**Advice Letter No. 2570**

**CALIFORNIA WATER SERVICE COMPANY (U-60-W)**

To The Public Utilities Commission of the State of California:

California Water Service Company (Cal Water) requests revenue changes associated with pass-through cost changes for all Class A ratemaking areas except Travis.

<u>New/Revised</u> <u>CPUC Sheet No.</u>	<u>Title of Sheet</u>	<u>Schedule No.</u>	<u>Cancelling</u> <u>CPUC Sheet No.</u>

**See Attachment 1**

**Summary**

This filing proposes revenue changes to reflect the higher costs associated with purchased water, pump taxes, and purchased power in the ratemaking areas detailed below. Cal Water requests an effective date of January 1, 2026, for this Tier 1 advice letter. A summary of the revenue changes and bill impacts are below. Note that Cal Water proposes to extend the protest period to **December 16, 2025** to ensure the deadline is at least 20 days after the last notice of this request is published in newspapers.

**Background**

On November 14, 2025, as authorized by the Administrative Law Judge’s Ruling Partly Granting Motion for Interim Rate Relief and Associated Memorandum Account issued on October 3, 2025 (“10/03/25 Ruling”), Cal Water filed advice letter (“AL”) 2568 which requested the following to be effective on January 1, 2026: (1) the implementation of interim rates increased by the rate of inflation and (2) the creation of an interim rate memorandum account (“IRMA”) to track the differences between interim rates and final rates .

In AL 2568, Cal Water is “increasing the rates effective today by the rate of inflation, which will be the most recent 12-month ending change in the U.S. Cities Consumer Price Index for All Urban Consumers published by the U.S. Bureau of Labor Statistics.”<sup>1</sup> As of September 2025, the rate of inflation defined above is 3%.<sup>2</sup>

In AL 2568, Cal Water also stated that *“No tariffs are being provided at this time because Cal Water will be requesting additional rate changes effective January 1, 2026, for all affected areas in*

*subsequent advice letters, and those advice letters will contain tariffs that will reflect the interim rate increases requested herein.”*

## **Discussion**

The basis for the proposed revenue changes is described for each ratemaking area below. As stated above, to include CPI increases to the rates calculated for the proposed revenue changes, the incremental CPI was added to each rate component to generate the tariffs.

### **Purchased Power Increases**

For purchased power increases, power for all Cal Water ratemaking areas addressed in this advice letter is obtained from either Pacific Gas and Electric Company (“PG&E”) or Southern California Edison (“SoCal Edison”). Consistent with the methodology used to calculate the purchased power unit cost in Cal Water’s 2021 GRC, purchased power increases are calculated using the recorded 2024 power expenses and consumption to derive a proposed unit cost for each ratemaking area. The proposed unit cost is then applied to last adopted total production to generate new power expenses.

### **Purchased Water and Pump Tax Changes**

#### **Bakersfield:**

Purchased water within Bakersfield area is obtained from the Kern County Water Agency (“KCWA”) and the City of Bakersfield. KCWA water rates are based on annual entitlement amount pursuant to water supply agreement with KCWA. KCWA increased its potable rates from \$195 per acre feet to \$233 per acre feet effective July 1, 2025, and the City of Bakersfield decreased its potable rates from \$116.05 per acre feet to \$114.84 per acre feet effective January 1, 2025. KCWA also increased its ground water replenishment charge from \$39 per acre feet to \$40 per acre feet.

#### **Bay Area Region:**

Purchased water within the Bay Area Region is obtained from the San Francisco Public Utilities Commission (“SFPUC”). The SFPUC increased its potable water rates from \$5.71 per CCF to \$5.80 per CCF effective July 1, 2025.

Note that there is no change to the recycled water tariff for this region (Schedule No. BAR-BAY-6), which was approved in AL 2529-A. The tariff was created to enable Cal Water to provide recycled water from the City of Redwood City’s pipeline to the California Department of Transportation (“Caltrans”) in the San Carlos area of the Bayshore District. As approved by AL 2529-A, Cal Water’s recycled water tariff will mirror the rates Cal Water pays for recycled water – essentially, the rates Redwood City charges for recycled water – and will only vary from those rates upon the conclusion of A.24-07-003.<sup>3</sup>

---

<sup>3</sup> “Cal Water plans to charge Caltrans for this recycled water at the rates and fees it incurs for recycled water from Redwood City without markup until the conclusion of A.24-07-003, Cal Water’s 2024 GRC Application.” AL 2529-A, p. 3.

Bear Gulch:

Purchased water within the Bear Gulch District is obtained from the San Francisco Public Utilities Commission (“SFPUC”). SFPUC increased its potable water rates from \$5.71 per CCF to \$5.80 per CCF effective July 1, 2025.

East Los Angeles:

Purchased water for the East Los Angeles area is obtained from the Central Basin Municipal Water District (“Central Basin”). Effective January 1, 2026, Central Basin is increasing its Tier 1 rates from \$1,565 per acre-foot to \$1,698 per acre-foot.

Kern River Valley:

Purchased water within Kern River Valley area is obtained from the City of Bakersfield. The City of Bakersfield decreased its potable rates from \$116.05 per acre feet to \$114.84 per acre feet effective January 1, 2025.

Livermore:

Purchased water for the Livermore District is obtained from Zone 7 of the Alameda County Flood Control and Water Conservation District (“Zone 7”). The Board for Zone 7 approved new treated water schedules for 2023-2026 through Resolution 22-93. Effective January 1, 2026, the potable water rates will increase from \$2.34 to \$2.47/CCF, but the fixed charge for the Livermore District will decrease by \$118,875 annually.

Los Angeles County Region:

Purchased water for the Palos Verdes area (a sub-region of the Los Angeles County Region), is obtained from West Basin Municipal Water District (“West Basin”). Effective January 1, 2026, West Basin is increasing its Tier 1 potable water rates from \$1,917 per acre-foot to \$2,063 per acre-feet.

Note that, in D.20-12-007, the Commission authorized a tariff split so that Antelope Valley customers would not have to fund the most expensive main replacement line in Cal Water’s history, the Palos Verdes Peninsula Water Reliability Project (“PVPWRP”) (with capital costs at over \$100 million). Accordingly, Antelope Valley and Palos Verdes customers have returned to having different sets of rates. They are still consolidated for ratemaking purposes, however, so the purchased water offset requested here affects both Palos Verdes and Antelope Valley customers (albeit with different bill impacts).

Salinas Valley Region:

The Las Lomas area of the Salinas Valley Region uses pumped water from the Pajaro Valley Water Management Agency. Pajaro Valley Water increased its pump tax rate from \$282 per acre feet to \$346 per acre feet effective December 1, 2025.

South Bay Region:

Purchased water for the Dominguez and Hermosa-Redondo areas is obtained from West Basin. Effective January 1, 2026, West Basin will increase its Tier 1 potable water rates from \$1,917 per acre-foot to \$2,063 per acre-foot.

Visalia:

The Visalia District obtains pumped water from City of Visalia. The City of Visalia increased its pump tax rate from \$19.54 per acre feet to \$20.93 per acre feet effective January 1, 2025.

Westlake:

Purchased water for the Westlake District is obtained from the Calleguas Municipal Water District (“Calleguas”) and the Triunfo Water & Sanitation District (“Triunfo”). Effective January 1, 2026, Calleguas will increase its potable water quantity rates for Tier 1 from \$1,895 to \$2,058 per acre-foot. Because Triunfo recycled water rates are equal to 80% of the Calleguas potable water rates, water purchased from Triunfo will be \$1,646.4 per acre-foot.

Allocation of Revenue as Fixed Cost Recovery: For all customer classes, the amount of fixed costs recovered through fixed service charges was modified in the 2021 GRC Settlement Agreement.<sup>4</sup> In addition, note that the parties to the Settlement “agree that all rates for the upcoming GRC period should be designed to cover fixed costs in the fixed service charges according to the percentages...as shown in the table” in the 2021 Settlement Agreement as adopted in D.24-03-042

<sup>4</sup> 2021 Settlement Agreement at p. 5.

(corrected by D.24-04-043).<sup>5</sup> In the absence of a decision in Cal Water’s 2024 GRC, the rate design workpapers have been modified to maintain those percentages.

Typical Residential Bill Impact of this Advice Letter: **Table 2** below shows the monthly impact on the typical residential customer bill of just the production expense offsets included in this advice letter.<sup>6</sup> In other words, the typical bill changes are based on the incremental changes in rates calculated for purchased water and pump tax offset revenue changes alone, and do not include the rate impact of inflation increases from AL 2568 that will also become effective January 1 2026.

### **Requested Effective Date**

Under General Order 96-B, Water Industry Rule 7.3.1, as modified by Resolution W-4664, this is a Tier 1 advice letter. Cal Water requests that the rates proposed in this advice letter become effective on **January 1, 2026**.

### **Notice**

*Customer Notice* – A legal notice of this advice letter is being published in a newspaper of local circulation consistent with GO 96-B, Water Industry Rule 3.1. A copy of the order for newspaper publication, and verification from an officer of the utility that the advice letter has been properly and timely noticed, are attached. In an abundance of caution, Cal Water proposes to extend the protest period to **December 16, 2025** to ensure the protest deadline occurs at least 20 days after the last newspaper notice for this request is published. Copies of the orders for newspaper publication, and verification from an officer of the utility that the advice letter has been properly and timely noticed are provided in **Attachment 6 and Attachment 7**, respectively.

*Service List* – In accordance with General Order 96-B, General Rule 4.3 and 7.2 and Water Industry Rule 4.1, a copy of this advice letter will be transmitted electronically on **November 21, 2025**, to competing and adjacent utilities and other utilities or interested parties having requested such notification. ***Please note that this advice letter will only be distributed electronically to the Water Division and the attached service lists.***

### **Response or Protest**

Anyone may respond to or protest this advice letter. A response supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

- (1) The utility did not properly serve or give notice of the advice letter;
- (2) The relief requested in the advice letter would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
- (3) The analysis, calculations, or data in the advice letter contain material error or omissions;
- (4) The relief requested in the advice letter is pending before the Commission in a formal proceeding; or
- (5) The relief requested in the advice letter requires consideration in a formal hearing, or is otherwise inappropriate for the advice letter process; or
- (6) The relief requested in the advice letter is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require re-litigating a prior order of the Commission.)

A protest shall provide citations or proofs where available to allow staff to properly consider the protest. A response or protest must be made in writing and must be received by the Water Division by **December 16, 2025**. Please submit the response or protest by email or mail to:

Cities and counties that need Board of Supervisors or Board of Commissioners approval to protest should inform the Water Division by **December 16, 2025** so that a late-filed protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on.

The advice letter process does not provide for any responses, protests, or comments, except for the utility's reply, after the comment period.

**Replies:**

The utility shall reply to each protest and may reply to any response. Each reply must be received by the Water Division within 5 business days after the end of the protest period and shall be served on the same day to the person who filed the protest or response. If you have not received a reply to your protest within 10 business days, contact California Water Service Company at 408-367-8200 and ask for the Rates Department.

**Schedule No. BK-1-R**  
**Bakersfield Tariff Area**  
**RESIDENTIAL METERED SERVICE**

**APPLICABILITY**

Applicable to all metered water service provided to single-family residential customers.

**TERRITORY**

Bakersfield and vicinity, Kern County.

**RATES**

1 CCF is 100 cubic feet (approximately 748 gallons)

Quantity Rates:

For 1 - 6 CCF, per CCF	\$0.8158	(I)
For 7 to 14 CCF, per CCF	\$3.2445	(I)
For 15 to 26 CCF, per CCF	\$4.0540	(I)
For over 26 CCF, per CCF	\$6.0780	(I)

Service Charge:

Per Meter Per Month

For	5/8 x 3/4 - inch meter	\$28.76	(I)	
For	3/4 - inch meter	\$43.14		
For	Fire Sprinkler with 1 - inch meter	\$29.62		
For	1 - inch meter	\$71.89		
For	1-1/2 - inch meter	\$143.79		
For	2 - inch meter	\$230.06		
For	3 - inch meter	\$431.36		
For	4 - inch meter	\$718.93

SPECIAL CONDITIONS (continued)

- 2. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule CAP** (Customer Assistance Program), and **Schedule AS** (Additional Surcharges and Surcredits).
- 3. **Fire sprinkler rates:** A single-family residence with a meter size that has a “fire sprinkler” rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the “fire sprinkler” rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.
- 4. **Water Expense Increase:** Beginning on January 1, 2026, rates in this area will reflect a 2.81% revenue increase due to higher wholesale water charges and pump taxes by the Kern County Water Agency, lower wholesale water charges by the City of Bakersfield, and increased charges for purchased power from Pacific Gas & Electric. This caused quantity rates to go up by the following amounts: \$0.0337/CCF for Tier 1 usage, \$0.1339/CCF for Tier 2 usage, \$0.1673/CCF for Tier 3 usage, and \$0.2509/CCF for Tier 4 usage. Amounts collected from these quantity rate increases will be tracked in a balancing account, as required by Section 792.5 of the Public Utilities Code. The monthly service charge for a 5/8 x 3/4-inch meter changed by \$0.01.

SPECIAL CONDITIONS (continued)

4. **Fire sprinkler rate:** Any service to a residential customer not exceeding two units with a meter size that has a "fire sprinkler" rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the "fire sprinkler" rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.
  
5. **Capacity Surcharge for RDV-Coast Springs:** Monthly bills with usage greater than 2 CCF and less than or equal to 6 CCF will include a monthly surcharge of \$8.00 per CCF. Monthly bills with usage at and above 7 CCF will include a monthly capacity surcharge of \$20.00 per CCF. This results in rates for **RDV-Coast Springs** customers as follows:

		<u>RDV-Coast Springs</u>	
		Quantity Rate with Surcharge	
		Included, per CCF	
For	1 – 2 CCF	\$3.8677	(I)
For	3 – 6 CCF	\$11.8677

**Schedule No. DX-1-R**  
**Dixon Tariff Area**  
**RESIDENTIAL METERED SERVICE**

**SPECIAL CONDITIONS**

1. Any service to a residential customer not exceeding two units on a lot size of 10,000 square feet or less with a meter size that has a “fire sprinkler” rate (listed above) is eligible for that rate if:

- (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes;
- (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system;
- (c) the sprinkler system is served through the meter providing residential water service; and
- (d) the customer requests the “fire sprinkler” rate. The Company may seek verification that the above criteria are met.

This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.

2. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule CAP** (Customer Assistance Program), and **Schedule AS** (Additional Surcharges and Surcredits).

3. Qualifying low-income individually metered residential customers are eligible for credits as shown on **Schedule CAP**.

4. **Water Expense Increase:** Beginning on January 1, 2026, rates in this area will reflect a 0.62% revenue increase due to increased charges for purchased power from Pacific Gas & Electric. This caused quantity rates to go up by the following amounts: \$0.0479/CCF for Tier 1 usage, \$0.1906/CCF for Tier 2 usage, \$0.2381/CCF for Tier 3 usage, and \$0.3571/CCF for Tier 4 usage. Amounts collected from these quantity rate increases will be tracked in a balancing account, as required by Section 792.5 of the Public Utilities Code. The monthly service charge for a 5/8 x 3/4-inch meter decreased by \$0.45.

**GENERAL METERED SERVICE**

SPECIAL CONDITIONS (continued)

6. Bodfish Water Service Area:

In the event that a customer terminates service under this schedule and reinstates service at the same location within 12 months, there will be a reconnection charge equal to the minimum charge which would have been billed had the customer not terminated service.

7. **Safe Drinking Water Service Fee - for New Service in Squirrel Mountain and Lakeland:** A service fee to provide for the reduction of the SDWBA (Safe Drinking Water Bond Act) loan is chargeable to customers requesting future services to vacant and undeveloped lots in the Squirrel Mountain and Lakeland areas of the Kern River Valley District.

The amount of the New Service Fee will be equal to the accumulated total of the monthly surcharge that would have been applicable to such lot from the effective date of Decision 94-07-023, until the date of the new service, up to a maximum amount of \$1,000. The aggregate of all such fees shall be credited to the balancing account. Thereafter, the SDWBA surcharge authorized by the Commission for current customers in these areas, as contained in the approved tariff schedules, will apply.

8. **Water Expense Increase:** Beginning on January 1, 2026, rates in this area will reflect a 0.71% revenue decrease due to changes to wholesale water charges by the City of Bakersfield and increased charges for purchased power from Southern California Edison. This caused quantity rates to go down by \$0.2750/CCF. Amounts collected from these quantity rate increases will be tracked in a balancing account, as required by Section 792.5 of the Public Utilities Code. SPECIAL CONDITIONS (continued)

2. **Fire sprinkler rate:** Any service to a residential customer not exceeding two units with a meter size that has a "fire sprinkler" rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the "fire sprinkler" rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.

3. **Water Expense Increase:** Beginning on January 1, 2026, rates in this area will reflect a 0.35% revenue increase due to higher charges for purchased power from Pacific Gas & Electric. This caused quantity rates to go up by the following amounts: \$0.0120/CCF for Tier 1 usage, \$0.0482/CCF for Tier 2 usage, \$0.0602/CCF for Tier 3 usage, and \$0.0903/CCF for Tier 4 usage. Amounts collected from these quantity rate increases will be tracked in a balancing account, as required by Section 792.5 of the Public Utilities Code. The monthly service charge for a 5/8 x 3/4-inch meter changed by \$0.01.

SPECIAL CONDITIONS (continued)

2. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule CAP** (Customer Assistance Program), and **Schedule AS** (Additional Surcharges and Surcredits).

3. **Fire sprinkler rate:** A single-family residence with a meter size that has a “fire sprinkler” rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the “fire sprinkler” rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.

4. **Water Expense Increase:** Beginning on January 1, 2026, rates in this area will reflect a 0.68% revenue increase due to higher charges for purchased power from Pacific Gas & Electric. This caused quantity rates to go up by the following amounts: \$0.0163/CCF for Tier 1 usage, \$0.0654/CCF for Tier 2 usage, \$0.0818/CCF for Tier 3 usage, and \$0.1227/CCF for Tier 4 usage. Amounts collected from these quantity rate increases will be tracked in a balancing account, as required by Section 792.5 of the Public Utilities Code. The monthly service charge for a 5/8 x 3/4-inch meter decreased by \$0.16.

Selma Tariff Area

RESIDENTIAL METERED SERVICE

SPECIAL CONDITIONS (continued)

3. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule CAP** (Customer Assistance Program), and **Schedule AS** (Additional Surcharges and Surcredits).

4. **Fire sprinkler rates:** A single-family residence with a meter size that has a “fire sprinkler” rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the “fire sprinkler” rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.

5. **Groundwater surcharge (Year Eleven: January 1, 2026 – December 31, 2026): \$0.2692 per CCF**

Under the Cooperative Agreement between the City of Selma and the Consolidated Irrigation District, the surcharge identified above will be applied to bills on a monthly basis. Authorized by Decision 15-03-003 and Advice Letter 2569, the collected amounts will be provided to the City of Selma for groundwater replenishment activities. The total annual groundwater fees due under the Cooperative Agreement will be increased by CPI after the first 8 years.

6. **Water Expense Increase:** Beginning on January 1, 2026, rates in this area will reflect a 2.24% revenue increase due to increased charges for purchased power from Pacific Gas & Electric. This caused quantity rates to go up by the following amounts: \$0.0268/CCF for Tier 1 usage, \$0.1075/CCF for Tier 2 usage, \$0.1344/CCF for Tier 3 usage, and \$0.2017/CCF for Tier 4 usage. Amounts collected from these quantity rate increases will be tracked in a balancing account, as required by Section 792.5 of the Public Utilities Code. The monthly service charge for a 5/8 x 3/4-inch meter changed by \$0.01.

- 3. Fire sprinkler rate: A single-family residence with a meter size that has a “fire sprinkler” rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the “fire sprinkler” rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.
- 4. **Water Expense Increase:** Beginning on January 1, 2026, rates in this area will reflect a 0.42% revenue increase due to higher pump taxes by the City of Visalia and increased charges for purchased power from Southern California Edison. This caused quantity rates to go up by the following amounts: \$0.0026/CCF for Tier 1 usage, \$0.0102/CCF for Tier 2 usage, \$0.0127/CCF for Tier 3 usage, and \$0.0192/CCF for Tier 4 usage. Amounts collected from these quantity rate increases will be tracked in a balancing account, as required by Section 792.5 of the Public Utilities Code. The monthly service charge for a 5/8 x 3/4-inch meter changed by \$0.02.

#### NOTICE OF PROPOSED RATE CHANGE BEFORE THE CALIFORNIA PUBLIC UTILITIES COMMISSION (CPUC)

Beginning January 1, 2026, the water bills of California Water Service (Cal Water) customers in the Bay Area Region will reflect a pass-through of higher wholesale water charges by the San Francisco Public Utilities Commission (SFPUC) and increased charges for purchased power from Pacific Gas & Electric, incurred by the company. The California Public Utilities Commission (CPUC), the state agency that regulates Cal Water, has determined that expenses for wholesale water and purchased power are not under the company's control, and that a pass-through of those costs to customers is just and reasonable if properly calculated. Cal Water is also requesting to change rates for costs associated with completed infrastructure projects previously authorized by the CPUC in Decision 24-03-042.

On or around November 21, 2025, Cal Water will file Advice Letter 2570 to request authority to increase its annual revenue in the Bay Area Region by \$1,467,884, or 1.2%. Pending the CPUC's review of Cal Water's calculations, the increase will be effective on January 1, 2026. With the increase, a typical monthly bill for a Bay Area Region residential customer with a 5/8" x 3/4" meter who uses 6 CCF of water (which is 600 cubic feet, or approximately 4,488 gallons) per month will increase by \$0.37, or 0.7%.

On or around November 21, 2025, Cal Water will file Advice Letter 2571 requesting authority to increase revenues to recover recently completed and previously authorized infrastructure improvements. In the advice letter, Cal Water requests additional revenue of \$101,174, or 0.08% of currently authorized revenue. If approved, effective January 1, 2026, the water bill of a Bay Area Region residential customer with 6 CCF of monthly water usage would increase by approximately \$0.06, or 0.1%. Although previously authorized by the CPUC in Decision 24-03-042 as part of the utility's triennial rate review process, the project's cost could only be

recovered through a rate increase after it was completed.

A copy of Advice Letters 2570 and 2571 will be available on the internet at <https://www.calwater.com/rates-advice-letters/> (for Bayshore - please select the Bayshore (Bay Area Region) district from the drop-down menu or for Redwood Valley - please select the Redwood Valley (Bay Area Region) district from the drop-down menu), and may also be obtained from the company's Bayshore district local office by calling (650) 558-7800 or Redwood Valley district local office by calling (707) 274-6624. You may also contact the company's headquarters by mailing the Rates Department at 1720 North First Street, San Jose, California 95112-4598, or by calling (408) 367-8200 and asking for the Rates Department.

Cal Water offers many programs to help you manage your water bill including a Customer Assistance Program (CAP), (formerly, low-income ratepayer assistance program (LIRA)), water conserving appliance rebates, and other conservation programs. Please visit our website at [www.calwater.com](http://www.calwater.com) to take advantage of these opportunities.

**Protests and Responses.** Anyone may respond to or protest this filing. A response supports the filing and may contain information that proves useful to the Commission in its evaluation. A protest objects to the filing in whole or in part and must set forth the specific grounds on which it is based, and shall provide citations or proof where available to allow Commission staff to properly consider the protest. The grounds for protests are:

1. The utility did not properly serve or give notice of the filing.
2. The relief requested in the filing would violate statute or Commission order; or is not authorized by statute or Commission order on which the utility relies.
3. The analysis, calculations, or data in the filing contains material error or omissions.
4. The relief requested in the filing is pending before the Commission in a formal proceeding, or

5. The relief requested in the filing requires consideration in a formal hearing, or is otherwise inappropriate for the filing process, or
6. The relief requested in the filing is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the Commission).

A response or protest must be made in writing and received by the Commission's Water Division by December 16, 2025, the end of the comment period. The response or protest should be sent to the CPUC (by email to [water.division@cpuc.ca.gov](mailto:water.division@cpuc.ca.gov), or by mail to the Tariff Unit, Water Division, 3<sup>rd</sup> Floor, CPUC, 505 Van Ness Avenue, San Francisco, CA 94102) and to Cal Water (by email to [cwsrates@calwater.com](mailto:cwsrates@calwater.com), or by mail to the Rates Department, California Water Service Company, 1720 N. 1<sup>st</sup> Street, San Jose, CA 95112).

#### NOTICE OF PROPOSED RATE CHANGE BEFORE THE CALIFORNIA PUBLIC UTILITIES COMMISSION (CPUC)

Beginning January 1, 2026, the water bills of California Water Service (Cal Water) customers in the Bay Area Region will reflect a pass-through of higher wholesale water charges by the San Francisco Public Utilities Commission (SFPUC) and increased charges for purchased power from Pacific Gas & Electric, incurred by the company. The California Public Utilities Commission (CPUC), the state agency that regulates Cal Water, has determined that expenses for wholesale water and purchased power are not under the company's control, and that a pass-through of those costs to customers is just and reasonable if properly calculated. Cal Water is also requesting to change rates for costs associated with completed infrastructure projects previously authorized by the CPUC in Decision 24-03-042.

On or around November 21, 2025, Cal Water will file Advice Letter 2570 to request authority to increase its annual revenue in the Bay Area Region by \$1,467,884, or 1.2%. Pending the CPUC's review of Cal Water's calculations, the increase will be effective on January 1, 2026. With the increase, a typical monthly bill for a Bay Area Region residential customer in the Coast Springs area with a 5/8" x 3/4" meter who uses 1 CCF of water (which is 100 cubic feet, or approximately 748 gallons) per month will increase by \$0.06, or 0.2%.

On or around November 21, 2025, Cal Water will file Advice Letter 2571 requesting authority to increase revenues to recover recently completed and previously authorized infrastructure improvements. In the advice letter, Cal Water requests additional revenue of \$101,174, or 0.08% of currently authorized revenue. If approved, effective January 1, 2026, the water bill of a Bay Area Region residential customer in the Coast Springs area with 1 CCF of monthly water usage would increase

by approximately \$0.05, or 0.2%. Although previously authorized by the CPUC in Decision 24-03-042 as part of the utility's triennial rate review process, the project's cost could only be recovered through a rate increase after it was completed.

A copy of Advice Letters 2570 and 2571 will be available on the internet at <https://www.calwater.com/rates-advice-letters/> (please select the Redwood Valley (Bay Area Region) district from the drop-down menu), and may also be obtained from the company's Redwood Valley district local office by calling (707) 274-6624. You may also contact the company's headquarters by mailing the Rates Department at 1720 North First Street, San Jose, California 95112-4598, or by calling (800) 220-4299 and asking for the Rates Department.

Cal Water offers many programs to help you manage your water bill including a Customer Assistance Program (CAP), (formerly, low-income ratepayer assistance program (LIRA)), water conserving appliance rebates, and other conservation programs. Please visit our website at [www.calwater.com](http://www.calwater.com) to take advantage of these opportunities.

Protests and Responses. Anyone may respond to or protest this filing. A response supports the filing and may contain information that proves useful to the Commission in its evaluation. A protest objects to the filing in whole or in part and must set forth the specific grounds on which it is based, and shall provide citations or proof where available to allow Commission staff to properly consider the protest. The grounds for protests are:

1. The utility did not properly serve or give notice of the filing.
2. The relief requested in the filing would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies.
3. The analysis, calculations, or data in the filing contains material error or omissions.

4. The relief requested in the filing is pending before the Commission in a formal proceeding, or
5. The relief requested in the filing requires consideration in a formal hearing, or is otherwise inappropriate for the filing process, or
6. The relief requested in the filing is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the Commission).

A response or protest must be made in writing and received by the Commission's Water Division by December 16, 2025, the end of the comment period. The response or protest should be sent to the CPUC (by email to [water.division@cpuc.ca.gov](mailto:water.division@cpuc.ca.gov), or by mail to the Tariff Unit, Water Division, 3<sup>rd</sup> Floor, CPUC, 505 Van Ness Avenue, San Francisco, CA 94102) and to Cal Water (by email to [cwsrates@calwater.com](mailto:cwsrates@calwater.com), or by mail to the Rates Department, California Water Service Company, 1720 N. 1<sup>st</sup> Street, San Jose, CA 95112). On or around November 21, 2025, Cal Water will file Advice Letter 2570 to request authority to increase its annual revenue in the Bear Gulch District by \$887,342, or 1.14%. Pending the CPUC's review of Cal Water's calculations, the increase will be effective on January 1, 2026. With the increase, a typical monthly bill for a Bear Gulch residential customer with a 5/8" x 3/4" meter who uses 8 CCF of water (which is 800 cubic feet, or approximately 5,984 gallons) per month will increase by \$0.62, or 0.8%.

On or around November 21, 2025, Cal Water will file Advice Letter 2571 requesting authority to increase revenues to recover recently completed and previously authorized infrastructure improvements. In the advice letter, Cal Water requests additional revenue of \$800,394, or 1.02% of currently authorized revenue. If approved, effective January 1, 2026, the water bill of a Bear Gulch District residential customer with 8 CCF of monthly water usage would increase by approximately \$1.00, or 1.24%. Although previously authorized by the CPUC in Decision 24-03-042 as part of the utility's triennial rate review process, the project's cost could only be recovered through a rate increase after it was completed.

#### NOTICE OF PROPOSED RATE CHANGE BEFORE THE CALIFORNIA PUBLIC UTILITIES COMMISSION (CPUC)

Beginning January 1, 2025, the water bills of California Water Service (Cal Water) customers in the Bakersfield District will reflect a pass-through of higher wholesale water charges and pump taxes by the Kern County Water Agency, lower wholesale water charges by the City of Bakersfield, and increased charges for purchased power from Pacific Gas & Electric, incurred by the company. The California Public Utilities Commission (CPUC), the state agency that regulates Cal Water, has determined that expenses for wholesale water, pump taxes, and purchased power are not under the company's control, and that a pass-through of those costs to customers is just and reasonable if properly calculated. On or around November 21, 2025, Cal Water will file Advice Letter 2570 to request authority to increase its annual revenue in the Bakersfield District by \$2,947,185, or 2.8%. Pending the CPUC's review of Cal Water's calculations, the rate will be effective on January 1, 2025. With the increase, a typical monthly bill for a Bakersfield residential customer with a 5/8" x 3/4" meter who uses 12 CCF of water (which is 1,200 cubic feet, or approximately 8,976 gallons) per month will increase by \$1.02, or 2.0%.

A copy of Advice Letter 2570 will be available on the internet at <https://www.calwater.com/rates-advice-letters/> (please select the Bakersfield District from the drop-down menu), and may also be obtained from the company's local offices by calling (661) 837-7200. ### NOTICE OF PROPOSED RATE CHANGE BEFORE THE CALIFORNIA PUBLIC UTILITIES COMMISSION (CPUC)

Beginning January 1, 2026, the water bills of California Water Service (Cal Water) customers in the North Valley Region's Chico area will reflect a pass-through of lower wholesale water charges by the County of Butte and increased charges for purchased power from Pacific Gas & Electric, incurred by the company. The California Public Utilities Commission (CPUC), the state agency that regulates Cal Water, has determined that expenses for wholesale water and purchased power are not under the company's control, and that a pass-through of those costs to customers is just and reasonable if properly calculated. Cal Water is also requesting to change rates for costs associated with completed infrastructure projects previously authorized by the CPUC in Decision 24-03-042.

On or around November 21, 2025, Cal Water will file Advice Letter 2570 to request authority to increase its annual revenue in the North Valley Region by \$375,530, or 0.9%. Pending the CPUC's review of Cal Water's calculations, the rate will be effective on January 1, 2026. With the increase, a typical monthly bill for a Chico residential customer with a 5/8" x 3/4" meter who uses 8 CCF of water (which is 800 cubic feet, or approximately 5,984 gallons) per month will increase by \$0.12, or 0.4%.

On or around November 21, 2025, Cal Water will file Advice Letter 2571 requesting authority to increase revenues to recover recently completed and previously authorized infrastructure improvements. In the advice letter, Cal Water requests additional revenue of \$93,441, or 0.2% of currently authorized revenue. If approved, effective January 1, 2026, the water bill of a Chico residential customer with a 5/8" x 3/4" meter who uses 8 CCF of water per month will increase by approximately \$0.09, or 0.3%. Although previously authorized by the CPUC in Decision 24-03-042 as part of the utility's triennial rate review process, the project's cost could only be recovered through a rate increase after it was completed.

A copy of Advice Letters 2570 and 2571 will be available on the internet at <https://www.calwater.com/rates-advice-letters/> (please select the Chico District from the drop-down menu), and may also be obtained from the company's local offices by calling (530) 893-6300. You may also contact the company's headquarters by mailing the Rates Department at 1720 North First Street, San Jose, California 95112-4598, or by calling (408) 367-8200 and asking for the Rates Department.

Cal Water offers many programs to help you manage your water bill including a customer assistance program (CAP, formerly the low-income ratepayer assistance program or LIRA), water conserving appliance rebates, and other conservation programs. Please visit our website at [www.calwater.com](http://www.calwater.com) to take advantage of these opportunities.

Protests and Responses. Anyone may respond to or protest this filing. A response supports the filing and may contain information that proves useful to the Commission in its evaluation. A protest objects to the filing in whole or in part and must set forth the specific grounds on which it is based, and shall provide citations or proof where available to allow Commission staff to properly consider the protest. The grounds for protests are:

1. The utility did not properly serve or give notice of the filing.
2. The relief requested in the filing would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies.
3. The analysis, calculations, or data in the filing contains material error or omissions.
4. The relief requested in the filing is pending before the Commission in a formal proceeding, or
5. The relief requested in the filing requires consideration in a formal hearing, or is otherwise inappropriate for the filing process, or
6. The relief requested in the filing is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the Commission).

A response or protest must be made in writing and received by the Commission's Water Division by December 16, 2025, the end of the comment period. The response or protest should be sent to the CPUC (by email to [water.division@cpuc.ca.gov](mailto:water.division@cpuc.ca.gov), or by mail to the Tariff Unit, Water Division, 3<sup>rd</sup> Floor, CPUC, 505 Van Ness Avenue, San Francisco, CA 94102) and to Cal Water (by email to [cwsrates@calwater.com](mailto:cwsrates@calwater.com), or by mail to the Rates Department, California Water Service Company, 1720 N. 1<sup>st</sup> Street, San Jose, CA 95112).

#### NOTICE OF PROPOSED RATE CHANGE BEFORE THE CALIFORNIA PUBLIC UTILITIES COMMISSION (CPUC)

Beginning January 1, 2025, the water bills of California Water Service (Cal Water) customers in the Dixon District will reflect a pass-through of increase charges for purchased power from Pacific Gas & Electric, incurred by the company. The California Public Utilities Commission (CPUC), the state agency that regulates Cal Water, has determined that expenses for purchased power are not under the company's control, and that a pass-through of those costs to customers is just and reasonable if properly calculated.

On or around November 21, 2025, Cal Water will file Advice Letter 2570 to request authority to increase its annual revenue in the Dixon District by \$45,481, or 0.6%. Pending the CPUC's review of Cal Water's calculations, the rate will be effective on January 1, 2026. With the increase, a typical monthly bill for a Dixon residential customer with a 5/8" x 3/4" meter who uses 7 CCF of water (which is 700 cubic feet, or approximately 5,236 gallons) per month will increase by \$0.03, or 0.04%.

A copy of Advice Letter 2570 will be available on the internet at <https://www.calwater.com/rates-advice-letters/> (please select the Dixon District from the drop-down menu) and may also be obtained from the company's local offices by calling (707) 678-5928.

You may also contact the company's headquarters by mailing the Rates Department at 1720 North First Street, San Jose, California 95112-4598, or by calling (408) 367-8200 and asking for the Rates Department.

Cal Water offers many programs to help you manage your water bill including a customer assistance program (CAP, formerly the low-income ratepayer assistance program or LIRA), water conserving appliance rebates and other conservation programs. A protest objects to the filing in whole or in part and must set forth the specific grounds on which it is based, and shall provide citations or proof where available to allow Commission staff to properly consider the protest. The grounds for protests are:

1. The utility did not properly serve or give notice of the filing.
2. The relief requested in the filing would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies.
3. The analysis, calculations, or data in the filing contains material error or omissions.
4. The relief requested in the filing is pending before the Commission in a formal proceeding, or

#### NOTICE OF PROPOSED RATE CHANGE BEFORE THE CALIFORNIA PUBLIC UTILITIES COMMISSION (CPUC)

Beginning January 1, 2026, the water bills of California Water Service (Cal Water) customers in the East Los Angeles District will reflect a pass-through of higher wholesale water charges by the Central Basin Municipal Water District and increased charges for purchased power from Southern California Edison, incurred by the company. The California Public Utilities Commission (CPUC), the state agency that regulates Cal Water, has determined that expenses for wholesale water and purchased power are not under the company's control, and that a pass-through of those costs to customers is just and reasonable if properly calculated. On or around November 21, 2025, Cal Water will file Advice Letter 2570 to request authority to increase its annual revenue in the East Los Angeles District by \$495,562, or 1.1%. Pending the CPUC's review of Cal Water's calculations, the rate will be effective on January 1, 2026. With the increase, a typical monthly bill for an East Los Angeles residential customer with a 5/8" x 3/4" meter who uses 8 CCF of water (which is 800 cubic feet, or approximately 5,984 gallons) per month will increase by \$0.46, or 0.8%.

A copy of Advice Letter 2570 will be available on the internet at <https://www.calwater.com/rates-advice-letters/> (please select the East Los Angeles District from the drop-down menu), and may also be obtained from the company's local offices by calling (323) 722-8601. #### NOTICE OF PROPOSED RATE CHANGE BEFORE THE CALIFORNIA PUBLIC UTILITIES COMMISSION (CPUC)

Beginning January 1, 2025, the water bills of California Water Service (Cal Water) customers in the Kern River Valley District will reflect a pass-through of changes to wholesale water charges by the City of Bakersfield and charges for purchased power from Southern California Edison, incurred by the company. The California Public Utilities Commission (CPUC), the state agency that regulates Cal Water, has determined that expenses for wholesale water and purchased power are not under the company's control, and that a pass-through of those costs to customers is just and reasonable if properly calculated. On or around November 21, 2025, Cal Water will file Advice Letter 2570 to request authority to decrease its annual revenue in the Kern River Valley District by \$57,545, or -0.7%. Pending the CPUC's review of Cal Water's calculations, the rate will be effective on January 1, 2026. With the decrease, a typical monthly bill for Kern River Valley residential customer with a 5/8" x 3/4" meter who uses 3 CCF of water (which is 300 cubic feet, or approximately 2,244 gallons) per month will increase by \$0.04, or 0.1%. A copy of Advice Letter 2570 will be available on the internet at <https://www.calwater.com/rates-advice-letters/> (please select the Kern River Valley District from the drop-down menu), and may also be obtained from the company's local offices by calling (760) 379-5336. You may also contact the company's headquarters by mailing the Rates Department at 1720 North First Street, San Jose, California 95112-4598, or by calling (408) 367-8200 and asking for the Rates Department. #### NOTICE OF PROPOSED RATE CHANGE BEFORE THE CALIFORNIA PUBLIC UTILITIES COMMISSION (CPUC)

Beginning January 1, 2026, the water bills of California Water Service (Cal Water) customers in the Los Angeles County Region's Antelope Valley area will reflect a pass-through of higher wholesale water charges by the West Basin Municipal Water District and lower charges for purchased power from Southern California Edison, incurred by the company. The California Public Utilities Commission (CPUC), the state agency that regulates utilities, has determined that expenses for wholesale water and purchased power are not under the company's control, and that a pass-through of those costs to customers is just and reasonable if properly calculated.

On or around November 21, 2025, Cal Water will file Advice Letter 2570 to request authority to increase its annual revenue in the Los Angeles County Region by \$2,128,414, or 3.1%. Pending the CPUC's review of Cal Water's calculations, the rate will be effective on January 1, 2026. With the increase, a typical monthly bill for an Antelope Valley residential customer with a 5/8" x 3/4" meter who uses 7 CCF of water (which is 700 cubic feet, or approximately 5,236 gallons) per month will increase by \$0.52, or 1.1%. A copy of Advice Letter 2570 will be available on the internet at <https://www.calwater.com/rates-advice-letters/> (please select the Antelope Valley (Los Angeles County Region) District from the drop-down menu), and may also be obtained from the company's local offices by calling (661) 943-9001 (Antelope Valley). You may also contact the company's headquarters by mailing the Rates Department at 1720 North First Street, San Jose, California 95112-4598, or by calling (408) 367-8200 and asking for the Rates Department.

With the increase, a typical monthly bill for a Palos Verdes residential customer with a 5/8" x 3/4" meter who uses 11 CCF of water (which is 1,100 cubic feet, or approximately 8,228 gallons) per month will increase by \$1.78, or 1.8%.

A copy of Advice Letter 2570 will be available on the internet at <https://www.calwater.com/rates-advice-letters/> (please select the Rancho Dominguez (Palos Verdes - LAR) District from the drop-down menu), and may also be obtained from the company's local offices by calling (310) 257-1400 (Rancho Dominguez). You may also contact the company's headquarters by mailing the Rates Department at 1720 North First Street, San Jose, California 95112-4598, or by calling (408) 367-8200 and asking for the Rates Department.

Cal Water offers many programs to help you manage your water bill including a customer assistance program (CAP, formerly the low-income ratepayer assistance program or LIRA), water conserving appliance rebates, and other conservation programs. Please visit our website at [www.calwater.com](http://www.calwater.com) to take advantage of these opportunities.

Protests and Responses. Anyone may respond to or protest this filing. A response supports the filing and may contain information that proves useful to the Commission in its

evaluation. A protest objects to the filing in whole or in part and must set forth the specific grounds on which it is based, and shall provide citations or proof where available to allow Commission staff to properly consider the protest. The grounds for protests are:

1. The utility did not properly serve or give notice of the filing.
2. The relief requested in the filing would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies.
3. The analysis, calculations, or data in the filing contains material error or omissions.
4. The relief requested in the filing is pending before the Commission in a formal proceeding, or
5. The relief requested in the filing requires consideration in a formal hearing, or is otherwise inappropriate for the filing process, or
6. The relief requested in the filing is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the Commission).

A response or protest must be made in writing and received by the Commission's Water Division by December 16, 2025, the end of the comment period. The response or protest should be sent to the CPUC (by email to [water.division@cpuc.ca.gov](mailto:water.division@cpuc.ca.gov), or by mail to the Tariff Unit, Water Division, 3<sup>rd</sup> Floor, CPUC, 505 Van Ness Avenue, San Francisco, CA 94102) and to Cal Water (by email to [cwsrates@calwater.com](mailto:cwsrates@calwater.com), or by mail to the Rates Department, California Water Service Company, 1720 N. 1<sup>st</sup> Street, San Jose, CA 95112).

### NOTICE OF PROPOSED RATE CHANGE BEFORE THE CALIFORNIA PUBLIC UTILITIES COMMISSION (CPUC)

Beginning January 1, 2026, the water bills of California Water Service (Cal Water) customers in the Los Altos District will reflect a pass-through of higher charges for purchased power from Pacific Gas & Electric, incurred by the company. The California Public Utilities Commission (CPUC) has determined that expenses for purchased power are not under the company's control, and that a pass-through of those costs to customers is just and reasonable if properly calculated. Cal Water is also requesting to change rates for costs associated with infrastructure projects previously authorized by the CPUC in Decision 24-03-042.

On or around November 21, 2025, Cal Water will file Advice Letter 2570 to request authority to increase its annual revenue by \$224,193, or 0.4%. Pending the CPUC's review of Cal Water's calculations, the increase will be effective on January 1, 2026. With the increase, a typical monthly bill for a Los Altos residential customer with a 5/8" x 3/4" meter who uses 9 CCF (which is 900 cubic feet or 6,732 gallons) of water per month will increase by \$0.23, or 0.3%.

On or around November 21, 2025, Cal Water will file Advice Letter 2571 requesting authority to increase revenues to recover recently completed and previously authorized infrastructure improvements. In the advice letter, Cal Water requests additional revenue of \$45,880, or 0.07% of currently authorized revenue. If approved, effective January 1, 2026, the water bill of a Los Altos District residential customer with 9 CCF (approximately 6,732 gallons) of monthly water usage would increase by approximately \$0.08, or 0.09%. Although previously authorized by the CPUC in Decision 24-03-042 as part of the utility's triennial rate review process, the project's cost could only be recovered through a rate increase after it was completed.

A copy of Advice Letters 2570 and 2571 will be

available on the internet at <https://www.calwater.com/rates-advice-letters/> (please select Los Altos Suburban from the drop-down menu), and may also be obtained from the company's local offices by calling (650) 917-0152. You may also contact the company's headquarters by mailing the Rates Department at 1720 North First Street, San Jose, California 95112-4598, or by calling (408) 367-8200 and asking for the Rates Department.

### NOTICE OF PROPOSED RATE CHANGE BEFORE THE CALIFORNIA PUBLIC UTILITIES COMMISSION (CPUC)

Beginning January 1, 2026, the water bills of California Water Service (Cal Water) customers in the Livermore District will reflect a pass-through of higher wholesale water charges by the Zone 7 Water Agency and increased charges for purchased power from Pacific Gas & Electric, incurred by the company. The California Public Utilities Commission (CPUC), the state agency that regulates Cal Water, has determined that expenses for wholesale water and purchased power are not under the company's control, and that a pass-through of those costs to customers is just and reasonable if properly calculated.

On or around November 21, 2025, Cal Water will file Advice Letter 2570 to request authority to increase its annual revenue in the Livermore District by \$400,810, or 1.3%. Pending the CPUC's review of Cal Water's calculations, the rate will be effective on January 1, 2026. With the increase, a typical monthly bill for a Livermore residential customer with a 5/8" x 3/4" meter who uses 8 CCF of water (which is 800 cubic feet, or approximately 5,984 gallons) per month will increase by \$0.51, or 0.9%. A copy of Advice Letter 2570 will be available on the internet at <https://www.calwater.com/rates-advice-letters/> (please select the Livermore District from the drop-down menu), and may also be obtained from the company's local offices by calling (925) 447-4900. You may also contact the company's headquarters by mailing the Rates Department at 1720 North First Street, San Jose, California 95112-4598, or by calling (408) 367-8200 and asking for the Rates Department.

### NOTICE OF PROPOSED RATE CHANGE BEFORE THE CALIFORNIA PUBLIC UTILITIES COMMISSION (CPUC)

Beginning January 1, 2026, the water bills of California Water Service (Cal Water) customers in the Marysville District will reflect a pass-through of higher charges for purchased power from Pacific Gas & Electric, incurred by the company. The California Public Utilities Commission (CPUC), the state agency that regulates Cal Water, has determined that expenses for purchased power are not under the company's control, and that a pass-through of those costs to customers is just and reasonable if properly calculated.

On or around November 21, 2025, Cal Water will file Advice Letter 2570 to request authority to increase its annual revenue in the Marysville District by \$36,665, or 0.7%. Pending the CPUC's review of Cal Water's calculations, the rate will be effective on January 1, 2026. With the increase, a typical monthly bill for a Marysville residential customer with a 5/8" x 3/4" meter who uses 7 CCF of water (which is 700 cubic feet, or approximately 5,236 gallons) per month will increase by \$0.003, or 0.01%.

A copy of Advice Letter 2570 will be available on the internet at <https://www.calwater.com/rates-advice-letters/> (please select the Marysville District from the dropdown menu), and may also be obtained from the company's local offices by calling (530) 742-6911. You may also contact the company's headquarters by mailing the Rates Department at 1720 North First Street, San Jose, California 95112-4598, or by calling (408) 367-8200 and asking for the Rates Department.

#### NOTICE OF PROPOSED RATE CHANGE BEFORE THE CALIFORNIA PUBLIC UTILITIES COMMISSION (CPUC)

Beginning January 1, 2026, the water bills of California Water Service (Cal Water) customers in the North Valley Region's Oroville area will reflect a pass-through of lower wholesale water charges by the County of Butte and increased charges for purchased power from Pacific Gas & Electric, incurred by the company. The California Public Utilities Commission (CPUC), the state agency that regulates Cal Water, has determined that expenses for wholesale water and purchased power are not under the company's control, and that a pass-through of those costs to customers is just and reasonable if properly calculated. Cal Water is also requesting to change rates for costs associated with completed infrastructure projects previously authorized by the CPUC in Decision 24-03-042.

On or around November 21, 2025, Cal Water will file Advice Letter 2570 to request authority to increase its annual revenue in the North Valley Region by \$375,530, or 0.9%. Pending the CPUC's review of Cal Water's calculations, the rate will be effective on January 1, 2026. With the increase, a typical monthly bill for an Oroville residential customer with a 5/8" x 3/4" meter who uses 6 CCF of water (which is 600 cubic feet, or approximately 4,488 gallons) per month will increase by \$0.05, or 0.1%.

On or around November 21, 2025, Cal Water will file Advice Letter 2571 requesting authority to increase revenues to recover recently completed and previously authorized infrastructure improvements. In the advice letter, Cal Water requests additional revenue of \$93,441, or 0.2% of currently authorized revenue. If approved, effective January 1, 2026, the water bill of an Oroville residential customer with a 5/8" x 3/4" meter who uses 6 CCF of water per month will increase by approximately \$0.08, or 0.2%. Although previously authorized by the CPUC in Decision 24-03-042 as part of the utility's triennial rate review process, the project's cost could only be recovered through a rate increase after it was completed.

A copy of Advice Letters 2570 and 2571 will be available on the internet at <https://www.calwater.com/rates-advice-letters/> (please select the Oroville District from the drop-down menu), and may also be obtained from the company's local offices by calling (530) 533-4034. You may also contact the company's headquarters by mailing the Rates Department at 1720 North First Street, San Jose, California 95112-4598, or by calling (408) 367-8200 and asking for the Rates Department. Cal Water offers many programs to help you manage your water bill including a customer assistance program (CAP, formerly the low-income ratepayer assistance program or LIRA), water conserving appliance rebates, and other conservation programs. Please visit our website at [www.calwater.com](http://www.calwater.com) to take advantage of these opportunities.

Protests and Responses. Anyone may respond to or protest this filing. A response supports the filing and may contain information that proves useful to the Commission in its evaluation. A protest objects to the filing in whole or in part

and must set forth the specific grounds on which it is based, and shall provide citations or proof where available to allow Commission staff to properly consider the protest. The grounds for protests are:

1. The utility did not properly serve or give notice of the filing.
2. The relief requested in the filing would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies.
3. The analysis, calculations, or data in the filing contains material error or omissions.
4. The relief requested in the filing is pending before the Commission in a formal proceeding, or
5. The relief requested in the filing requires consideration in a formal hearing, or is otherwise inappropriate for the filing process, or
6. The relief requested in the filing is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the Commission).

A response or protest must be made in writing and received by the Commission's Water Division by December 16, 2025, the end of the comment period. The response or protest should be sent to the CPUC (by email to [water.division@cpuc.ca.gov](mailto:water.division@cpuc.ca.gov), or by mail to the Tariff Unit, Water Division, 3<sup>rd</sup> Floor, CPUC, 505 Van Ness Avenue, San Francisco, CA 94102) and to Cal Water (by email to [cwsrates@calwater.com](mailto:cwsrates@calwater.com), or by mail to the Rates Department, California Water Service Company, 1720 N. 1<sup>st</sup> Street, San Jose, CA 95112.

#### NOTICE OF PROPOSED RATE CHANGE BEFORE THE CALIFORNIA PUBLIC UTILITIES COMMISSION (CPUC)

Beginning January 1, 2026, the water bills of California Water Service (Cal Water) customers in the South Bay Region's Dominguez area will reflect a pass-through of higher wholesale water charges by the West Basin Municipal Water District and increased charges for purchased power from Southern California Edison, incurred by the company. The California Public Utilities Commission (CPUC), the state agency that regulates Cal Water, has determined that expenses for wholesale water and purchased power are not under the company's control, and that a pass-through of those costs to customers is just and reasonable if properly calculated. Cal Water is also requesting to change rates for costs associated with completed infrastructure projects previously authorized by the CPUC in Decision 24-03-042.

On or around November 21, 2025, Cal Water will file Advice Letter 2570 to request authority to increase its annual revenue in the South Bay Region by \$4,333,357, or 3.1%. Pending the CPUC's review of Cal Water's calculations, the rate increase will be effective on January 1, 2026. With the increase, a typical monthly bill for a Dominguez residential customer with a 5/8" x 3/4" meter who uses 7 CCF of water (which is 700 cubic feet, or approximately 5,236 gallons) per month will increase by \$0.53, or 1.1%.

On or around November 21, 2025, Cal Water will file Advice Letter 2571 requesting authority to increase revenues to recover recently completed and previously authorized infrastructure improvements. In the advice letter, Cal Water requests additional revenue of \$444,461, or 0.3% of currently authorized revenue. If approved, effective January 1, 2026, the water bill for a Dominguez residential customer with a 5/8" x 3/4" meter who uses 7 CCF of water per month will increase by \$0.24, or 0.5%. Although previously authorized by the CPUC in Decision 24-03-042 as part of the utility's triennial rate review process, the project's cost could only be recovered through a rate increase after it was completed.

A copy of Advice Letters 2570 and 2571 will be available on the internet at <https://www.calwater.com/rates-advice-letters/> (please select the

Rancho Dominguez District from the drop-down menu), and may also be obtained from the company's local offices by calling (310) 257-1400. ### NOTICE OF PROPOSED RATE CHANGE BEFORE THE CALIFORNIA PUBLIC UTILITIES COMMISSION (CPUC)

Beginning January 1, 2026, the water bills of California Water Service (Cal Water) customers in the South Bay Region's Hermosa-Redondo area will reflect a pass-through of higher wholesale water charges by the West Basin Municipal Water District and increased charges for purchased power from Southern California Edison, incurred by the company. The California Public Utilities Commission (CPUC), the state agency that regulates Cal Water, has determined that expenses for wholesale water and purchased power are not under the company's control, and that a pass-through of those costs to customers is just and reasonable if properly calculated. #### NOTICE OF PROPOSED RATE CHANGE BEFORE THE CALIFORNIA PUBLIC UTILITIES

#### COMMISSION (CPUC)

Beginning January 1, 2026, the water bills of California Water Service (Cal Water) customers in the Selma District will reflect a pass-through of increased charges for purchased power from Pacific Gas & Electric, incurred by the company. The California Public Utilities Commission (CPUC), the state agency that regulates Cal Water, has determined that expenses for purchased power are not under the company's control, and that a pass-through of those costs to customers is just and reasonable if properly calculated.

On or around November 21, 2025, Cal Water will file Advice Letter 2570 to request authority to increase its annual revenue in the Selma District by \$140,192, or 2.2%. Pending the CPUC's review of Cal Water's calculations, the rate will be effective on January 1, 2026. With the increase, a typical monthly bill for a Selma residential customer with a 5/8" x 3/4" meter who uses 12 CCF of water (which is 1,200 cubic feet, or approximately 8,976 gallons) per month will increase by \$0.82, or 1.8%.

A copy of Advice Letter 2570 will be available on the internet at <https://www.calwater.com/rates-advice-letters/> (please select the Selma District from the drop-down menu), and may also be obtained from the company's local offices by calling (559) 896-4546. You may also

contact the company's headquarters by mailing the Rates Department at 1720 North First Street, San Jose, California 95112-4598, or by calling (408) 367-8200 and asking for the Rates Department.

Cal Water offers many programs to help you manage your water bill including a customer assistance program (CAP, formerly the low-income ratepayer assistance program or LIRA), water conserving appliance rebates, and other conservation programs. The grounds for protests are:

1. The utility did not properly serve or give notice of the filing.
2. The relief requested in the filing would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies.
3. The analysis, calculations, or data in the filing contains material error or omissions.
4. The relief requested in the filing is pending

#### NOTICE OF PROPOSED RATE CHANGE BEFORE THE CALIFORNIA PUBLIC UTILITIES COMMISSION (CPUC)

Beginning January 1, 2026, the water bills of California Water Service (Cal Water) customers in the Stockton District will reflect a pass-through of increased charges for purchased power from Pacific Gas & Electric, incurred by the company. The California Public Utilities Commission (CPUC), the state agency that regulates Cal Water, has determined that expenses for purchased power are not under the company's control, and that a pass-through of those costs to customers is just and reasonable if properly calculated.

On or around November 21, 2025, Cal Water will file Advice Letter 2570 to request authority to increase its annual revenue in the Stockton District by \$31,421, or 0.05%. Pending the CPUC's review of Cal Water's calculations, the rate will be effective on January 1, 2026. With the increase, a typical monthly bill for a Stockton residential customer with a 5/8" x 3/4" meter who uses 7 CCF of water (which is 700 cubic feet, or approximately 5,236 gallons) per month will increase by \$0.03, or 0.05%.

A copy of Advice Letter 2570 will be available on the internet at <https://www.calwater.com/rates-advice-letters/> (please select the Stockton District from the drop-down menu), and may also be obtained from the company's local offices by calling (209) 547-7900. You may also contact the company's headquarters by mailing the Rates Department at 1720 North First Street, San Jose, California 95112-4598, or by calling (408) 367-8200 and asking for the Rates Department.

Cal Water offers many programs to help you manage your water bill including a customer assistance program (CAP, formerly the low-income ratepayer assistance program or LIRA), water conserving appliance rebates, and other conservation programs. Please visit our website at [www.calwater.com](http://www.calwater.com) to take advantage of these opportunities.

Protests and Responses. Anyone may respond to or protest this filing. A response supports the filing and may contain information that proves useful to the Commission in its evaluation. A protest objects to the filing in whole or in part and must set forth the specific grounds on which it is based, and shall provide citations or proof where available to allow Commission staff to properly consider the protest. The grounds for protests are:

1. The utility did not properly serve or give notice of the filing.
2. The relief requested in the filing would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies.
3. The analysis, calculations, or data in the filing contains material error or omissions.
4. The relief requested in the filing is pending before the Commission in a formal proceeding, or
5. The relief requested in the filing requires consideration in a formal hearing, or is

\* A 0 0 0 0 0 7 2 5 2 1 7 6 \*

otherwise inappropriate for the filing process, or  
6. The relief requested in the filing is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the Commission).

A response or protest must be made in writing and received by the Commission's Water Division December 16, 2025, the end of the comment period. The response or protest should be sent to the CPUC (by email to [water.division@cpuc.ca.gov](mailto:water.division@cpuc.ca.gov), or by mail to the Tariff Unit, Water Division, 3<sup>rd</sup> Floor, CPUC, 505 Van Ness Avenue, San Francisco, CA 94102) and to Cal Water (by email to [cwsrates@calwater.com](mailto:cwsrates@calwater.com), or by mail to the Rates Department, California Water Service Company, 1720 N. 1<sup>st</sup> Street, San Jose, CA 95112).

### NOTICE OF PROPOSED RATE CHANGE BEFORE THE CALIFORNIA PUBLIC UTILITIES COMMISSION (CPUC)

Beginning January 1, 2026, the water bills of California Water Service (Cal Water) customers in the North Valley Region's Oroville area will reflect a pass-through of lower wholesale water charges by the County of Butte and increased charges for purchased power from Pacific Gas & Electric, incurred by the company. The California Public Utilities Commission (CPUC), the state agency that regulates Cal Water, has determined that expenses for wholesale water and purchased power are not under the company's control, and that a pass-through of those costs to customers is just and reasonable if properly calculated. Cal Water is also requesting to change rates for costs associated with completed infrastructure projects previously authorized by the CPUC in Decision 24-03-042.

On or around November 21, 2025, Cal Water will file Advice Letter 2570 to request authority to increase its annual revenue in the North Valley Region by \$375,530, or 0.9%. Pending the CPUC's review of Cal Water's calculations, the rate will be effective on January 1, 2026. With the increase, a typical monthly bill for an Oroville residential customer with a 5/8" x 3/4" meter who uses 6 CCF of water (which is 600 cubic feet, or approximately 4,488 gallons) per month will increase by \$0.05, or 0.1%.

On or around November 21, 2025, Cal Water will file Advice Letter 2571 requesting authority to increase revenues to recover recently completed and previously authorized infrastructure improvements. In the advice letter, Cal Water requests additional revenue of \$93,441, or 0.2% of currently authorized revenue. If approved, effective January 1, 2026, the water bill of an Oroville residential customer with a 5/8" x 3/4" meter who uses 6 CCF of water per month will increase by approximately \$0.08, or 0.2%. Although previously authorized by the CPUC in Decision 24-03-042 as part of the utility's triennial rate review process, the project's cost could only be recovered through a rate increase after it was completed.

A copy of Advice Letters 2570 and 2571 will be available on the internet at <https://www.calwater.com/rates-advice-letters/> (please select the Oroville District from the drop-down menu), and may also be obtained from the company's local offices by calling (530) 533-4034. You may also contact the company's headquarters by mailing the Rates Department at 1720 North First Street, San Jose, California 95112-4598, or by calling (408) 367-8200 and asking for the Rates Department. Cal Water offers many programs to help you manage your water bill including a customer assistance program (CAP, formerly the low-income ratepayer assistance program or LIRA), water conserving appliance rebates, and other conservation programs. Please visit our website at [www.calwater.com](http://www.calwater.com) to take advantage of these opportunities.

Protests and Responses. Anyone may respond to or protest this filing. A response supports the filing and may contain information that proves useful to the Commission in its evaluation. A protest objects to the filing in whole or in part

and must set forth the specific grounds on which it is based, and shall provide citations or proof where available to allow Commission staff to properly consider the protest. The grounds for protests are:

1. The utility did not properly serve or give notice of the filing.
2. The relief requested in the filing would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies.
3. The analysis, calculations, or data in the filing contains material error or omissions.
4. The relief requested in the filing is pending before the Commission in a formal proceeding, or
5. The relief requested in the filing requires consideration in a formal hearing, or is otherwise inappropriate for the filing process, or
6. The relief requested in the filing is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the Commission).

A response or protest must be made in writing and received by the Commission's Water Division by December 16, 2025, the end of the comment period. The response or protest should be sent to the CPUC (by email to [water.division@cpuc.ca.gov](mailto:water.division@cpuc.ca.gov), or by mail to the Tariff Unit, Water Division, 3<sup>rd</sup> Floor, CPUC, 505 Van Ness Avenue, San Francisco, CA 94102) and to Cal Water (by email to [cwsrates@calwater.com](mailto:cwsrates@calwater.com), or by mail to the Rates Department, California Water Service Company, 1720 N. 1<sup>st</sup> Street, San Jose, CA 95112).

**NOTICE OF PROPOSED RATE CHANGE BEFORE  
THE CALIFORNIA PUBLIC UTILITIES COMMISSION  
(CPUC)**

Beginning January 1, 2026, the water bills of California Water Service (Cal Water) customers in the Salinas Valley Region's King City area will reflect a pass-through of higher pump taxes from the Pajaro Valley Water Management Agency and increased charges for purchased power from Pacific Gas & Electric, incurred by the company. The California Public Utilities Commission (CPUC), the state agency that regulates Cal Water, has determined that expenses for pump taxes and purchased power are not under the company's control, and that a pass-through of those costs to customers is just and reasonable if properly calculated.

On or around November 21, 2025, Cal Water will file Advice Letter 2570 to request authority to increase its annual revenue in the Salinas Valley Region by \$830,258 or 1.7%. Pending the CPUC's review of Cal Water's calculations, the rate will be effective on January 1, 2026. With the increase, a typical monthly bill for a King City residential customer with a 5/8" x 3/4" meter who uses 7 CCF of water (which is 700 cubic feet, or approximately 5,236 gallons) per month will increase by \$0.44, or 0.9%.

A copy of Advice Letter 2570 will be available on the internet at <https://www.calwater.com/rates-advice-letters/> (please select the King City District from the drop-down menu), and may also be obtained from the company's local offices by calling (831) 385-5486. #### NOTICE OF PROPOSED RATE CHANGE BEFORE THE CALIFORNIA PUBLIC UTILITIES COMMISSION (CPUC)

Beginning January 1, 2026, the water bills of California Water Service (Cal Water) customers in the Visalia District will reflect a pass-through of higher pump taxes by the City of Visalia and increased charges for purchased power from Southern California Edison, incurred by the company. The California Public Utilities Commission (CPUC), the state agency that regulates Cal Water, has determined that expenses for pump taxes and purchased power are not under the company's control, and that a pass-through of those costs to customers is just and reasonable if properly calculated. Cal Water is also requesting to change rates for costs associated with completed infrastructure projects previously authorized by the CPUC in Decision 24-03-042.

On or around November 21, 2025, Cal Water will file Advice Letter 2570 to request authority to increase its annual revenue in the Visalia District by \$155,479, or 0.42%. Pending the CPUC's review of Cal Water's calculations, the rate will be effective on January 1, 2026. With the increase, a typical monthly bill for a Visalia residential customer with a 5/8" x 3/4" meter who uses 11 CCF of water (which is 1,100 cubic feet, or approximately 8,228 gallons) per month will increase by \$0.09, or 0.32%.

On or around November 21, 2025, Cal Water will file Advice Letter 2571 requesting authority to increase revenues to recover recently completed and previously authorized infrastructure improvements. In the advice letter, Cal Water requests additional revenue of \$29,327, or 0.08% of currently authorized revenue. If approved, effective January 1, 2026, the water bill for a Visalia residential customer with a 5/8" x 3/4" meter who uses 11 CCF of water per month will increase by \$0.02, or 0.07%. Although previously authorized by the CPUC in Decision 24-03-042 as part of the utility's triennial rate review process, the project's cost could only be recovered through a rate increase after it was completed.

A copy of Advice Letters 2570 and 2571 will be available on the internet at <https://www.calwater.com/rates-advice-letters/> (please select the Visalia District from the drop-down menu), and may also be obtained from the company's local offices by calling (559) 624-1600. You may also contact the company's

headquarters by mailing the Rates Department at 1720 North First Street, San Jose, California 95112-4598 or by calling (408) 367-8200 and asking for the Rates Department.

A protest objects to the filing in whole or in part and must set forth the specific grounds on which it is based, and shall provide citations or proof where available to allow Commission staff to properly consider the protest. The grounds for protests are:

1. The utility did not properly serve or give notice of the filing.
2. The relief requested in the filing would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies.
3. The analysis, calculations, or data in the filing contains material error or omissions.

**NOTICE OF PROPOSED RATE CHANGE BEFORE THE CALIFORNIA PUBLIC UTILITIES COMMISSION (CPUC)**

Beginning January 1, 2026, the water bills of California Water Service (Cal Water) customers in the Willows District will reflect a pass-through of increased charges for purchased power from Pacific Gas & Electric, incurred by the company. The California Public Utilities Commission (CPUC), the state agency that regulates Cal Water, has determined that expenses for purchased power are not under the company's control, and that a pass-through of those costs to customers is just and reasonable if properly calculated.

On or around November 21, 2025, Cal Water will file Advice Letter 2570 to request authority to increase its annual revenue in the Willows District by \$25,674, or 0.6%. Pending the CPUC's review of Cal Water's calculations, the rate will be effective on January 1, 2026. With the increase, a typical monthly bill for a Willows residential customer with a 5/8" x 3/4" meter who uses 7 CCF of water (which is 700 cubic feet, or approximately 5,238 gallons) per month will increase by \$0.20, or 0.4%.

A copy of Advice Letter 2570 will be available on the internet at <https://www.calwater.com/rates-advice-letters/> (please select the Willows District from the drop-down menu), and may also be obtained from the company's local offices by calling (530) 934-4735. #### NOTICE OF PROPOSED RATE CHANGE BEFORE THE CALIFORNIA PUBLIC UTILITIES COMMISSION (CPUC)

Beginning January 1, 2026, the water bills of California Water Service (Cal Water) customers in the Westlake District will reflect a pass-through of higher wholesale water charges by the Calleguas Municipal Water District, higher recycled water charges by the Triunfo Water & Sanitation District, and increased charges for purchased power from Southern California Edison, incurred by the company. The California Public Utilities Commission (CPUC), the state agency that regulates Cal Water, has determined that expenses for wholesale water and purchased power are not under the company's control, and that a pass-through of those costs to customers is just and reasonable if properly calculated.

On or around November 21, 2025, Cal Water will file Advice Letter 2570 to request authority to increase its annual revenue in the Westlake District by \$1,261,312, or 5.0%. Pending the CPUC's review of Cal Water's calculations, the rate will be effective on January 1, 2026. With the increase, a typical monthly bill for a Westlake residential customer with a 5/8" x 3/4" meter who uses 10 CCF of water (which is 1,000 cubic feet, or approximately 7,480 gallons) per month will increase by \$2.44, or 3.4%.

A copy of Advice Letter 2570 will be available on the internet at <https://www.calwater.com/rates-advice-letters/> (please select the Westlake District from the drop-down menu), and may also be obtained from the company's local offices by calling (805) 497-2757. You may also contact the company's headquarters by mailing the Rates Department at 1720 North First Street, San Jose, California 95112-4598, or by calling (408) 367-8200 and asking for the Rates Department. **Protests and Responses.** Anyone may respond to or protest this filing. A response supports the filing and may contain information that proves useful to the Commission in its evaluation. A protest objects to the filing in whole or in part and must set forth the specific grounds on which it is based, and shall provide citations or proof where available to allow Commission staff to properly consider the protest. The grounds for protests are:

1. The utility did not properly serve or give notice of the filing.

2. The relief requested in the filing would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies.
3. The analysis, calculations, or data in the filing contains material error or omissions.
4. The relief requested in the filing is pending before the Commission in a formal proceeding, or
5. The relief requested in the filing requires consideration in a formal hearing, or is otherwise inappropriate for the filing process, or
6. The relief requested in the filing is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the Commission).

A response or protest must be made in writing and received by the Commission's Water Division by December 16, 2025, the end of the comment period. The response or protest should be sent to the CPUC (by email to [water.division@cpuc.ca.gov](mailto:water.division@cpuc.ca.gov), or by mail to the Tariff Unit, Water Division, 3<sup>rd</sup> Floor, CPUC, 505 Van Ness Avenue, San Francisco, CA 94102) and to Cal Water (by email to [cwsrates@calwater.com](mailto:cwsrates@calwater.com), or by mail to the Rates Department, California Water Service Company, 1720 N. 1<sup>st</sup> Street, San Jose, CA 95112).

**REGARDING PROPER AND TIMELY SERVICE OF ADVICE LETTER**

I, Greg A. Milleman, declare and state:

1. I am the Vice President, Rates and Regulatory Affairs, of California Water Service Company (U 60 W) ("Cal Water").
2. Cal Water is filing Advice Letter 2570 on November 21, 2025, requesting a revenue increase for all ratemaking areas except Grand Oaks and Travis to reflect production expense offsets.
3. Customer notices of the filing of this advice letter are being provided through the publication of a legal notice in a newspaper of general circulation. This advice letter includes a copy of the publication orders that identifies the name of the publication, the date of publication, and a copy of the notice itself.
4. This newspaper publication meets the requirements of the California Public Utilities Commission's ("Commission's) General Order 96-B ("GO 96-B"), Water Industry Rule 3.1.
5. With the first customer bill reflecting the requested revenue increase, Cal Water will inform customers of the rate increase, and its impact on a typical residential customer's bill in both dollar and percentage terms.
6. This customer bill notice meets the requirements of the Commission's GO 96-B, Water Industry Rule 3.2.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

Executed on November 21, 2025, in San Jose, California.
