes to extend the protest period to **June 6, 2025** to ensure the protest deadline occurs at least 20 days after the last newspaper notice for this request is published.

Service List – In accordance with General Order 96-B, General Rules 4.3 and 7.2, and Water Industry Rule 4.1, a copy of this advice letter will be transmitted electronically on **May 16, 2025**, to competing and adjacent utilities and other utilities or interested parties having requested such

Notice to Bay Area Region Customers Regarding Rate Change for Pre-Authorized Infrastruc- ture Improvements

On or around May 15, 2025, California Water Service (Cal Water) will file Advice Letter 2554 with the California Public Utilities Commission (CPUC), seeking permission to change rates in its Bay Area Region and other ratemaking areas for costs associated with recently completed and previously authorized infrastructure improvements. Although previously authorized by the CPUC in Decision 24-03-042 as part of the utility's triennial rate review process, these project costs were to be recovered after they were completed.

In the advice letter, Cal Water requests additional revenue of \$176,729, or 0.15% of currently authorized revenue. If approved, effective July 1, 2025, the water bill of a Bay Area Region residential customer with 6 CCF (approximately 4,488 gallons) of monthly water usage would increase by approximately \$0.08, or 0.15%.

A copy of Advice Letter 2554 is available online at www.calwater.com/rates-advice-letters (from the dropdown menu, select Bayshore or Redwood Valley). Copies may also be obtained from the company's local offices by calling (650) 558-7800 for Bayshore or (800) 220-4299 for Redwood Valley. You may also contact the company's headquarters by mail at 1720 North First Street, San Jose, CA 95112-4598, or by calling (408) 367-8200 and asking for the Rates Department.

Cal Water offers many programs to help customers manage their water bill, including a low-income Customer Assistance Program (CAP), water-saving appliance/device rebates, and other conservation programs. Please visit our web site at www.calwater.com to take advantage of these opportunities.

Responses and Protests

Anyone may respond to or protest this filing. A response supports the filing and may contain information that proves useful to the CPUC in its evaluation. A protest objects to the filing in whole or in part and must set forth the specific grounds on which it is based, and shall provide citations, or proof where available to allow staff to properly consider the

protest. The grounds for protests are:

1. The utility did not properly serve or give notice of the filing.
2. The relief requested in the filing would violate statute or CPUC order or is not authorized by statute or CPUC order on which the utility relies.
3. The analysis, calculations, or data in the filing contains material errors or omissions.
4. The relief requested in the filing is pending before the CPUC in a formal proceeding.
5. The relief requested in the filing requires consideration in a formal hearing or is otherwise inappropriate for the filing process.
6. The relief requested in the filing is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the CPUC).

A response or protest must be made in writing and received by the CPUC's Water Division by **June 6, 2025**, the end of the comment period. The response or protest should be either emailed to water.division@cpuc.ca.gov or mailed to Tariff Unit, Water Division, 3rd Floor, CPUC, 505 Van Ness Ave., San Francisco, CA 94102. On the same date the response or protest is sent to the Water Division, it must also be either emailed to cwsrates@calwater.com or mailed to Rates Department, California Water Service, 1720 North First St., San Jose, CA 95112.

Cities and counties that need Board of Supervisors or Board of Commissioners approval to protest should inform the Water Division within the protest period so that a late-filed protest can be considered. The informing document should include an estimated date on which the proposed protest may be voted.

If you have not received a reply to your protest within 10 business days, contact Cal Water at (408) 367-8200 and ask for the Rates Department.

4. The relief requested in the filing is pending before the CPUC in a formal proceeding.
5. The relief requested in the filing requires consideration in a formal hearing or is otherwise inappropriate for the filing process.
6. The relief requested in the filing is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the CPUC).

A response or protest must be made in writing and received by the CPUC's Water Division by **June 6, 2025**, the end of the comment period. The response or protest should be either emailed to water.division@cpuc.ca.gov or mailed to Tariff Unit, Water Division, 3rd Floor, CPUC, 505 Van Ness Ave., San Francisco, CA 94102. Anyone may respond to or protest this filing. A response supports the filing and may contain information that proves useful to the CPUC in its evaluation. A protest objects to the filing in

whole or in part and must set forth the specific grounds on which it is based, and shall provide citations or proof where available to allow staff to properly consider the protest. The grounds for protests are:

1. The utility did not properly serve or give notice of the filing.
2. The relief requested in the filing would violate statute or CPUC order or is not authorized by statute or CPUC order on which the utility relies.

3. The analysis, calculations, or data in the filing contains material errors or omissions.
4. The relief requested in the filing is pending before the CPUC in a formal proceeding.

A response or protest must be made in writing and received by the CPUC's Water Division by **June 6, 2025**, the end of the comment period. The response or protest should be either emailed to waterdivision@cpuc.ca.gov or mailed to Tariff Unit, Water Division, 3rd Floor, CPUC, 505 Van Ness Ave., San Francisco, CA 94102. Notice to Willows District Customers Regarding Rate Change for Pre-Authorized Infrastructure Improvements

On or around May 15, 2025, California Water Service (Cal Water) will file Advice Letter 2554 with the California Public Utilities Commission (CPUC), seeking permission to change rates in its Willows District and other ratemaking areas for costs associated with recently completed and previously authorized infrastructure improvements. Although previously authorized by the CPUC in Decision 24-03-042 as part of the utility's triennial rate review process, these project costs were to be recovered after they were completed. In the advice letter, Cal Water requests additional revenue of \$2,433, or 0.06% of currently authorized revenue. If approved, effective July 1, 2025, the water bill of a Willows District residential customer with 7 CCF (approximately 5,236 gallons) of monthly water usage would increase by approximately \$0.05, or 0.09%.

A copy of Advice Letter 2554 is available online at www.calwater.com/rates-advice-letters (from the dropdown menu, select Willows). Copies may also be obtained from the company's local Willows office by calling (530) 934-4735. You may also contact the company's headquarters by mail at 1720 North First Street, San Jose, CA 95112-4598, or by calling (408) 367-8200 and asking for the Rates Department.

Cal Water offers many programs to help customers manage their water bill, including a low-income Customer Assistance Program (CAP), water-saving appliance/device rebates, and other conservation programs. Please visit our web site at www.calwater.com to take advantage of these opportunities.

Responses and Protests

Anyone may respond to or protest this filing. A response supports the filing and may contain information that proves useful to the CPUC in its evaluation. A protest objects to the filing in whole or in part and must set forth the specific grounds on which it is based, and shall provide citations or proof where available to allow staff to properly consider the protest. The grounds for protests are:

1. The utility did not properly serve or give notice of the filing.
2. The relief requested in the filing would violate statute or CPUC order or is not authorized by statute or CPUC order on which the utility relies.
3. The analysis, calculations, or data in the filing contains material errors or omissions.
4. The relief requested in the filing is pending before the CPUC in a formal proceeding.
5. The relief requested in the filing requires consideration in a formal hearing or is otherwise inappropriate for the filing process.
6. The relief requested in the filing is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the CPUC).

A response or protest must be made in writing and received by the CPUC's Water Division by **June 6, 2025**, the end of the comment period. The response or protest should be either emailed to water.division@cpuc.ca.gov or mailed to Tariff Unit, Water Division, 3rd Floor, CPUC, 505 Van Ness Ave., San Francisco, CA 94102. On the same date the response or protest is sent to the Water Division, it must also be either emailed to cwsrates@calwater.com or mailed to Rates Department, California Water Service, 1720 North First St., San Jose, CA 95112.

Cities and counties that need Board of Supervisors or Board of Commissioners approval to protest should inform the Water Division within the protest period so that a late-filed protest can be considered. The informing document should include an estimated date on which the proposed protest may be voted.

If you have not received a reply to your protest within 10 business days, contact Cal Water at (408) 367-8200 and ask for the Rates Department.
