### Advice Letter No. 2556

### **CALIFORNIA WATER SERVICE COMPANY (U-60-W)**

To The Public Utilities Commission of the State of California:

California Water Service Company (Cal Water) requests revenue changes associated with passthrough cost increases for the Bay Area Region, Bear Gulch, East Los Angeles, Los Altos, and Stockton areas.

New/Revised			Cancelling
<u>CPUC Sheet No.</u>	<u>Title of Sheet</u>	Schedule No.	CPUC Sheet No.

### See Attachment 1

Note: Cal Water will be proposing customer rates effective July 1, 2025, that will be the result of combining purchased water offsets with rate base offsets that were filed and approved in Advice Letter 2554. Therefore, the tariffs included here and identified in **Attachment 1** will reflect the revenue changes that are proposed in this advice letter as well as those in AL 2554 for the corresponding rate areas.

### <u>Summary</u>

This filing proposes revenue adjustments to reflect the cost changes associated with purchased water and pump taxes in the ratemaking areas detailed below. Cal Water requests an effective date of July 1, 2025, for this Tier 1 advice letter. A summary of the revenue changes and bill impacts are below.

### **Discussion**

The basis for the proposed revenue changes is described for each ratemaking area below.

### **Bay Area Region:**

Purchased water within the Bay Area Region is obtained from the San Francisco Public Utilities Commission ("SFPUC"). While the SFPUC rates are not changing, the Bay Area Water Supply & Conservation Agency ("BAWSCA") also applies fixed surcharges on the water bills of SFPUC customers to recover costs associated with bonds. The annual fixed surcharge applicable to the Bay Area Region is decreasing from \$3,366,000 to \$2,544,144, effective July 1, 2025.

Note that there is no change to the recycled water tariff for this region (Schedule No. BAR-BAY-6), which was approved in AL 2529-A. The tariff was created to enable Cal Water to provide recycled water from the City of Redwood City's pipeline to the California Department of Transportation (Caltrans) in the San Carlos area of the Bayshore District. As approved by AL 2529-A, Cal Water's

recycled water tariff will mirror the rates Cal Water pays for recycled water – essentially, the rates Redwood City charges for recycled water – and will only vary from those rates upon the conclusion of A.24-07-003.<sup>1</sup>

### Bear Gulch:

Purchased water for the Bear Gulch District is obtained from the SFPUC. As described above, while the SFPUC rates are not changing, BAWSCA applies fixed surcharges on the water bills of SFPUC customers. The annual fixed charge for the Bear Gulch District is increasing from \$1,586,292 to \$1,755,300, effective July 1, 2025.

### East Los Angeles:

There will be no changes to the purchased water rates in East Los Angeles effective July 1, 2025, however the Water Replenishment District of Southern California is increasing its pump tax rate from \$437 per acre-foot to \$455 per acre-foot effective, July 1, 2025.

### Los Altos:

Purchased water for the Los Altos District is obtained from the Santa Clara Valley Water District ("Valley Water") and San Jose Water Company ("SJWC"). Pump taxes are also paid to Valley Water. Effective July 1, 2025, Valley Water is increasing its rates for contract water from \$2,344 to \$2,565 per acre-foot, non-contract water from \$2,429 to \$2,650 per acre-foot, and recycled contract water from \$2,061 to \$2,316 per acre-foot. The unit costs per CCF for SJWC has decreased from \$7.3795 to \$6.6074. Additional surcharges and credits related to the SJWC bill are detailed in the offset workpapers.<sup>2</sup> Additionally, Valley Water is increasing its groundwater pump tax rate from \$2,229 per acre-foot to \$2,450 per acre-foot. The net impacts of these changes are shown in the tables below.

### Stockton:

Purchased water for the Stockton District is obtained from Stockton East Water District ("SEWD"). Effective April 1, 2025, SEWD increased its monthly charges from \$1,089,911 to \$1,236,391 based on true up calculations in accordance with terms of the second amended contract between Cal Water and SEWD implemented on September 25, 1987.

District	Last Adopted	Revenue Change (in \$)	Revenue Change (in %)	Pass through Changes
Bay Area Region	\$121,695,945	(\$452,581)	-0.4%	Purchased Water
Bear Gulch	\$77,098,877	\$412,790	0.5%	Purchased Water

 3.

<u>Typical Residential Bill Impact of this Advice Letter:</u> **Table 2** below shows the monthly impact on the typical residential customer bill of just the production expense offsets included in this advice letter.<sup>5</sup> In other words, the typical bill changes are based on the incremental changes in rates calculated for purchased water and pump tax offset revenue changes alone, and do not include the revenue changes from AL 2554 that will also become effective July 1, 2025.

SPECIAL CONDITIONS (continued)

- 11. **New Service in RDV-Coast Springs:** (continued)Applicants who have had their approval revoked in this manner will be placed at the end of the waiting list.
- 12. Exemption for Saint Anthony's Monastery in RDV-Coast Springs: Two residential water connections are reserved for the property formerly owned by Cynthia Christopher and Geronima Belen and subsequently sold to the Saint Anthony's Monastery. Those two reserved connections are exempt from the requirement to provide a building permit within 18 months or be dropped from the approved service connections list.
- 13. Water Expense Increase: Beginning on July 1, 2025, rates in this area will reflect a 0.4% revenue reduction due to lower charges by the Bay Area Water Supply and Conservation Agency (BAWSCA) for water received from the San Francisco Public Utilities Commission (SFPUC). This caused quantity rates to go down by the following amounts: \$0.0140 /CCF for Tier 1 usage, \$0.0555 /CCF for Tier 2 usage, \$0.0694 /CCF for Tier 3 usage and \$ 0.1040 /CCF for Tier 4 usage. BEAR GULCH NOTICE OF PROPOSED RATE CHANGE DUE TO PASS-THROUGH OF WHOLESALE SUPPLIER

COST INCREASES Beginning July 1, 2025, water bills of California Water Service (Cal Water) customers in the Bear Gulch District will California Water Service (Cal Water) customers in the Bear Gulch District will reflect updated wholesale water charges by the San Francisco Public Utilities Commission (SFPUC) and Bay Area Water Supply and Conservation Agency (BAWSCA), which are incurred by the company. The California Public Utilities Commission (CPUC), the state agency that regulates Cal Water's operations, has determined that expenses for wholesale water supplies are not under the company's control, and that a pass-through of those costs to customers is just. On or around June 25, 2025, Cal Water will file Advice Letter 2556 to request authority to <u>increase</u> its annual revenue in the Bear Gulch District by \$412,790, or 0.5%, due to these wholesale cost increases. Pending the CPUC's review of Cal Water's calculations, the rate changes will be effective on July 1, 2025. With the increase, a typical monthly bill for a Bear Gulch District residential customer with a 5/8" x 3/4" meter and who uses approximately 5,984 gallons (8 ccf) of 0.6%.

0.6%. A copy of Advice Letter 2556 will be available online at www.calwater.com/rates-advice-letters (please select the Bear Gulch District from the drop-down menu), and may also be obtained from the company's local office by calling (650) 561-9709. You may also contact the company's headquarters by mailing the Rates Department at 1720 North First Street, San Jose, CA 95112-4598.

Contact the company's neadquarters by mailing the Rates Department at 1720 North First Street, San Jose, CA 95112-4598.
Cal Water offers many programs to help customers manage their water bill, including a low-income Customer Assistance Program (CAP), water-saving appliance/device rebates, and other conservation programs. Please visit our web site at www.calwater.com to take advantage of these opportunities.
